Get Acquainted with ...

Bowers and Ruddy Galleries, Inc.

Are you an active collector, dealer, or investor? Then it will pay you real dividends to get acquainted with Bowers and Ruddy Galleries, Inc. By means of the *Rare Coin Review*, private quotations, and special listings our firm has helped to build many of the outstanding collections in existence today. James F. Ruddy, Nancy Ruddy, and Q. David Bowers are directors of Bowers and Ruddy Galleries, Inc., and its American Auction Association division. The American Auction Association conducts fine auction sales; Bowers and Ruddy Galleries, Inc. handles direct sales by catalogues and private quotations. You'll enjoy doing business with both firms!

From Bowers and Ruddy Galleries, Inc. you get ...

QUALITY AND VALUE: Carefully and conservatively graded coins; excellent values that we think you'll find to be the best buys in the coin business today.

SELECTION: Take your pick from the world's largest inventory of choice and rare coins.

PLUS: Guaranteed satisfaction; guaranteed authenticity. Fast service ... And the satisfaction of doing business with experienced professional numismatists – James F. Ruddy, Nancy Ruddy, Q. David Bowers, Karl Stephens, John Murbach, Judy Cahn, Don Suter, Richard Kostelnik, Don Hauser, and others on our staff – who have handled just about every rarity in the book via the finest collections to be sold in America and Europe.

HOW TO BEGIN: The best way to get acquainted with Bowers and Ruddy Galleries, Inc. is through our magazine, the *Rare Coin Review*. Published several times a year, the *Review* usually sells for $2 per copy. We are now offering a Special Subscription Rate for the next four issues of the *Rare Coin Review* issued by Bowers and Ruddy Galleries, Inc. PLUS all auction catalogues and lists of prices realized (normally $2 each) issued during that period by the American Auction Association. Request the Combined Subscription Rate (to U.S. addresses $10.00; to foreign addresses by surface mail $15.00; to foreign addresses by air mail $25.00). Your money back if you don't find the *Review* to be the most interesting and most value-filled rare coin catalogue you've ever read. In the past, *Review* readers have had first pick of the Litchfield Collection, the Westwood Collection, the Ryder Collection, the Ray Collection, the Wilmette Collection, the Larsen Collection, and other collections we've purchased. Don't miss out on the best buys in the months ahead – get on the Bowers and Ruddy Galleries, Inc./American Auction Association mailing list today! You can't lose a thing. On the other hand you can gain a lot – by learning where the leading collectors, dealers, and investors make their best buys.

A Bowers and Ruddy Service for the Investor: Interested in coins as an investment: Then find out about our *Collection/ Investment Program* – a limited program for the collector or investor who wants to spend from $100 to $500 or more per month on selected choice coins. James F. Ruddy personally supervises your program and selections. Sound interesting: Write today for complete information.

IT'S EASY TO BID BY MAIL at an American Auction Association sale. (1) Read our sale catalogue carefully and determine which Lots are of interest to you. (2) Enter your bids on this sheet. If you want us to increase your bids by 10% or 20% if necessary to buy the lots, indicate this in the appropriate space. As noted in our catalogue, we will not use your maximum bids unless it is necessary; we will buy below your maximum bids when competition permits. (3) Send your bids in early. (4) During the week to 10-day period after the sale our invoice will be sent to you for all lots you've purchased, or if credit has been established the lots themselves will be sent.

WE APPRECIATE YOUR PARTICIPATION in this sale. We wish you the best of success in obtaining those Special Lots of interest!

INSTRUCTIONS FOR BIDDERS — PLEASE READ BEFORE BIDDING

TERMS OF SALE

1. All bids are to be per Lot; no lots will be broken. In the event of identical bids on the same Lot, the Lot will be awarded to the first bid received. In the event of a dispute during floor bidding the auctioneer may at his discretion immediately put the Lot up for sale again.

2. All sales are strictly for cash in U.S. funds and must be paid for promptly upon receipt of the auction invoice and/or the coins. Lots delivered in California are subject to state sales tax unless a resale permit is on file with us. Shipping, handling, and insurance charges will be added to invoices for Lots delivered by mail.

3. Bidders not known to us must furnish satisfactory references or a deposit equal to 25% of the bids submitted (which will be applied to purchases; any difference will be billed; any overage will be refunded). We reserve the right to obtain payment in full before delivery of the Lots. Title does not pass until lots are paid for in full.

4. No "buy" or unlimited bids will be accepted. No bids will be accepted from minors. The auctioneer and/or the cataloguer reserves the right to refuse any bid which, in our opinion, is not made in good faith.

5. All items are guaranteed genuine.

6. We cannot be responsible for your errors in bidding, so check your bid sheet carefully.

7. Auction sales are not approval sales. Any Lot may be examined before bidding. No Lot may be returned by a mail bidder without our permission in writing. Requests to return coins must be made in writing within 3 days of receipt of the coins.

8. No lots may be returned for any reason by floor buyers (including those acting as agents for others). All floor sales are final.

9. Any claims involving errors in the catalogue or for other reasons must be made within 3 days of receipt of the coins. The American Auction Association acts as agent for the various consignors and does not own the coins. For this reason, no claims of any kind can be considered after settlements have been made with the consignors. Any dispute after the settlement date is strictly between the bidder and the consignor, without involvement or responsibility of the American Auction Association and/or the cataloguers. In the event of a typographical error or attribution error or other error, the cataloguer reserves the right to withdraw any item from sale or, if the error is discovered at a later date, to refund the buyer's money without further obligation.

10. Printed prices, catalogue values, etc. are only estimates. Higher or lower valuations may prevail. In the United States series estimates are given only on particularly expensive and/or unusual lots. We will gladly answer any other questions you might have.

11. Your submitting of bids in our sale constitutes your acceptance of the foregoing terms.

NOTICE OF EXHIBITION

Auction sale lots will be available for viewing at our offices at 6922 Hollywood Boulevard, Los Angeles, California 90028. Hours of examination are 10:00 a.m. to 4:00 p.m. daily on the days of exhibition (see below). Hours will be strictly observed as coins are kept in bank vaults and we must abide by the bank opening and closing hours.

EXHIBITION TIME: Monday through Thursday, December 8 through December 11, 1975, at our offices 10:00 a.m. to 4:00 p.m.

No lots will be shown at the sale itself.

INSTRUCTIONS FOR MAIL BIDDERS

Deadline for receipt of mail bids: Noon, Wednesday
December 10, 1975

Be sure to read the TERMS OF SALE as they apply to mail bidders as well as floor bidders.

A bid sheet has been provided with this catalogue. Double check your bids before sending them, for we cannot be responsible for any errors on your part. Be sure to sign your bid sheet. Mail your bids early! Deadline for receipt of mail bids is Wednesday, December 10, 1975.

If you bid by mail we will act as your agent and will buy for you under your bid if the next highest bid permits. No commission will be charged for handling your bids. Example: If you bid $120.00 on a lot and the next highest bid is $100.00, then we will buy the lot for you at a nominal advance — approximately $105.00 in this example. If you bid $120.00 and the next highest bid is $115.00, then you will be charged the full $120.00 amount of your bid.

In the case of tie bids, the earliest bid received is awarded the lot. Check our catalogue carefully. There are many beautiful and rare coins offered.

Plan to Attend the Sale!

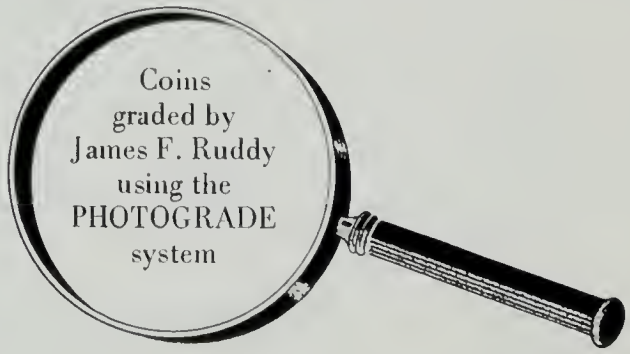

The sale will be held in the Blossom Room on the main floor of the Hollywood Roosevelt Hotel, 7000 Hollywood Boulevard, Hollywood, California. The Hollywood Roosevelt is just across the street from our American Auction Association offices. Or, you can make reservations at the Holiday Inn (about one block away) at 1755 North Highland Avenue, Hollywood.

Plan to attend our December 12th and 13th sale. Come a few days early to view the lots. We also invite you to bring your family along with you. There are many interesting things for them to see and do in the Los Angeles area while you are attending our sale. Such attractions as Universal City, Disneyland, Knott's Berry Farm, and Busch Gardens are but a short drive away.

NOTICE: No lots will be delivered at the sale itself. Bidders attending the sale in person can obtain their lots at our offices the following Monday morning, December 15, at 10:00 a.m. or can make arrangements to have their purchases shipped. This is done for security reasons. Thank you for your understanding.

ALL ILLUSTRATIONS ARE OF THE ACTUAL COINS BEING SOLD

A WORD ABOUT GRADING: The sale lots have been graded by James F. Ruddy using the *Photograde* system. The same careful and accurate grading used by Bowers and Ruddy Galleries, Inc. has been used in this sale. You'll be pleased with the quality.

The

KENSINGTON

Collection

The Kensington Collection

Numismatic history is highlighted every few years by a *landmark auction sale.* In the past such auctions as the Bushnell Collection (1882), John Story Jenks (1921), William Forrester Dunham (1941), and others have achieved immortality due to the *rarities* they contained. Taking its place among the top several dozen greatest auction sales ever held in America will be the Kensington Collection sale described in this catalogue.

Rarities abound! Among American colonial coins the Kensington Collection sale includes *two* specimens of the exceedingly rare 1652 Willow Tree shilling, superb Pine Tree silver pieces, a complete offering of the seldom-seen silver coins of Maryland (including two of the exceedingly rare fourpence pieces!), several 1776 Continental dollars, the legendary 1786 Immunis Columbia/New Jersey copper, the remarkable 1786 Nova Constellatio of which just a few pieces are known, the 1786 Non Vi Virtute Vici copper and the 1787 New York Excelsior "cent," the finest known specimen of that rarity of rarities—the 1787 Massachusetts cent with transposed arrows, the 1790 Standish Barry threepence, the remarkable New Yorke In America token in pewter, and not one but two different—copper and silver—specimens of the issue which the *Guide Book of U.S. Coins* has called "unsurpassed in beauty and design by any piece issued for American circulation"—the 1796 P.P.P. Myddelton token.

United States copper coins comprise many delicacies, including outstanding half cents and some of the nicest large cents to appear in many a year. Included among the latter are outstanding examples of the famous 1793 Chain, Wreath, and Liberty cap cents, not to mention early Condition Census cents, Uncirculated pieces, and other desirable issues. Among small cents we mention *several* 1856 flying eagle cents for a starter! Two-cent pieces, three-cent pieces in silver and nickel, and nickel five cent pieces are all represented by choice pieces. Half dimes extend from 1794 to 1873, and dimes run from 1796 to modern times—each series with scarcities and rarities. Quarters are highlighted by an example of the seldom-seen 1827 restrike in Proof grade. Half dollars comprise issues from the earliest years to recent times, including an Uncirculated 1795, a 1796, a mint-state 1836 with reeded edge, not to mention choice Liberty seated (including a stunning group of pieces in the 1880's!), Barber, and Liberty walking coins.

Silver dollars include such famous rarities as 1794, an Uncirculated 1797 (have you ever seen another offered?), 1836 Gobrecht with C. GOBRECHT F. below base, 1838 and 1839 Gobrecht, 1871-CC, 1873-CC, and a run of Morgan dollar Proofs which includes the "king of Morgan dollars," the 1895.

Gold coins include some of the rarest and finest coins to be put on the auction block in our generation. Gold dollars feature scarce Charlotte and Dahlonega coins (including *two* of the 1860-D), Uncirculated pieces of the Type II design, and a number of later gems. Quarter eagles of note include the 1796 with stars, 1825, 1829, and a complete run of gem Matte Proofs 1908-1915. $3 gold pieces are highlighted by the finest known 1854-D, not to mention many other scarcities and rarities. And then there is one of the finest 1879 flowing hair Stellas ever to be sold. Half eagles include pieces from the first year of issue, 1795, to the last, 1929—there being two specimens of the latter date, a prime rarity. $10 gold pieces are highlighted by many early issues (including 1798/7), two pieces of the famed 1907 wire edge with periods, the 1920-S, and the 1930-S. Double eagles run from 1850 to the 1920's and include several Uncirculated Carson City issues, the 1861-S Paquet, a top-grade 1879-O, and rarities in the Saint-Gaudens series. Offered are several different examples of that masterpiece of superb artistry: the MCMVII (1907) High Relief double eagle. Then come United States patterns, tokens, and medals.

A 1915-S DOUBLE Panama-Pacific set! A set so rare that only four or five exist in all of numismatics; a set so rare that *none* of the major collections auctioned during this century have contained one! There's one in the Kensington Collection sale—and it may well be the only time in your life you'll have an opportunity to acquire this, the most remarkable American coin set ever officially issued. So important is this occasion that we've included a detailed history concerning the set's background, original offering, and the story of the coins at the 1915 San Francisco event.

Early United States Proof sets come on the market from time to time. Using patience, the numismatist can, by ordering from many sources, piece together sets from the pre-1916 years. Such sets are, of course, very desirable. *Incredibly desirable* are the sets we offer here—not "made up" sets but, rather, original sets from 1867 to 1916 accompanied by the *original mint wrappers!*

And then there is an original 1861 C.S.A. cent—one of just twelve made by Lovett in 1861 for the Confederacy. And then there are some beautiful pieces of paper money. We could go on and on . . . but the catalogue is in your hands, and you can see the other American numismatic treasures for yourself.

Ancient coins and coins of the world in the Kensington Collection sale would make a fine catalogue in themselves. Starting out this section is a fine offering of ancient Byzantine, Greek, and Roman issues, including gold rarities.

Among coins of the world are issues listed from Afghanistan alphabetically through Zanzibar, with dozens of countries—some great and others now forgotten—represented. Early crowns, patterns, specimen strikings, rarities, scarcities, dealers' lots, Proof sets, gold pieces—you'll find something from just about every category!

Coins of the world are one of the most active areas in numismatics. An advantage of this vast field at the present time is that major rarities are not necessarily expensive—although most specialists, dealers, and scholars believe that they will be someday. All of this means that *now* is the time to buy! The Kensington Collection catalogue offers a truly wonderful variety of ancient coins and coins of the world. We recommend that you peruse it carefully!

We invite you to attend the Kensington Collection auction in person. To facilitate your plans, we have scheduled the United States part of the sale, Lots 1 through 1250, to be sold on Friday, December 12th. Then on Saturday, beginning at 10:00 a.m. sharp, the ancient coins and coins of the world will be sold.

Bidding by mail is a convenient way to participate in the Kensington Collection sale if you cannot attend personally. In fact, most of our clients buy this way. With the Kensington Collection catalogue you will find a bid sheet and postpaid envelope-mailer for your use in this regard. If you bid by mail we will act as your agent and will represent your interest.

We take this space to thank the several consignors—the main Kensington Collection owner, a well-known English gentleman, a prominent midwest numismatist, Mr. Jerome Shochet, and several others—for making this, one of the greatest auctions of all time, possible.

It has been a great pleasure cataloguing the Kensington Collection sale. As with our other auction sales, this volume is the effort of many different numismatists and graphic artists on our staff. Check the catalogue carefully—it is one of the greatest in numismatic history. As the sale is very diverse, please be sure to check the **Index** at the back of the catalogue so as not to overlook items of your interest and specialty. Now that the Kensington Collection sale is about to take place we invite you to submit your bids, either in person or by mail. A really *great* sale is about to occur. We thank you for your participation!

FIRST SESSION

Friday Afternoon, December 12. 1:00 p.m. Sharp. Lots 1 to 694

U.S. Gold Coins

U.S. Gold Dollars

1 **1849 Open wreath.** First major design type of this year. **Small head** variety. With L (for Longacre) on truncation. Attractive AU with nearly full original mint lustre. Uncommon.

2 Group of gold dollars: (1) 1849 Closed wreath. EF-AU. Some light staining, perhaps water staining, on obverse. Probably could be improved by judicious cleaning; (2) 1851 Extremely Fine; (3) 1852 Extremely Fine or slightly better; (4) 1853 AU. Exceptionally sharply struck. A nice lot! (Total: 4 pieces)

3 Pair of gold dollars: (1) 1849 Open wreath. AU. Lightly struck at obverse center; (2) 1856 Slanting 5 in date. EF-AU. (Total: 2 pieces)

4 Trio of gold dollars: (1) 1849-O Open wreath. VF-EF. Small scratch across head. First date of gold dollar issue; (2) 1851 Very Fine; (3) 1852 Brilliant Uncirculated with light rubbing. (Total: 3 pieces)

5 Trio of gold dollars: (1) 1851 Extremely Fine; (2) 1852 EF-AU; (3) 1853 Extremely Fine, lightly polished. (Total: 3 pieces)

6 **1852 Brilliant Uncirculated.** An attractive coin and, as such, a candidate for a top-grade gold type set.

7 **1853 Choice Brilliant Uncirculated.** Not common in this outstanding condition.

8 1853 Brilliant Uncirculated with light rubbing.

9 1853 Lustrous AU.

10 1853 EF-AU.

11 **1854 Type I. Choice Brilliant Uncirculated.** Deep yellow gold. An extraordinarily sharp strike. A prize early gold dollar!

Choice BU 1854 Type II Gold Dollar

12 **1854 Type II** gold dollar. A **Choice Brilliant Uncirculated** specimen of this rare design type. Extremely well struck, with only microscopic evidence of weakness at the date. One of the finest gold dollars of the Type II design to come on the market in recent decades. A premium coin worth a top bid!

Note: When the Type II gold dollar design was adopted in 1854 it was soon learned that the pieces did not strike up properly, particularly at the two center figures of the date (the 8 and 5) and at the LL of DOLLAR. This is because these features were directly opposite the part of the obverse in highest relief, and there simply was not enough metal to deeply fill the parts of the reverse and the high-relief parts of the obverse at the same time (unless exceptional pressure or multiple striking were used, which the mint was not willing to do on production-line coins). As a result, the design of the gold dollar was changed in 1856. The problem was thus obviated. The Type II design was struck only in part of 1854, all of 1855, and at the San Francisco Mint in 1856. Specimens in high grades are elusive today. Well struck pieces are great rarities for the reasons just cited.

13 **1854 Type II. Extremely Fine.** A pleasing specimen of this popular gold dollar design.

14 **1854 Type II.** VF-EF. Some surface marks. Scarce.

15 1855 AU. A desirable specimen of the Type II design.

16 1855-O Very Fine, lightly polished. Minute trace of an edge repair.

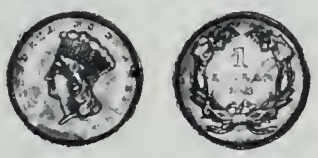

Note: Of significance as the only New Orleans Mint gold dollar of the limited-issue Type II design. Only 55,000 were minted.

17 1856 Upright 5 in date. First year of the Type III design. Extremely Fine.

18 Pair of gold dollars: (1) 1856 Slanting 5 in date. Extremely Fine; (2) 1861 AU or slightly better. Struck from lightly polished dies (the coin shows some clash marks, indicating that earlier the dies came together without an intervening planchet; the dies were then lightly polished to remove some of the clash marks). (Total: 2 pieces)

19 Pair of gold dollars: (1) 1856 Slanting 5. Abt. Fine; (2) 1889 AU. (Total: 2 pieces)

20 Pair of gold dollars: (1) 1858 Extremely Fine; (2) 1859-S Scarce issue. VF-EF. Mounting mark at top edge (the coin was once used as jewelry). (Total: 2 pieces)

21 1861 **Brilliant Uncirculated.** Deserving of the adjective *Choice* so far as the surfaces, which are superb, go—but there is light striking on the obverse with the result that the C in AMERICA is not struck up, and there is a planchet defect above M. Otherwise really outstanding!

22 1862 **Brilliant Uncirculated.** A nice specimen of this Civil War year issue.

23 1871 AU. Rare issue; only 3,930 pieces were minted. An exceptionally deep and bold strike. A rare opportunity for the gold dollar specialist!

24 1874 **Choice Brilliant Uncirculated.** A beautiful gold dollar in every respect.

25 1874 **Choice Brilliant Uncirculated.** A second specimen which is just as nice as the first.

Prooflike Gem 1879 Gold Dollar

26 1879 **Prooflike Gem Uncirculated.** A superb specimen of this very elusive gold dollar issue. Just 3,030 were minted, and very few survive today in a state of preservation even approaching this.

Note: Acquired from us several years ago for $219; a price which seems incredibly low today!

Gem Uncirculated 1880 Gold Dollar

27 1880 **Gem Uncirculated.** An absolutely perfect specimen of this rare date. Only 1,636 specimens of the 1880 gold dollar were minted, thus making it a rarity in *any* condition. The present specimen is superb and should find a new home with the numismatist or investor who desires the very finest.

Choice Proof 1885 Gold Dollar

28 1885 **Choice Proof.** A breathtakingly beautiful specimen of this elusive date. Ideal for the numismatist who is building a fine type set of gold coins. Quality of this degree is seldom offered on today's market. The Kensington Collection sale presents some rare opportunities, and this is one of them!

29 1885 Extremely Fine.

30 1888 AU.

31 1889 **Choice Brilliant Uncirculated.** An outstanding specimen of the last year of gold dollar coinage.

32 1889 **Choice Brilliant Uncirculated.** Another superb coin!

U.S. Quarter Eagles

Important 1825 Quarter Eagle

33 1825 **Quarter eagle.** Full sharpness of AU or even better, but with numerous bagmarks in the field—the result of the use of this and other contemporary gold coins in bank-to-bank transfers. Prooflike fields enhance the beauty of this showpiece. Only 4,424 quarter eagles of this date were minted. Exceedingly rare in all grades; even more so in the high grade offered here.

Exceptional 1834 No-motto $2½

34 1834 **No motto.** First year of this design type; the *Classic Head.* Small head (1834 quarter eagles occur with two different head sizes). **Choice Brilliant Uncirculated.** Separated from absolute perfection by a couple of rim marks and trivial field marks undoubtedly sustained during the minting process and subsequent bagging/storage.

The 1834 Classic Head quarter eagle is important as the first year of the 1834-1839 design type. Despite the $1,400 *Guide Book* listing, very few specimens in this grade have appeared on the market over the years. A prize item for the knowing collector of American gold coins.

35 Group of quarter eagles: (1) 1834 No motto. Very Fine, but with some surface marks and scratches; (2) 1851 Extremely Fine; (3) 1878 Extremely Fine; (4) 1901 Extremely Fine. Some edge nicks; (5) 1905 AU. (Total: 5 pieces)

36 1836 Very Fine.

37 1836 Very Fine. Duplicate of preceding.

38 1836 Very Fine. Some field scratches.

39 1839-D Rare issue. Only 13,674 minted. Of added importance as the only Dahlonega Mint quarter eagle of the 1834-1839 Classic Head design. The present specimen is a beautiful VF-EF example. A small die break extends from the eagle's head through the center upright of T in STATES.

Note: Considered by some (cf. Walter H. Breen's Varieties of U.S. Quarter Eagles*) to be an overdate: 1839/8.*

40 Group of quarter eagles: (1) 1843 VF-EF; (2) 1850-O Very Fine but with a number of pin scratches; (3) 1857 AU; (4) 1859 Extremely Fine; (5) 1861 AU. (Total: 5 pieces)

41 1843-O Small date. Crosslet 4. Reverse die with numerous breaks near the bottom rim. VF-EF.

42 1844-D Scarce Dahlonega issue. **Extremely Fine.** Traces of prooflike surface. One of just 17,332 pieces minted at the rural Georgia mint this year.

43 1848-D **Extremely Fine.** 13,771 pieces minted this year. Elusive, as are all examples of Dahlonega coinage.

44 Quartette of quarter eagles: (1) 1851 VF-EF; (2) 1852 VF-EF; (3) 1853 VF-EF; (4) 1854 VF-EF. A nice date run of quarter eagles from the mid 19th century. (Total: 4 pieces)

45 Pair of quarter eagles: (1) 1851 VF-EF; (2) 1905 Extremely Fine. (Total: 2 pieces)

46 1858-C Just 9,056 pieces minted; a rarity. Attractive and very desirable. **Extremely Fine.**

47 Group of quarter eagles: (1) 1861 Extremely Fine; (2) 1871-S VF-EF; (3) 1872-S Extremely Fine; (4) 1873 Closed 3. Extremely Fine; (5) 1878 Extremely Fine; (6) 1878-S Very Fine; (7) 1879 VF-EF. (Total: 7 pieces)

48 Group of quarter eagles: (1) 1862 EF-AU; (2) 1873 Open 3. Extremely Fine; (3) 1875-S VF-EF; (4) 1879 AU; (5) 1879-S Very Fine. (Total: 5 pieces)

49 1870-S Extremely Fine. 16,000 minted.

50 1872-S Extremely Fine. 18,000 minted.

51 1876 Scarce date. Only 4,221 minted. Extremely Fine. Linear scratch just below date.

52 1888 **Choice Brilliant Uncirculated.** Uncommon so fine!

53 1889 Extremely Fine. Some verdigris in letter interstices on reverse. In need of a judicious cleaning.

54 1893 **Former Proof.** Now EF+. One of the 106 Proofs minted this year. This piece has seen a year or two of circulation, but in spite of this a considerable amount of the original Proof surface remains.

55 1898 **Choice Brilliant Uncirculated.**

56 1899 **Choice Brilliant Uncirculated.**

57 1900 Brilliant Uncirculated with light rubbing.

58 1902 Brilliant Uncirculated. With edge nick at final A of AMERICA on reverse.

59 1902 **Former Proof.** Similar in concept to Lot 54, this coin was struck as a Proof (one of 193 minted this year) but saw a year or two in circulation. Much of the original Proof surface remains as do other Proof earmarks, but the coin shows ample evidence of having been circulated, albeit for a short while.

Note: Proof gold coins, the "rarest of the rare" today, were once in indifferent demand. During the early years of the 20th century few collectors wanted Proof pieces, except for rarities, so many— probably the majority, in fact—were simply spent. As incredible as it may seem today, Proof $20 pieces of the 1890's and early 1900's retailed for under $25 per coin in the 1920's! As there was little demand for them, most were spent, as noted. As Joni Mitchell has recently sung, "You don't know what you've got 'til its gone," so it was with Proof gold. Today, of course, such coins are highly prized and are, in fact, the creme de la creme of American Proof coins.

60 1902 AU.

61 1903 Brilliant Uncirculated. A few tiny nicks.

62 Trio of quarter eagles: (1) 1904 BU, light rubbing; (2) 1906 Brilliant Uncirculated; (3) 1907 Brilliant Uncirculated. Some light marks. Last year of the long-lived Liberty head style. (Total: 3 pieces)

Note: The Liberty head quarter eagle style endured without major change from 1840 to 1907, the longest span without a major design revision of any series in American numismatic history.

63 1905 Choice Brilliant Uncirculated.

64 1905 Choice Brilliant Uncirculated. A virtual twin of the preceding lot.

CHECK YOUR BID SHEET CAREFULLY!

65 1905 Brilliant Uncirculated. Some light toning areas.

66 1906 Choice Brilliant Uncirculated.

67 1907 Choice Brilliant Uncirculated. Last year of the Liberty head series, one of the most beautiful designs among our gold coins. The small size of the quarter eagle gives the pieces a cameo-like appearance.

Rare Matte Proof 1908 Quarter Eagle

68 1908 **Matte Proof.** One of just 236 Matte Proofs coined this year and one of probably fewer than 50 (our estimate, and even this may be on the generous side) surviving today. Choice save for a scarcely noticeable rim mark near the 4th star. Wire rim on obverse and reverse. Of added importance as the first year of issue of Bela Lyon Pratt's Indian head design, a format which was used from this year, 1908, until 1929.

69 1908 Extremely Fine.

70 Group of quarter eagles: (1) 1908 Extremely Fine; (2) 1909 Extremely Fine; (3) 1911 Extremely Fine; (4) 1925-D Extremely Fine. (Total: 4 pieces)

71 Group of quarter eagles: (1) 1908 Very Fine; (2) 1911 Extremely Fine. Some verdigris in incuse areas; (3) 1914 Extremely Fine; (4) 1914-D Very Fine; (5) 1925-D AU; (6) 1925-D Extremely Fine; (7) 1925-D Extremely Fine. Cleaned with an abrasive. (Total: 7 pieces)

72 Trio of quarter eagles: (1) 1909 Very Good; (2) 1914-D Extremely Fine; (3) 1929 AU. (Total: 3 pieces)

73 Pair of quarter eagles: two pieces of 1925-D, each Brilliant Uncirculated. Last Denver Mint quarter eagle coinage and the latest-dated readily-collectible Denver Mint gold issue (the subsequently-dated Denver Mint double eagles being rather expensive). (Total: 2 pieces)

74 1925-D Brilliant Uncirculated.

75 1925-D Extremely Fine.

76 1926 Choice Brilliant Uncirculated.

77 1927 Choice Brilliant Uncirculated.

78 1927 Brilliant Uncirculated.

79 1928 Brilliant Uncirculated.

U.S. Three-Dollar Gold Pieces

81 1854 **Brilliant Uncirculated.** A beautiful specimen of the first year of issue of the $3 denomination.

Note: 1854 is the only year with the word DOLLARS in small letters on the reverse.

82 1854 **AU.** A very attractive coin with nearly all original mint lustre still evident. A nice coin for the numismatist who wants a beautiful-appearing coin but who does not want to pay the full price for a Brilliant Uncirculated piece.

83 1854 **AU.** Another nearly fully lustrous and highly desirable specimen. A few small marks on the reverse keep this coin out of the Uncirculated class.

84 1854-O Very Fine. Of significance as the only New Orleans Mint coin of this denomination. Rare; only 24,000 were minted.

85 1856 **Brilliant Uncirculated** with light rubbing. Prooflike surface in areas. A very nice specimen of this early $3 issue.

86 1857 Extremely Fine.

87 1860 Extremely Fine. Only 7,155 three-dollar gold pieces were minted this year.

88 1878 **Choice Brilliant Uncirculated.** A nice coin for a type set.

89 1878 **Brilliant Uncirculated.** Another attractive specimen.

90 1878 **Brilliant Uncirculated.** Some minor friction on the very highest points is scarcely worth noting. Another candidate for a high-grade type set.

91 1878 Extremely Fine.

92 1878 Extremely Fine.

U.S. Half Eagles

93 1800 **Extremely Fine.** A pleasing specimen of this early half eagle issue.

THANK YOU FOR YOUR PARTICIPATION!

Mint-State 1803/2 Half Eagle

94 1803/2 **Brilliant Uncirculated.** An exceptionally sharp strike, with unusually prominent definition of details on obverse and reverse. Separated from the Choice category by the usual handling marks, for these coins were extensively used in bank-to-bank transfers of large amounts of money during the early 19th century.

95 1806 **Round top 6. Extremely Fine.** Stars arranged 7 to the left and 6 to the right, as always on the round top 6 variety. Early half eagles of all dates are becoming increasingly hard to find as an ever-growing number of numismatists seek a static supply of classic coins.

96 1810 **Large date. Small 5 on reverse. AU.** A pleasing example of the 1807-1812 capped draped bust to left design style.

97 1810 **Large date. Small 5 on reverse. Extremely Fine.** Another very desirable early half eagle issue.

98 1811 **Large 5. Extremely Fine.** Scarce. The Kensington Collection sale offers an unusual opportunity to bid on several desirable early dates in the half eagle series.

ENTHUSIASM!

It's easy to become enthusiastic about the coins in this sale, for there are so many desirable pieces offered. Be sure to mail your bid sheet early. Best of luck with your bids. We hope you'll obtain those Special Pieces of greatest interest!

99 1834 No motto. Plain 4 in date. Sharp **AU**, and rare as such, but with a tiny scratch along lower outline of Ms. Liberty's cheek. Vestiges of prooflike surface. All in all, a remarkably fine example of the first year of the 1834-1838 Classic Head half eagle type.

100 1834 No motto. Plain 4 as preceding. **AU**, but with some tiny pin scratches in the reverse field. Still a very attractive coin overall.

101 1834 No motto. Plain 4 as preceding coin. Attractive EF-AU.

102 1838 **AU.** A pleasing specimen of the last year of the 1834-1838 Classic Head design. Very rare in this grade.

103 Group of half eagles: (1) 1844 Very Fine; (2) 1847 VF-EF; (3) 1852 VF-EF; (4) 1861 Extremely Fine. A nice group of pre-motto (before the IN GOD WE TRUST motto adopted in 1866) style half eagles. (Total: 4 pieces)

104 1844-O Extremely Fine. Wide rims.

105 1846-D VF-EF. Tiny rim nick on reverse. Scarce and highly-desired Dahlonega issue.

106 Group of half eagles: (1) 1847 Extremely Fine; (2) 1857 Extremely Fine; (3) 1878 Extremely Fine; (4) 1880 Extremely Fine; (5) 1880-S VF-EF. (Total: 5 pieces)

107 Group of half eagles: (1) 1847 Very Fine; (2) 1848 Very Fine; (3) 1856 Very Fine; (4) 1892-CC Very Fine, but with reverse rim suggesting that the coin may have been run over by a trolley car. A numismatic shame!; (5) 1907-D Liberty head. AU. The latest-dated and one of just two Denver Mint Liberty head half eagle issues minted; (6) 1912-S Indian. Fine. (Total: 6 pieces)

108 1858-C Rare Charlotte issue. 38,856 minted. Sharp and attractive VF-EF.

109 1872-CC Very Good. Scarce Carson City issue.

110 1880-CC Very Fine. Scarce.

111 Group of half eagles: (1) 1881 AU; (2) 1882 Extremely Fine; (3) 1883 Extremely Fine; (4) 1886 Extremely Fine; (5) 1900-S Extremely Fine. (Total: 5 pieces)

112 1882-CC Extremely Fine. Scarce.

113 1886-S Choice Brilliant Uncirculated.

114 1891-CC Very Fine.

115 Group of half eagles: (1) 1901 Extremely Fine; (2) 1901-S Extremely Fine; (3) 1902-S VF-EF; (4) 1903 Extremely Fine. (Total: 4 pieces)

116 1901-S Choice Brilliant Uncirculated. A beautiful coin!

117 1903 Brilliant Uncirculated.

118 1903 Brilliant Uncirculated. Duplicate.

119 1906 Extremely Fine.

120 1906-D Brilliant Uncirculated. First half eagle issue of the Denver Mint.

121 Group of Indian type half eagles: (1) 1908 AU; (2) 1909 Extremely Fine; (3) 1909-D EF-AU; (4) 1910 Extremely Fine. (Total: 4 pieces)

122 1908-S Only 82,000 minted; one of the rarest issues in the 1908-1929 Indian head half eagle series. Sharp and attractive AU. A very desirable specimen of this elusive issue.

123 Group of half eagles: (1) 1911 VF-EF; (2) 1911-S VF-EF; (3) 1913 Extremely Fine; (4) 1916-S Extremely Fine. (Total: 4 pieces)

124 1915 AU.

The Celebrated 1929 Half Eagle

125 **1929 Half eagle.** A lovely **Brilliant Uncirculated** specimen which is separated from the Choice category only by a small scratch before the nose on the obverse. Superior to Lot 146 in our recent Winthrop Collection sale (September 1975), an AU coin which was bid up to $2,100 in spirited competition.

The 1929 half eagle is the most famous and most valuable 20th century coin of this denomination—a coin which appears on the market only at widely separated intervals. The presently offered specimen is one of the finest known examples. It should attract wide attention.

Note: The rarity of the 1929 half eagle, a coin of which 662,000 were minted, is explained by the fact that few pieces of this date were released into circulation. The bulk of the mintage was stored in Treasury vaults and went into the melting pot following the demonetization of gold in the United States in 1933. The same situation explains the rarity of certain other high-mintage issues (e.g., branch mint $20) of various gold denominations in the 1920's.

U.S. Eagles

Exceedingly Rare 1798/7 Eagle
—9 stars left; 4 right—

126 **1798/7 Eagle.** Stars arranged with 9 to the left and 4 to the right, a rather unbalanced format in comparison to other eagles of this era. Sharp and exceedingly well struck **Extremely Fine**, but once buffed and with some traces of repair along the bottom edge. The *Guide Book of U.S. Coins* observes that just 900 pieces of this variety were struck. The 1798/7 9/4 stars half eagle is one of the very rarest of all American gold coins. Fewer than 20 specimens are known in various grades, and only infrequently does a specimen appear on the market.

Note: In the monograph "U.S. Eagles" Walter H. Breen has written that there are apparently 17 or 18 specimens of the foregoing variety in existence, in comparison to about 15 specimens of the other variety of this year: the 1798/7 with 7 stars left and 6 right. The 900 specimens of 1798/7 with 9/4 stars are believed to have been delivered from the Philadelphia Mint on February 17, 1798, and were produced by overdating an unused die from 1797 (for no 1797 eagles with the 9/4 stars arrangement are known). As noted, fewer than 20 specimens of this variety exist today.

THE BEST PRICE FOR YOUR COINS

When Armand Champa, one of America's leading numismatists, decided to sell his collection he solicited offers from leading dealers. Dissatisfied with the bids received and with the great time and effort it took to show his collection to many different people, he then consigned his magnificent collection to us for auction sale. The Armand Champa Collection sale took place and attracted international attention. When the sale was over, Mr. Champa told us that his coins sold in our sale for MORE THAN DOUBLE the highest cash offer he had previously received! So appreciative was he, that he did something unprecedented in the annals of numismatics: completely unsolicited by us, Armand Champa placed large advertisements in "The Numismatist," "Coin World," and "Numismatic News" to thank us for the great job we did for him!

Thinking of selling? Do as Mr. Champa did: consign your coins to us. It's the ideal way to sell!

Scarce 1799 $10 Gold

127 **1799 Eagle.** Sharply struck, well-centered, and very attractive EF-AU. A beautiful specimen of this early eagle and, as such, an ideal consideration for a high quality type set of American gold coins.

Note: In recent months the price of gold has gyrated. Investment psychology being what it is, we have received a number of inquiries about our outlook on the investment future of rare gold coins.

*In our recent book on the subject (*High Profits from Rare Coin Investment, *by Q. David Bowers, $3.95 postpaid) we noted:*

"Investment-wise, gold coins have to be divided into two major categories: (1) those which are rare from a numismatic *viewpoint, and (2) those which are scarce (for all U.S. gold coins are "scarce") but whose value is dependent more upon the price movement of gold bullion than upon numismatic considerations.*

"Thus a $3 gold piece, all examples of which are truly rare, is an ideal example of the first category. An Uncirculated specimen of the 1854 $3 gold piece has been valued at the following prices over the years in the Guide Book of U.S. Coins: *1948 $27.50, 1953 $35.00, 1958 $77.50, 1963 $245, 1968 $350, and 1974 $900. This amounts to an increase in your investment of 3,173% over the years!"*

To this we can parenthetically add that the new 1976 Guide Book *prices the piece at $1650 Uncirculated, which makes the investment return to date about 5,000%!*

So, in the case of a rare gold coin it matters little what the price of gold bullion does. Who cares whether the price of an ounce of gold is $100 or $200 so far as rare coins are concerned? If an 1854 $3 sells for $1650, does it matter whether its intrinsic (metal value) is $15 or $30, or whether it goes up to $35 or "slumps" to $20? By the same token, does the numismatist who paid $6,000 for an Uncirculated 1800 silver half dime in one of our recent auctions really care whether the price of bulk silver is $4.50 an ounce, or $3.00, or $10.00, for that matter? What difference does it make?

So it is with rare gold coins. When you buy a numismatically rare *gold coin, the price of bullion makes little difference. For your peace of mind on the subject we can point to history: regardless of the fluctuations in price of common gold coins and gold bullion over the years—and these prices have gone on some nice roller coaster rides—the prices of* numismatically rare *coins have edged steadily upward. The figures from history are there for you to check.*

140 1894 Brilliant Uncirculated.

141 1894-O Extremely Fine. Some obverse marks.

142 1899 Choice Brilliant Uncirculated.

143 1901 Brilliant Uncirculated with light rubbing.

144 1907 Liberty head. Brilliant Uncirculated.

Famed 1907 Wire Edge $10 with Periods

145 **1907 Indian type. Wire rim. With periods before and after E PLURIBUS UNUM on reverse.** Just 500 pieces were minted of this variety, and two were melted, leaving a net mintage of only 498 coins. The presently offered coin is **Choice Brilliant Uncirculated** and is separated from the Gem classification only by a small rim defect (probably incurred during the minting process) to the left of the branch on the reverse. The fields are superb, and the coin possesses the lovely satin surface (which differs from the mint frost of later issues) which characterizes genuine specimens of this rare variety.

The mintage of 498 pieces makes this one of the greatest of all 20th century American coin rarities. These pieces were not specially struck for collectors, so the survival of examples today is more a matter of chance than intent. The rarity of this variety was recognized at an early time, so perhaps 100 to 200 of the 498 still exist today. However, few are in a state of preservation to match the superb example offered in this lot. A prize coin worthy of a top bid!

146 1907 Indian. No periods. Brilliant Uncirculated with light rubbing.

147 1907 Indian. No periods. Brilliant Uncirculated with light rubbing. Another attractive specimen of this variety.

148 1907 Indian. No periods. Extremely Fine, with a few marks in the field.

149 1907 Indian. No periods. Extremely Fine. Small edge bump.

150 1907 Indian. No periods. VF-EF. The last coin in our unusually extensive offering of this popular variety.

151 1908-D No motto. VF-EF.

152 1908 With motto IN GOD WE TRUST. EF-AU.

153 Group of Saint-Gaudens eagles: (1) 1909 Extremely Fine; (2) 1910-D AU; (3) 1911 Brilliant Uncirculated. Some trivial friction on cheek; (4) 1912 Brilliant Uncirculated with light rubbing; (5) 1912-S Extremely Fine; (6) 1913 EF-AU; (7) 1914-D Brilliant Uncirculated, but with light scratch on obverse; (8) 1916-S AU. A nice date and variety grouping of this beautiful design. (Total: 8 pieces)

154 Trio of San Francisco Mint eagles: (1) 1909-S VF-EF; (2) 1910-S Very Fine; (3) 1912-S Extremely Fine. (Total: 3 pieces)

155 1932 Choice Brilliant Uncirculated. Last readily collectible date of the $10 series (the 1933 being, for all practical purposes, uncollectible)—or, for that matter, the last semi-inexpensive United States gold coin (the 1932 $20 also being rather high priced).

156 1932 Choice Brilliant Uncirculated. Another lovely specimen.

U.S. Double Eagles

157 1850 First year of regular issue of the double eagle denomination. Attractive **Extremely Fine.**

158 1852 EF-AU.

159 1854-S First year of double eagle coinage at the San Francisco Mint. Struck from California "Gold Rush" bullion. Historically important issue. Extremely Fine. Small rim mark near 5th star.

160 1855-S Extremely Fine. Lightly polished.

161 1869-S Extremely Fine.

162 1870-S Extremely Fine.

163 1873 Open 3. Brilliant Uncirculated. Obverse with numerous bagmarks. Reverse comparatively free of same. Scarce so fine.

164 1873 Open 3. Extremely Fine. Lightly polished.

165 1875-CC VF-EF. Scarce Carson City issue.

166 1875-CC Very Fine.

167 1875-S Brilliant Uncirculated. Close to the Choice category, and definitely a topnotch example of the 1866-1876 design type.

168 Group of double eagles—a nice run of dates and mintmarks: (1) 1876 Brilliant Uncirculated; (2) 1877 AU; (3) 1877-S AU; (4) 1878 AU; (5) 1880-S Brilliant Uncirculated, light rubbing; (6) 1881-S Brilliant Uncirculated, light rubbing; (7) 1882-S AU; (8) 1888 Brilliant Uncirculated, light rubbing; (9) 1891-S AU; (10) 1893-S Brilliant Uncirculated, light rubbing. (Total: 10 pieces)

169 1876-CC Extremely Fine.

170 1878-S Brilliant Uncirculated with usual bagmarks.

171 1882-S Brilliant Uncirculated with light rubbing.

172 1883-CC An attractive **Brilliant Uncirculated** example with usual bagmarks and some light friction. Still rather exceptional condition for a Carson City double eagle.

173 1883-S Brilliant Uncirculated with usual bagmarks.

174 1884-CC **Brilliant Uncirculated** with light rubbing. Uncommon in this high grade.

175 1884-S Brilliant Uncirculated.

176 1884-S AU.

177 1888-S **Choice Brilliant Uncirculated.** Scarce in this high grade. An ideal coin for a type set!

178 1889-S **Choice Brilliant Uncirculated.** Likewise elusive in this grade.

180 1893 **Choice Brilliant Uncirculated.** Rare so fine.

181 1894 **Choice Brilliant Uncirculated.** Elusive.

182 1894-S **Choice Brilliant Uncirculated.** To find pre-1900 double eagles in Choice Brilliant Uncirculated grade is indeed unusual. The Kensington Collection sale gives you the opportunity to bid on several such scarce select specimens.

183 Trio of double eagles: (1) 1894-S AU; (2) 1900-S AU; (3) 1903-S Extremely Fine. (Total: 3 pieces)

184 1895 **Choice Brilliant Uncirculated, prooflike.** Bagmarks are present, as usual, but they are minimal. A truly *delightful* double eagle to behold.

185 1895-S Choice Brilliant Uncirculated.

THE NUMISMATIC SPECTRUM

The knowledge of our large numismatic staff covers the entire spectrum of numismatics. Thinking of selling? Whether you are selling major United States rarities, pattern coins of French Indo-China, crowns of Africa, or any other speciality, there is a specialist on the American Auction Association / Bowers and Ruddy Galleries staff to take care of all of the necessary research. We offer you a complete numismatic service.

186 1895-S VF-EF.

187 1896 EF-AU.

188 1898 **Brilliant Uncirculated** with usual bagmarks. Mintage lower than contemporary Philadelphia Mint double eagle issues.

189 1899-S Brilliant Uncirculated with light rubbing.

190 1900 Brilliant Uncirculated.

191 1901 Choice Brilliant Uncirculated. Uncommon so fine.

192 1901 Choice Brilliant Uncirculated. Another cameo!

194 1904 Brilliant Uncirculated with light rubbing.

195 1905-S Brilliant Uncirculated.

196 1906-D Brilliant Uncirculated with light rubbing. First Denver Mint double eagle issue.

Choice Uncirculated MCMVII Double Eagle
—Flat rim variety—

197 MCMVII (1907) **High relief double eagle. Variety with flat rim. Choice Brilliant Uncirculated with beautiful satin finish.** This type sometimes is referred to as a *Proof finish* coin. The present specimen is one of the very finest MCMVII double eagles in existence. For many years, probably from the time of issue, it has been kept in a velvet-lined case. As a result it is as perfect today as it was the day it was minted nearly 70 years ago!

The MCMVII double eagle is considered by many numismatists to be the most beautiful regular-issue United States coin. Certainly it does represent a high in artistic merit.

The design was created in 1907 when Augustus Saint-Gaudens, prominent American artist and sculptor, prepared at the personal request of President Theodore Roosevelt this design. Earlier, Roosevelt had been examining contemporary American coins and comparing them with ancient and classical pieces. Thereupon he made the observation that the current coins were hardly artistic and that no advance in coinage art had been made in the 2,000 years since ancient Greek and Roman times.

Saint-Gaudens prepared his illustrious high relief design, an outstanding example of which is offered in this lot. The date is in Roman numerals and the coin is struck in high relief with a sculptured appearance. It was soon learned that the public would find a continuing date sequence of Roman numerals to be confusing and that the high relief of these pieces required several blows of the coining press to bring up the proper sharpness—something that was intolerable in high-volume production runs. So, after 11,240 of the MCMVII high-relief pieces were minted the design was modified to the Arabic numerals and shallow-relief format.

The presently-offered coin cannot be exceeded in quality by any other extant Uncirculated coin of this design. A prize for the connoisseur!

Brilliant Uncirculated MCMVII Double Eagle
—Wire rim variety—

198 **MCMVII (1907) High relief double eagle. Variety with wire rim. Brilliant Uncirculated.** Design as preceding lot, but with high wire rim around borders. An oustanding specimen of this classic American coin design, one of the most beautiful in all of numismatics.

199 1907 Saint-Gaudens design. Arabic numerals. Brilliant Uncirculated.

200 1908 No motto. Brilliant Uncirculated.

201 **1909-D** A rarity. Just 52,500 were minted of this variety. Extremely Fine or slightly better. With small rim bump.

202 1910-S Choice Brilliant Uncirculated.

203 1912 EF-AU.

204 1913 Brilliant Uncirculated.

205 1914-S AU.

206 1915-S Brilliant Uncirculated.

207 1922-S Brilliant Uncirculated.

Important 1924-D Double Eagle

208 **1924-D Choice Brilliant Uncirculated.** A beautiful specimen of one of the most highly prized of all double eagles. One of the finest known examples of this Denver Mint rarity. Worth a really generous bid.

Note: The mintage figure of 3,049,500 for 1924-D is not relevant, for nearly all of these—perhaps about 3,000,000—never were released and were melted in 1934 following the 1933 Gold Order. For another relevant comment about this situation see our note under Lot 125.

209 **1924-D** A second example of this famous and highly prized double eagle rarity. This piece is **Brilliant Uncirculated** with light rubbing. A few marks on the obverse do not materially detract from the beauty of this rare coin.

Outstanding 1924-S Double Eagle

210 **1924-S Choice Brilliant Uncirculated.** A superb specimen of this rarity. Although 2,927,500 were minted, only a few dozen pieces are known to exist today (for reasons as stated in our notes under Lots 125 and 208). Only rarely does a 1924-S of this calibre appear for sale. A prize coin for the connoisseur! Worth a really generous bid.

211 1925-S EF-AU. Another highly prized rarity of the 1920's.

212 1927 Choice Brilliant Uncirculated.

213 1927 Choice Brilliant Uncirculated. Duplicate.

Exceedingly Rare 1927-S Double Eagle

214 1927-S Rare in all grades, the 1927-S is one of the most elusive coins in the Saint-Gaudens double eagle series. The presently offered coin is a nice AU piece with nearly all original mint lustre remaining in the fields. Only rarely does a 1927-S $20 come on the market. Here is such an instance.

215 1928 AU, lightly polished.

U.S. Colonial Coins

It is with great pleasure that we offer one of the most outstanding groups of American colonial coins to come on the market in recent years. Featured are many prime rarities. In our opinion colonial coins represent a truly undiscovered frontier of numismatics so far as prices are concerned. In the regular United States series (pieces struck at the various U.S. mints from 1793 onward) rarities of which fewer than a dozen pieces are known often sell in the $100,000 to $300,000 range. In the colonial series comparable rarities—coins with equal or greater historical and numismatic significance—sell for but a fraction of these prices.

The present offering will be of interest to the astute numismatist as well as to the perceptive investor. Many of the pieces are of such rarity and/or quality that their counterparts will not reappear on the market for many, many years.

'Beautiful Coins'

Dear Sirs:

I recently bought two half dollars from your auction of the Newport Collection. Both are beautiful coins and if anything were undergraded. Thank you for good grading and exceptionally prompt service. - an unsolicited comment from W.S.R. of New Orleans, La.

Extremely Important 1652 Willow Tree Shilling
–Noe plate coin–

★ ★ ★

216 **1652 Willow Tree shilling. Noe No. 20** as attributed in Sydney P. Noe's *The New England and Willow Tree Coinages of Massachusetts.* Struck from Noe's obverse die No. 3 and reverse die D, as described:

Obverse Die 3: Above the tree and just below the fourth stroke of the letter M is a tiny cross . . .

Reverse Die D: The XII is large in scale and low on the field. The central dot is large and pronounced. Punctuation– NEWENGLAND . ANDOM:.

The presently-offered specimen is in Fine condition and is unevenly struck, as usual. It weighs 67.5 grains. In the Noe monograph on this series it is listed as No. 20 and was attributed in 1943 as belonging to a "midwest coin firm" (otherwise unidentified). The piece is illustrated on Plate V (which appears on page 82 of the monograph as subsequently incorporated into Quarterman Publications' collection of Noe monographs: *The Silver Coinage of Massachusetts*, page 82). The coin has a pleasing light gray surface and is on an exceptionally perfect and round planchet. It is one of the finest Willow Tree shillings ever to appear on the numismatic market. As such, it should attract wide attention and spirited bidding. Here is one of the most important classics in the entire series of American coinage.

The coin, the **finest known** of this variety (as Sydney P. Noe could not locate a better specimen), was formerly in the Waldo Newcomer, Col. Green, and F.C.C. Boyd collections, not to mention in several dealers' hands (including the "midwest dealer" noted above) while in transit from one home to another. In recent years it was acquired by Philip Benedetti from John J. Ford, Jr., at a New England Numismatic Association convention. Mr. Benedetti in turn sold it into the Gore Collection in Florida.

Note: All known authentic Willow Tree shillings are indistinctly struck at the center and often in other areas as well. We excerpt some of Sydney P. Noe's comments re this:

The most pronounced characteristics of the Willow Tree coins, and the one which occurs first to most students, is the extraordinary amount of double-striking which they present. In all the specimens which have been gathered for this work, not a single one can be said to have been perfectly struck. Not only do some of the specimens have segments which are not struck up, and therefore show weak or indistinct inscriptions, but overlappings of the letters often make die identifications difficult. So too with the Willow Tree, which gives the type its name—frequently it is a mass of confused lines with little resemblance to a tree of any kind.

217 **1652 Pine Tree sixpence.** Noc-33. Weight: 31.6 grains. **Extremely Fine,** but with some minor surface marks. A planchet crack, incurred during the spread of metal during striking, extends in from the upper left edge. A very attractive specimen of this historical issue.

Exceptionally Sharp Pine Tree Shilling
—"Spiney Tree" variety—

218 **1652 Pine Tree shilling.** Noe-8, the *Spiney Tree* variety. Large planchet. Weight: 71.8 grains. Small planchet clip at right edge does not affect the lettering or legends.

This coin, one of the most beautiful to appear on the market in recent decades, is in AU grade. The surface is bright silver, with scattered areas of deeper toning. A superb specimen of one of America's most romantic coin issues.

Note: Over the years much has been written in fact and fiction concerning the Pine Tree shilling. Two old American legends relating to them are:

1. During colonial times in Massachusetts a bride's dowry would often be paid in Pine Tree shillings—an amount of silver shillings equal to her weight. (Ed. note: How fortunate if the groom was a numismatist!)

2. A Pine Tree shilling, if bent twice, would ward off witches which were once prevalent, so history tells us, in Salem and other Massachusetts towns. This custom was evidently widespread, for collections of Massachusetts silver coins often include one or two pieces which show evidence of this practice (refer to, for example, our 1973 sale of the George A. Merriweather Collection).

Attractive 1652 Pine Tree Shilling
—"Re-engraved Tree" variety—

★

219 **1652 Massachusetts Pine Tree shilling.** Noe-10, the *Re-engraved Tree* variety. So-called, for the outlines of the tree were strengthened by re-engraving the branches. Weight: 66.0 grains. Large planchet. Very attractive Very Fine, as illustrated. Weakly struck on the left side of the obverse and corresponding part of the reverse, as nearly always for Noe-10. A pleasing light gray coloration enhances the beauty of this piece.

Important 1658 Lord Baltimore Fourpence

220 **1658 Cecil, the second Lord Baltimore, fourpence or groat.** Rarest of the three silver denominations produced in England and distributed in America by the "Lord Proprietor of Maryland." (The other silver denominations are the sixpence and shilling.)

The presently-offered coin is **Extremely Fine** or slightly better. It has been plugged near the top rim of the obverse and corresponding part of the reverse. This was done long ago, perhaps in the 19th century, and the piece has since retoned to a natural coloration. An attractive-appearing specimen of a very important issue.

Superb 1658 Lord Baltimore Sixpence

221 **1658 Cecil, the second Lord Baltimore, sixpence.** One of three silver denominations struck in England and circulated in Maryland by Cecil, the "Lord Proprietor of Maryland."

This specimen, a well-struck and very beautiful VF-EF example, is one of the finest pieces ever to appear on the numismatic market. It is superior to the *Guide Book* plate coin. An exceedingly important opportunity for the advanced collector of American colonial coins.

Very Rare 1658 Lord Baltimore Shilling

222 **1658 Cecil, the second Lord Baltimore, shilling.** The largest of the three silver denominations produced in England and distributed in America by Cecil, the "Lord Proprietor of Maryland." **Fine.** Slightly weak at center, as always (cf. *Guide Book* plate coin).

A very important opportunity for the specialist. The only other 1658 Lord Baltimore shilling which we can trace at auction in recent years is the plugged Very Fine coin which Stack's sold in their sale of November 1974, Lot 299, at $2,650.

Exceptional (1694) Elephant Token

223 **(1694) Elephant token. GOD PRESERVE LONDON.** Struck in England toward the end of the 17th century. The *Guide Book* notes that this piece is said to have been struck during the great plague which raged in London, and that the legend, GOD PRESERVE LONDON, relates to that epidemic.

The specimen offered here is a superb **Choice Uncirculated** example with a glossy brown surface. Unlike most of its contemporaries, it is well struck on a full planchet and without even the slightest hint of a die flaw (die flaws and striations are the rule with these pieces). An exceptional coin which is worthy of a runaway price.

Note: Fully equal to the Rainsdorff Collection piece which we acquired in London in 1963 and which sold for $350 over a decade ago—"ancient" times so far as numismatic pricing is concerned!

224 **1723 Hibernia or Wood's halfpenny.** This coin, one of the finest examples in existence, is deeply struck with full borders and is on a perfect planchet. It is **Choice Red and Brown Uncirculated** with glossy, lustrous surfaces. Here is quality in its finest form!

225 1760 Voce Populi halfpenny. EF-AU or better from the standpoint of wear, but weak at the centers as struck. A high grade specimen of this popular issue.

Note: Acquired from Lester Merkin in 1971.

Outstanding 1776 Continental Dollar

226 **1776 Continental dollar.** Newman variety 1-C. Pewter. Variety with CURRENCY misspelled as *CURENCY*. Extremely rare die state with break from G to I of FUGIO just starting. This early condition of the dies is much rarer than the later state with heavy break. **Uncirculated** with light gray toning which enhances the beauty of the coin. Free from any defects or other deleterious situations.

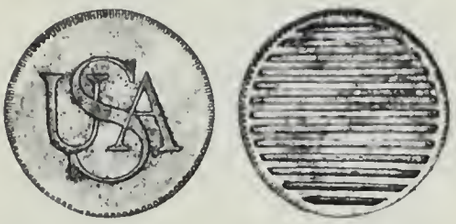

Perhaps more than any other coin in the American colonial series the 1776 Continental dollar is connected with the American Revolution. As such, it is of commanding importance in the present bicentennial era. The legends refer to sentiments of the era. The obverse features a sundial and the aphorism MIND YOUR BUSINESS. In the band is FUGIO ("I fly"—referring to the passage of time). CONTINENTAL CURENCY 1776 in border. Reverse with WE ARE ONE in the center, surrounded by AMERICAN CONGRESS and a chain of 13 links (with the name of a state on each).

Another Desirable 1776 Continental Dollar

227 **1776 Continental dollar.** Newman 2-C. With CURRENCY spelled the way Noah Webster would have it. Struck in pewter. VF-EF with steel gray patination. A few scattered surface marks here and there should be mentioned but do not appreciably detract from the beauty and desirability of the coin. Scarce and historically important.

Top Grade 1785 Bar Cent

228 **(1785) Undated Bar cent.** Obverse with USA in intertwined monogram. Reverse with a series of thirteen parallel bars. These pieces circulated in the autumn of 1785. The present specimen is **Brown Uncirculated** with traces of mint red. It is sharp in all details and is free of defects. Bar cents in all grades are elusive. In mint state they are virtually non-existent, the present specimen being a notable exception.

229 **(1785) Bar cent.** Design as preceding. VF-EF. Minor edge damage at the left obverse and a scarcely noticeable planchet clip (incurred during the planchet preparation process preceding production) should be noted. Nonetheless, this is a desirable specimen of a highly sought after coin.

'30% More Than I Had Calculated'

'Dear Mr. Ruddy:

We have just returned from a vacation and found your letter with the settlement for the coins which I had submitted for your most impressive June auction. Please accept my hearty thanks for this most satisfactory settlement. Candidly, it turned out to be about 30% more than I had calculated would be the approximately current retail value of my coins, less your commission!

Now that I fully realize the high quality of coins that Bowers and Ruddy deal in, I shall be consigning some of my choicest pieces to your firm.' — an unsolicited testimonial from Dr. C.N.S. of Bethesda, Maryland

1786 New Jersey– Immunis Columbia Cent

230 **1786 Immunis Columbia cent with New Jersey reverse.** Maris 3-C. This coin, one of the rarest and most desirable of all colonial issues, is absent from nearly all major specialized collections. It is our estimate that including specimens in the hands of collectors and those permanently impounded in museums fewer than ten examples are known to exist.

So far as we can determine, no specimens have appeared in any auction sale during the past decade. The present specimen, a beautiful **Extremely Fine** with planchet striations (as struck), is to our knowledge the second finest known example of this rarity. It is exceeded, and then only slightly, by the Extremely Fine piece in the celebrated collection of William Anton, well-known dealer and specialist in the New Jersey copper series. It is exceedingly improbable that the Anton piece will come on the market in the near future.

Here is a remarkable opportunity for the advanced collector and specialist in state and colonial coinage.

Famous 1786 Nova Constellatio Copper

231 **1786 Nova Constellatio copper.** Crosby 1-A. The only variety of this year.

When Sylvester S. Crosby produced his monumental *Early Coins of America* in 1875 he knew of only two specimens of the 1786 Nova Constellatio. Since that time a few more have been discovered, bringing the total population to about 5 or 6 known today.

The present specimen is in Very Fine grade and is exceptional in that the 1786 date is extremely bold and sharp. A planchet defect at 10 o'clock on the obverse (and the corresponding place on the reverse) was incurred during the planchet preparation process. Areas on the obverse and reverse have a brassy color, due to incomplete mixing of the metal alloy. This is a characteristic which occurred on two other 1786 pieces which we've handled in the past. Considering the crude striking of this piece, the presently offered specimen is one of the very finest examples known to exist.

This remarkable coin, one of the most highly prized of all colonial copper coins, should sell for a record price.

Note I: We can trace only two public sale offerings in recent years, both of which were purchased by a a well-known Norfolk, Virginia, colonial specialist who would have paid more had it been necessary. These two pieces are the coins sold by Lester Merkin on October 7, 1972, Lot 500, at $3,100, and the piece sold by Stack's in their sale of March 29, 1973, Lot 82, at $4,250.

Note II: All specimens we have personally examined have been crudely struck. It is unknown by whom the coins were struck. The Guide Book of U.S. Coins *observes that "evidence indicates that they were struck in Birmingham (England) by Thomas Wyon, and imported for American circulation as a private business venture by Gouverneur Morris." It is our opinion that the 1786 Nova Constellatio, being of different style and striking than the 1783 and 1785 issues, was struck elsewhere, perhaps in America by Captain Thomas Machin.*

Remarkably Choice 1787 N.Y. Excelsior Cent
–Eagle left variety–

232 **1787 New York Excelsior cent. Eagle on globe facing left.** The obverse displays the arms of the state of New York, with the state motto, EXCELSIOR, below. The reverse is with a heraldic eagle.

The presently offered specimen is a beautiful **VF-EF** example without any defects of any kind. The only superior specimen we've seen in recent years was the one in the collection of the late Cyril Hawley. Most other known specimens show retooling or repair, for some reason.

It is believed that the 1787 Excelsior cent was struck at Machin's Mill on the shores of Orange Pond, near Newburgh, New York.

The opportunity to buy a specimen of a 1787 New York Excelsior cent on a perfect planchet is very unusual. Worth the close attention of the specialist.

Superb 1787 Connecticut "Muttonhead" Copper

233 **1787 Connecticut "Muttonhead" copper.** Miller 1.2-C. Also called the *Bradford Head* variety. R-3 on the Miller scale. The design of the *Muttonhead* variety is different from other contemporary Connecticut coppers. The obverse head is distinctive and is unlike the other issues in the series which are mainly copies of the portrait of King George II and III of England. The reverse, far from being the usual copy of Britannia (inspired by the contemporary British halfpenny), displays the seated figure of what has been described as an Indian princess.

Connecticut coppers were produced in several locations by several coiners, including at least two mints in the state of Connecticut and also Machin's Mill in New York. The *Muttonhead* differs in workmanship from the products of these other coining enterprises and was probably made by another source, presently unknown.

Nearly all specimens of the *Muttonhead* variety are very weakly struck. The specimen here offered is an extraordinary AU or slightly finer specimen and is unapproached in condition by the John Work Garrett (Johns Hopkins University), Ted Craige, W.S. Appleton (Massachusetts Historical Society), and other specimens which we have examined. A once in a lifetime offering for the Connecticut specialist.

234 1787 Connecticut copper. Draped bust left. Miller 37.9-e. Rarity 3. Extremely Fine from the standpoint of wear. Suggestions of light striking at the centers, as usual for 37.9-e. Reverse with planchet defect on shield and with some minor verdigris near branch hand. One of the finest known examples of this variety.

THE BEST PRICE FOR YOUR COINS

When Armand Champa, one of America's leading numismatists, decided to sell his collection he solicited offers from leading dealers. Dissatisfied with the bids received and with the great time and effort it took to show his collection to many different people, he then consigned his magnificent collection to us for auction sale. The Armand Champa Collection sale took place and attracted international attention. When the sale was over, Mr. Champa told us that his coins sold in our sale for MORE THAN DOUBLE the highest cash offer he had previously received! So appreciative was he, that he did something unprecedented in the annals of numismatics: completely unsolicited by us, Armand Champa placed large advertisements in "The Numismatist," "Coin World," and "Numismatic News" to thank us for the great job we did for him!

When Mr. Matt Rothert, distinguished past president of the American Numismatic Association (and recipient of nearly all the important numismatic awards that can be bestowed on an individual), decided to sell his collection he compared the style, presentation, commission rates, advantages, and prices realized of leading auction houses. He chose the American Auction Association division of Bowers and Ruddy Galleries. We catalogued his coins and sold them at an event that was a numismatic landmark. Following the sale, Mr. Rothert wrote to us and expressed his great satisfaction with the way we handled the sale. In fact, he was so pleased that he subsequently sent us several additional consignments for further sales!

Finest Known 1787 Massachusetts Transposed Arrows Cent

235 **1787 Massachusetts cent. Transposed Arrows variety. With arrows in eagle's right talon instead of left.** Ryder 2a-F. Superb **Extremely Fine.** The *finest known* example of this, the most famous of all Massachusetts cents.

The *Transposed Arrows* variety is the landmark coin in the Massachusetts cent series. It has characteristics which separate it from all other coins in the series. It is the only issue with arrows in the eagle's right talon. It is the only Massachusetts cent with the word CENT on the sheild raised (in relief); all others have the word CENT incuse.

The only other two specimens offered at auction in recent years have been distant in condition from the present example. The coin in Stack's May 1973 offering, Lot 60, was extensively eroded and sold for $4,750. The example in the same firm's sale of February 6, 1975, Lot 39, was Very Fine but was retooled from the Indian feathers down behind the head and the extended arm. It brought $17,000 and was purchased by a dealer, who undoubtedly resold it at a still higher price. The presently-offered coin is superior to any we have seen or are aware of in museums or collectors' hands.

Here is a once in a lifetime opportunity for the collector of state coins; a fantastic opportunity that will probably never recur in your lifetime.

Note: Massachusetts copper coins were authorized on October 17, 1786. A state mint was established, with Joshua Witherle in charge. Half cents and cents were struck in 1786 and 1787. These pieces were the first United States issues to bear the denomination CENT. A cost analysis showed that it cost the state over one cent to produce each half cent and over two cents to produce each cent, so the state mint was closed.

Most of the dies for the series were made by Joseph Callender. It is thought that Jacob Perkins, famous silversmith of Newburyport, Massachusetts, also engraved certain dies. Perkins was the engraver in 1800 of an illustrious series of Washington funeral medals with the legend HE IS IN GLORY, THE WORLD IN TEARS, and other sentimental inscriptions.

A FINE GROUPING OF MACHIN'S MILLS HALFPENNIES

It is our pleasure to offer an illustrious series of Machin's Mills halfpennies. On pages 24 and 25 the Guide Book of U.S. Coins *describes Machin's coinage enterprise and discusses the imitation halfpennies made by this firm.*

Sylvester S. Crosby, in Early Coins of America, *gives information concerning this operation (cf. pp. 190, 191):*

In 1787 a "manufactory of hardware" known as Machin's Mills was established at New Grange, Ulster County, now Newburgh, New York, the principal purpose of which is supposed to have been the coinage of copper . . .

Orange Lake was also called Machin's (or Machen's) Pond. Captain Machin first opened the outlet of the pond and erected a manufactory to make coppers for change and circulation. The outlet comprises a large part of Chamber's Creek, which supplies the New Mills and other manufacturing establishments with water. This outlet was originally the place where the waters of the pond ran off at high water. The natural one is further west at a place called Pine Point, and the stream from the pond crosses the turnpike just east of Mr. Nathaniel Brewster, between five and six miles from Newburgh.

Captain Machin, we believe, was an Englishman and came out before the American Revolution as an officer in the British service. During the war he entered the American army as an engineer, and was employed by Congress in 1777 in erecting fortifications in the Highlands, and in stretching the chain across the [Hudson] river at West Point. After the war he came and located at the pond. His operations there, as they were conducted in secret, were looked upon at that time with suspicion, as illegal and wrong.

The mint house was located on the east side of Machin's Pond, about one eighth of a mile distant from the pond. The building was erected in 1784, by Thomas Machin, and was still standing in 1792, at which time the rollers, press, and cutting machine were taken out. The coins were struck by means of a large bar loaded at each end with a 500 pound ball, with ropes attached. Two men were required on each side, making four in all, to strike the pieces, besides a man to set the planchets. The metal of which the coins were struck was composed of old brass cannon and mortars, the zinc from the copper being extracted by smelting in a furnace. About sixty of the coins were struck a minute. The sloop Newburgh *(Captain Isaac Belknap) carried for a number of years the coining press as part ballast. The coins were made by James F. Atlee. Many of them bore the obverse GEORGIUS III and the reverse INDE ET LIB. Others bore the figure of a plough on one side. The mint ceased operations in the year 1791. ——so ends our excerpt from Crosby's commentary.*

The reader is referred to Robert A. Vlack's Early American Coins, *pages 67 ff., for additional information. Most of the pieces in the following list are attributed to Vlack's numbers. The present offering is one of the most extensive groupings of Machin's Mills imitation halfpennies ever to be auctioned.*

236 1771 Machin's halfpenny. Vlack 2-B. This is the *plate coin* from Robert A. Vlack's *Early American Coins* book. Very Good. Some minor scratches.

237 1778 Machin's halfpenny. Vlack 9-I. Abt. Good. Some planchet defects.

238 Group of Machin's Mills halfpennies: (1) 1778 Vlack 9-J. Abt. Good to Good; (2) 1778 Vlack 11-J. Abt. Good to Good; (3) 1787 Vlack 14-K. Abt. Good obverse, Good reverse; (4) 1787 Vlack 15-M. Abt. Good obverse, Very Good reverse; (5) 1788 Vlack 18-O. Fair. (Total: 5 pieces)

239 1778 Machin's halfpenny. Vlack 10-I. With period after REX. (Such feature not being visible on the Vlack plate coin). VG+ obverse; Abt. Good reverse.

240 1778 Machin's Mills halfpenny. Vlack 11-J. Abt. Fine. Lightly struck around periphery, as usual.

241 Group of Machin's Mills halfpennies: (1) 1778 Vlack 11-J. Abt. Good to Good; (2) 1787 Vlack 14-K. Good plus; (3) 1787 Vlack 15-M. Very Good; (4) 1787 Vlack 16-N. VG-Fine; (5) 1788 Vlack 18-O. Good. (Total: 5 pieces)

242 1787 Machin's halfpenny. Vlack 14-K. From the same reverse die, but a much earlier state, as used to coin the famous Vermont/BRITANNIA copper (cf. Lots 254, 255). Beautiful Very Fine. Unusual so nice!

243 1787 Machin's halfpenny. Vlack 14-K as preceding. F-VF, some pitting on obverse.

244 1787 Machin's halfpenny. Vlack 14-K. Another. Fine.

245 Group of Machin's halfpennies: (1) 1787 Vlack 14-K. Good plus; (2) 1787 Vlack 14-K. Another. Abt. Good; (3) 1787 Vlack 14-K. Another. Abt. Good; (4) 1788 Vlack 18-O. Very Good; (5) 1788 Vlack 18-O. Another. Fair. (Total: 5 pieces)

246 1787 Machin's halfpenny. Vlack 15-L. Attractive Very Fine.

247 1787 Machin's halfpenny. Vlack 15-L. Another. Very Fine, dark.

248 1787 Machin's halfpenny. Vlack 15-M. VF-EF. An exceptional piece.

249 1787 Machin's halfpenny. Vlack 15-M. Another. Abt. Fine.

250 1787 Machin's halfpenny. Vlack 15-M. Another. Abt. Fine.

251 1787 Machin's halfpenny. Vlack 16-N. F-VF.

252 1788 Machin's halfpenny. Vlaek 18-O. Sharp Extremely Fine. Some minor planehet striations on reverse. Extraordinary eondition for a Machin's Mills halfpenny of this genre.

253 Pair of 1788 Machin's Mills halfpennies. Vlack 18-O. The first is VF; the seeond Fine. (Total: 2 pieees)

254 1787 Vermont/Machin's halfpenny. Ryder-13. Obverse with portrait of George III and Vermont legend: VERMON AUCTORI ("By the authority of Vermont"). The reverse shows the seated figure with BRITANNIA surrounding. This pieee, struck by Machin, was undoubtedly made by mistake. The obverse was intended for a Vermont eopper (of whieh Maehin coined many). The reverse was struek from a very worn and probably disearded die for an imitation British halfpenny (ef. Lot 242 of this sale). In the Ryder 13 eombination the reverse die is always so worn that even on the finest of speeimens the reverse is virtually illegible. For this reason, Ryder 13 ean be graded by the obverse only. The present eoin is a niee Very Fine. A pleasing speeimen of one of the most eurious eoins in Ameriean numismaties!

255 1787 Vermont/Maehin's halfpenny. Ryder 13. Another. Very Fine.

Very Rare 1790 Standish Barry Threepence

256 **1790 Standish Barry threepence.** Bearing a day date in addition to a year date, BALTIMORE TOWN JULY 4, (17)90, this coin was struck by 27-year-old Standish Barry, a silversmith and clockmaker. The coin was probably struck for commemorative or advertising purposes.

The present speeimen is in Very Good grade with some marks and planchet waviness as illustrated. About a dozen speeimens of this rarity are known to exist, and the present example is in about the middle range of condition. A famous American colonial rarity and, as such, worthy of spirited bidding competition. Only rarely does a Standish Barry threepence in any grade eome on the market.

Famous 1796 Myddelton Token in Silver

257 **1796 Myddelton token in silver.** This artistic and beautiful coin, one of the most outstanding works of eoinage art in the early Ameriean series, is said to have been the work of Conrad Kuehler (who prepared many British pattern coins around the turn of the 19th century) and was struck at Boulton and Watt's Soho Mint in Birmingham. The obverse bears the legend PAYABLE BY P.P.P. MYDDELTON, a reference to Philip Parry Priee Myddelton, an enterpreneur who owned considerable real estate in Kentueky and indueed numerous Englishmen to move there. The reverse depiets an allegoriea1 scene of the Goddess of Plenty, with eornucopia, extending a weleoming hand to a woman and her two ehildren—emblematie of the riches and warm reeeption awaiting English migrants to Kentueky. The legend BRITISH SETTLEMENT KENTUCKY surrounds, with the date 1796 below.

Apparently the Myddelton eoinage, antieipated for extensive eireulation in the British Settlement in Kentueky, never reaehed eireulation, for all speeimens known today are Proofs in copper or silver.

The presently offered eoin is a **Choiee Proof in silver** with light toning as acquired over a long period of years. Some trivial handling marks are seareely worthy of attention. This eoin is one of the finest known examples of what *A Guide Book of U.S. Coins* calls an issue "unsurpassed in beauty and design by any piece issued for American circulation."

Exceedingly Rare New Yorke In America Token

Pewter; one of only about a half dozen known

258 **New Yorke In America token. Pewter.** The obverse depicts a perched eagle with the legend NEW YORKE IN AMERICA surrounding. The reverse portrays a luxuriant palm-type tropical tree with Cupid to the left and Venus to the right.

Information concerning this piece is sketchy. *Scott's Comprehensive Catalogue of U.S. Coins (1971 edition, page 25)* notes that the piece appears to be an authentic early issue probably struck in or around the early 19th century. But four specimens are known to exist, observes Scott: (1) Hague [Holland] Museum, (2) Massachusetts Historical Society, (3) Smithsonian Institution, (4) Gore Collection.

The *Guide Book* (cf. p. 49) observes that only three or four pieces were known to Sylvester S. Crosby and that a number have since been discovered (this comment covers the "common" brass pieces, not the pewter). An article from the Historical Magazine, 1861, is quoted:

"The style in which it [this token] is executed is more Dutch than English; and as the only existing specimen is preserved in Holland, it is probable that the dies were originally cut there . . . There is no date upon the token, but it evidently belongs to the period between 1664, when the name New Yorke was first adopted, and 1710, after which it was rarely spelled with an e. It should probably be referred to the latter part of this period, for the currency of the colonies was then in a very unsettled state, and the amount in circulation was not adequate to the wants of trade . . .

"Without venturing to claim that this coin contains the earliest display of the American eagle, we think it unquestionably deserves to be considered the earliest New York token."

The present specimen is from the Gore Collection and is the 4th piece in the Scott enumeration given above. It is in **Extremely Fine** condition, as illustrated. Here is one of the most important colonial offerings in this sale. Should attract great attention!

Exceedingly Rare "FUCIO" Fugio Cent

259 **1787 "FUCIO" Fugio cent.** Newman 2-C. One of the most famous of all Fugio cents, this specimen has the legend spelled *FUCIO* rather than the normal FUGIO, due to the inadvertent use of a C punch rather than a G punch by the die engraver.

Although estimates such as "5 known" have appeared in auction catalogues from time to time, it is our opinion that about twenty *FUCIO* cents are known in all grades. The present coin, an attractive **Extremely Fine** with some claims to AU, is certainly one of the finest known examples. Perhaps we are being conservative, for the consignor acquired it as *the* finest known. In any event, it is a superb specimen of one of the great classics in the Fugio series. It is probable that many years will elapse before an equal piece comes up on the auction block.

260 1791 Washington large eagle cent. Obverse with portrait of our first President. Reverse the heraldic eagle. AU or slightly finer. Some light marks on cheek. A pleasing example of this popular coin.

Magnificent (1795) Washington Penny

261 **(1795) Washington penny, LIBERTY AND SECURITY.** Undated. A superb **Choice Uncirculated** specimen with glossy surfaces. Equally important is the striking of this piece. Most of this issue comes with imperfect edges due to striking problems with the rim and collar. This specimen, perhaps made as a presentation piece, is magnificent in all details. A finer coin could not and does not exist! Worth a record bid!

Note: The edge of this coin is lettered: AN ASYLUM FOR THE OPPRESS'D OF ALL NATIONS, a reminder of those now non-existent days when America's doors were open to all comers. Now the quota system plus restrictive state regulations on the employment of aliens (irregardless of whether or not they want to become American citizens eventually) has made it impossible for many well-qualified and well-intentioned foreigners to emigrate to the United States. Your cataloguer (QDB) recently spent 8 or 9 months trying to help a Danish friend, well-educated and of good quality and integrity, come to America. After an exasperating government run-around we finally gave up. "It's too bad she is not a Vietnamese refugee, for then she could get in easily," we were told. Excuse this personal editorializing, but the situation has been on our mind for some time. "AN ASYLUM FOR THE OPPRESS'D OF ALL NATIONS" is a poignant reminder of the fact that the situation was once different, as is the beautiful inscription (circa 1886) on the Statue of Liberty: "I lift my lamp beside the Golden Door," etc.

A Second Superb (1795) Washington Penny

262 **(1795) Washington penny, LIBERTY AND SECURITY.** Undated. A **Choice Uncirculated** duplicate of the preceding lot.

Good things come in pairs, it has been said, and here is a confirmation of that axiom. Here is a second specimen, equally magnificent as the first! It, too, is sharply and well struck and possesses a beautiful glossy surface, the reverse showing ample evidence of original mint red. It's a toss-up as to which coin is the nicer! Likewise worthy of a record bid!

Note: If you want to bid on Lots 261 and 262 but just want one coin, not both, then mark "Lot 261 OR Lot 262" on your bid sheet. Then if your bid on Lot 261 is exceeded, we will transfer your bid to Lot 262. On the other hand, if you win Lot 261, we will then not bid for you on Lot 262.

263 **Washington medal in gold. Baker 155.** Struck at the Philadelphia Mint in the 1860's, this coin is from dies by Anthony C. Paquet. The obverse depicts the undraped bust of Washington facing right. The reverse has the President's life dates. Ostensibly Very Fine with a rim mark on the reverse, but an examination of the edge shows two tiny holes indicating the piece was once mounted in a pin.

So concludes one of the most remarkable offerings of United States colonial and colonial-related coins the numismatic world has ever seen or ever will see!

BOWERS AND RUDDY GALLERIES, INC.

A Fabulous Type Set -of- United States Coins

It is with great pleasure that we offer one of the finest type sets of United States coins ever auctioned. This group, complete (using the openings in the Whitman Bookshelf *albums as a guide) except for the 1796 quarter dollar and the 1795-type $10 gold, is replete with many fantastic scarcities and rarities.*

When this group was assembled, condition was the uppermost consideration. Choice Uncirculated and Gem Uncirculated specimens abound! In addition, there are many pieces which would be rarities in any grade: the famed 1796 half dollar and 1794 silver dollar being just two examples.

Collecting coins by types is one of the most popular and most sensible ways to assemble a group of United States issues. In High Profits from Rare Coin Investment *we commented on this (cf. p. 116):*

"Years ago it was possible to build a virtually complete collection of United States coins by dates and mintmarks. Today it is virtually impossible to do this. First of all, the existing fixed supply of scarce and rare issues has been widely dispersed among hundreds of thousands, if not millions, of collectors. Second, the cost of a nearly complete collection of each and every variety of United States coin ever issued would be prohibitive. A practical alternative is the type set.

"A complete type set of United States coins is of immense historical interest. Each design has its own story to tell. Such a set provides an excellent opportunity to learn about the design, history, and romance of each coin. At the same time a type set can be an excellent investment. Years ago James F. Ruddy and I always recommended a type set of United States coins as the ideal way to begin a collection-investment of rare coins. Our many clients who followed our earlier advice have profited spectacularly in the intervening years. It seems assured that collecting by design types will be even more popular in the future. With increasing popularity, price increases are bound to come."

This offering in the Kensington Collection sale provides many remarkable opportunities. As has happened countless times in our past sales, today's price records are tomorrow's bargains. Bid liberally. There is no substitute for quality.

BID BY MAIL!

If you cannot attend the sale in person, we invite you to bid by mail. Check through this catalogue carefully and determine which lots are of the greatest interest to you. If you strongly want a particular lot, then a strong bid is indicated. However, we also recommend that you bid on many lots which you might like "if the price is right." By bidding on 50 additional lots this way, chances are good that you might buy 5 or 10 exceptional values. Every time a sale is ended, we receive calls and letters saying, in effect "I wish I had bid $— on that lot, but now it is too late." Well, right NOW it isn't too late! Send us your bidsheet today!

Exceptional 1793 Half Cent

264 **1793 Half cent.** Gilbert-1; Cohen-3. First year of issue of the half cent denomination, and the only year of this design type: Liberty facing left with cap and pole. Beautiful **Extremely Fine** with pleasing surfaces and excellent definition of detail. A connoisseur's coin!

265 **1794 Half cent.** C-4; C-4. Type of 1794-1797 with head facing right. Actually, the 1794 is of slightly different appearance than 1795, 1796, and 1797, the other years having a tiny, delicate, cameo-like head. The 1794 follows the style of the large cents of this year and has a large portrait in relation to the field. The present coin is a beautiful **EF-AU** specimen, a very uncommon grade for a 1794 half cent. Worth a strong bid!

266 **1806 Half cent. Large 6, with stems. Attractive Red and Brown Uncirculated,** with some minor pitting incurred during the planchet preparation process. Surfaces are attractive chocolate brown with ample traces of original mint red. A beautiful coin from an old-time collection. Uncirculated half cents of the 1800-1808 draped bust type are becoming an increasingly elusive commodity.

267 **1835 Half cent.** Representative of the 1809-1836 *Classic Head* type. **Gem Red Uncirculated.** A superlative specimen and, as such, quite rare.

268 **1857 Half cent.** Representative of the *Braided Hair* type of 1840-1857. Of additional importance as the last issue in the illustrious half cent denomination. The presently offered coin is Choice Brilliant Uncirculated and is worth a strong bid.

Outstanding 1793 Chain AMERI. Cent

269 **1793 Chain AMERI. cent.** Sheldon-1. This coin, the very first United States large cent, is one of the most historical and significant of all American coins. When preparing the die for the first cent, the engraver, believed to have been Jean Pierre Droz, a Swiss, was fearful that AMERICA would not fit. So, he abbreviated the name to *AMERI.* It later developed that these fears were unfounded, for subsequent 1793 Chain cents had the full AMERICA spelling.

The present coin is a beautiful **Extremely Fine.** A few scattered marks we will mention, but in view of the otherwise flawless character of the piece these are scarcely worth noticing. The coin is completely free of the bruises, weak rims, retooling, and other detriments which are so often encountered on pieces of this classic variety.

Here is a prize 1793 Chain AMERI. cent for the connoisseur!

★ Superb AU 1793 Wreath Cent ★

270 **1793 Wreath cent.** S-11c. With edge lettered ONE HUNDRED FOR A DOLLAR. Superb AU with rich glossy brown surfaces. A minor planchet mark (incurred during striking) on the reverse between TA of STATES does not detract from the beauty of this splendid coin. Here is a coin which should be examined prior to bidding. No matter how nice we say it is, we are sure you'll like it better in person. The right piece for the quality-conscious numismatist. A prize!

271 **1794 Cent.** S-22. Representative of the 1793-1796 Liberty cap type. Choice AU with magnificent sharpness of details. Fully equal to pieces we have seen offered as *Uncirculated* from time to time. Here is another early large cent for the connoisseur. Coins such as this are the backbone of American numismatics.

Gem Uncirculated 1800/179 Cent

272 **1800/179 Cent.** S-194. Representative of the 1796-1808 Draped Bust type. The presently offered coin is a **Gem Uncirculated** example with glossy satin surfaces. The coin is sharp, well struck, and is completely free of defects. The coloration is a pleasing light brown with tinges of mint red. A small area of darker toning appears on the lower part of the face. Here is a superb coin, an exciting coin, a coin which will thrill even the most seasoned numismatist. Worth a runaway price!

Uncirculated 1812 Cent

273 **1812 Cent.** Representative of the 1808-1814 *Classic Head* type. Attractive **Brown Uncirculated** with reddish-brown and olive mottled toning. Smooth, glossy surfaces. A truly beautiful coin. Extremely rare so fine.

274 **1820 Cent.** Representative of the 1816-1839 **Coronet** type. **Gem Brilliant Uncirculated.** One of the very finest known cents of this date. Here is a pristine coin which during its 150+ years of existence has never been mishandled or mistreated in any way. Apart from normal subtle light toning, natural on any coin which has not been cleaned, the coin is as nice as it was the day of mintage back in 1820.

275 **1855 Cent.** Variety with upright 5's in the date. Representative of the *Braided Hair* type of 1839-1857. **Gem Brilliant Uncirculated.** Uncommon in this outstanding condition.

276 **1857 Flying eagle cent.** Representative of the 1856-1858 flying eagle series. **Gem Brilliant Uncirculated.** No finer Uncirculated coin of this type could exist! Extremely rare in this degree of sharpness and quality.

Note: The flying eagle cent design was first released in 1857, the 1856 issue being a limited-production pattern. At the same time the Mint began its recall of the old-style large cents. To facilitate the exchange of old cents for new, a special booth was set up in the Mint yard in Philadelphia. The new 1857 flying eagle cents were put up in bags of 500 coins for exchange for $5 face value worth of large cents.

The flying eagle cent, inspired by Christian Gobrecht's illustrious flying eagle pattern dollars of 1836-1839, was one of the shortest-lived of all U.S. designs, specimens for circulation having been made only in two years, 1857 and 1858.

277 **1859 Indian cent.** Type with laurel wreath reverse. Important and distinctive as a one-year type; a rarity in American numismatics. **Gem Brilliant Uncirculated.**

Note: In 1858 dissatisfaction was expressed with the flying eagle cent then in circulation, albeit just for two years, and an extensive series of pattern cents were prepared. Basically, these divided themselves into three major categories: (1) Styles with the regular-issue [large or small letters] obverse in combination with several pattern reverses, (2) A new flying eagle style with a small, skinny, and rather unartistic bird on the obverse, in combination with several different reverses, and (3) The Indian head style [as adopted in '59] in combination with several different reverses. After extensive experimentation and a bit of "fun" (making some rarities for sale to collectors; the sale and trading of sets of 1858 pattern cents was prevalent at the Mint at that time), the Indian cent obverse with the laurel wreath reverse was finally decided upon. Thus, beginning in 1859 specimens of this new style were made for circulation.

278 **1861 Indian cent.** Copper-nickel style of 1860-1864 with oak wreath and shield reverse. 1861 is distinctive as being the lowest-mintage issue of this type. **Gem Brilliant Uncirculated.**

279 1902 Indian cent. Representative of the 1864-1909 bronze format. Gem Brilliant Uncirculated. Not very rare, but certainly very pretty!

280 1909 V.D.B. The first style of Lincoln cent. Gem Brilliant Uncirculated.

281 1865 Two-cent piece. Representative of the 1864-1873 two-cent piece series. Gem Brilliant Uncirculated. Light natural toning just beginning to form.

282 1881 Nickel three-cent piece. Representative of the 1865-1889 nickel 3c series. Gem Brilliant Uncirculated.

283 1853 Silver three-cent piece. Type I design, which was coined from 1851 through 1853 inclusive. **Choice Brilliant Uncirculated.** Becoming elusive in this condition.

Note: At the time of issue the silver three-cent piece was designated as the "trime" by the Mint. However, the appellation didn't stick, either with the public then or with collectors today.

284 1858 Silver three-cent piece. Type II design, which was coined from 1854 through 1858 inclusive. **Gem Brilliant Uncirculated.** Remarkable condition for this scarce type.

Note: The Type II design was created to make the tiny three-cent piece larger in diameter (at the expense of its thickness). However, it was soon learned that the design was such that pieces did not strike up properly, particularly around the borders, so a design modification was ordered. Thus was born the Type III, which follows this lot.

285 1870 Silver three-cent piece. Type III design, which was coined from 1859 through 1873 inclusive. 1870 is a rare date. Only 4,000 pieces (1,000 Proofs and 3,000 business strikes) were minted. **Choice Brilliant Proof.**

Landmark 1795 Half Dime

286 **1795 Half dime.** Representative of the *Flowing Hair* type coined only in 1794 and 1795. The present coin is a **Gem Brilliant Uncirculated** specimen which is as nice as it was the day it was struck. Some small adjustment marks around the periphery of the reverse were caused during the planchet preparation process prior to minting. For the discriminating numismatist who demands the finest quality in existence here is an opportunity that must not be missed. Whatever you pay for this coin, it will seem cheap in the future. Several years ago when we sold at auction the Dr. W.E. Caldwell Collection of half dimes, the most complete offering of dates, mintmarks, and major varieties ever to come up for bidding, record price after record price was established. Now, a few years later, most of the record prices which caused a sensation in the numismatic market at the time seem like bargains! So it will be in the future with this cameo 1795 half dime.

287 **1797 Half dime. 15 stars variety.** Representative of the draped bust type with small eagle reverse coined only in 1796 and 1797. A very elusive type. **VF-EF.** Attractive and desirable.

288 **1800 Half dime.** The *LIBEKTY* variety. A defective R in LIBERTY gives this variety its distinctive appearance. The 1800 has the heraldic eagle reverse and is representative of the half dime design used from 1800-1805 inclusive. **Very Fine** with a few trivial marks. Scarce.

289 **1832 Half dime.** Representative of the *Capped Bust* type made from 1829 through 1837. **Gem Brilliant Uncirculated.** A sparkling little cameo. Unimprovable quality!

290 **1837 Half dime. Liberty seated, without stars on obverse.** Rare type minted only on two occasions: at the Philadelphia Mint in 1837 and at the New Orleans Mint (1838-O) in 1838. Small date variety with flat-top one in 1837 date. **Gem Brilliant Uncirculated.** Another connoisseur's coin.

291 **1853 Half dime. Arrows at date.** Representative of the with-arrows coinage of 1853-1855. **Gem Brilliant Uncirculated.** Rare so fine!

Note: Arrows were added to the date in 1853 to signify a reduction in authorized weight. The rising price of silver bullion resulted in silver coins having an intrinsic value greater than their face value, so early in 1853 the authorized weight was reduced.

292 **1856 Half dime.** Type with stars on obverse as minted from 1838 to 1853 and from 1856 to 1859. **Gem Brilliant Uncirculated** with prooflike surface.

293 **1861 Half dime.** Representative of the 1860-1873 type with legend on the obverse. **Choice Brilliant Uncirculated.** Light natural toning just beginning to form.

294 **1866 Shield nickel. With rays on reverse.** Representative of the style struck in 1866 and the first part of 1867. **Gem Uncirculated** obverse; Choice Uncirculated reverse. One of the finest 1866 shield nickels we have ever seen. As nickel specialists know well, this date characteristically is very weakly and/or poorly struck. The present coin is a happy exception. Catalogues $275 in the *Guide Book*, but unless we miss our guess, on December 12, 1975, when this coin comes up for bidding the catalogue price will bear no relation to what it sells for. Wait and see!

295 1883 Shield nickel. Representative of the without-rays type minted from 1867 to 1883 inclusive. Gem Brilliant Uncirculated—and sharply struck, too!

296 1883 Liberty nickel. Variety without CENTS. Struck only this year. Choice Brilliant Uncirculated.

Note: Following the release of this design, unscrupulous persons gold plated them and passed them off as a new type of "five dollar gold piece." The only mark of value was a V on the reverse. As a result, the word CENTS was soon added to the design. See the following lot.

297 1905 Liberty head nickel. Type with CENTS as issued from 1883 to 1913. Gem Brilliant Uncirculated.

298 1913 Buffalo nickel. Type I with raised ground on reverse; style minted only in 1913. Gem Brilliant Uncirculated with just a hint of light natural golden toning just beginning to form.

299 1942-P Jefferson nickel. Type II design. Gem Brilliant Proof.

Note: See the last lot in this type set offering for other pieces in this type set—low value items of recent years needed to complete the collection.

Choice Uncirculated 1796 Dime

300 **1796 Dime.** Representative of the draped bust obverse and small eagle reverse type as minted only in 1796 and 1797. **Choice Brilliant Uncirculated** with prooflike surface. Some adjustment marks on head as incurred during the planchet preparation process. An extraordinarily beautiful specimen of the first year of the dime denomination.

Superb Uncirculated 1807 Dime

301 **1807 Dime.** Representative of the draped bust type with heraldic eagle reverse struck from 1798 to 1807. The present coin is a **Choice Brilliant Uncirculated** example and is one of the finest known specimens of this year and type. It is exceptionally well struck for this issue and possesses complete original mint frost. A rarity of the first order; a numismatic prize worthy of strong bidding competition!

Gem Uncirculated 1827 Dime

302 **1827 Dime.** Representative of the *Capped Bust* type, large size, as issued from 1809 through 1827. The present coin is a **Brilliant Uncirculated Gem.** The opportunity to acquire such a superb coin is indeed unusual. Probably not more than a dozen 1827 dimes in all the world are the equal of this one.

Prooflike Gem 1834 Dime

303 **1834 Dime.** Large 4 variety. Representative of the *Capped Bust* type, small size, as issued from 1828 to 1837. The present coin is a **Gem Brilliant Uncirculated** example with prooflike surfaces, even within the shield stripes. It was in all probability struck as a *presentation piece.* An extraordinary coin!

Remarkable 1837 Liberty Seated, No Stars 10c

★★★

304 **1837 Dime. Liberty seated, no stars on obverse.** Scarce issue struck only at the Philadelphia Mint in 1837 and at the New Orleans Mint (1838-O) in 1838. Large date variety. **Gem Brilliant Uncirculated.** Never common in Uncirculated grade to begin with, dimes of this design are becoming increasingly hard to find as an ever-increasing number of collectors and investors vie to acquire a very small supply of extant coins. The present coin, a really remarkable dime condition-wise, should sell for a record price. And, it will be worth it.

305 **1854 Dime. Arrows at date.** Design style as used from 1853 to 1855. **Gem Brilliant Uncirculated.** Uncommon so fine! A truly beautiful coin.

306 **1857 Dime.** Representative of the type with stars on obverse as struck from 1838 to 1853 and 1856 to 1860. **Choice Brilliant Uncirculated.**

307 **1874 Dime. Arrows at date.** Representative of the design of 1873-1874. **Gem Brilliant Uncirculated.** Very rare in such high grade. Worth a really top bid!

308 **1885 Dime.** Representative of the design with legend on obverse as issued from 1860 to 1873 and from 1875 to 1891. Gem Brilliant Uncirculated. Scarce so nice.

309 **1898 Dime.** Of the Barber design as issued from 1892 to 1916. Gem Brilliant Uncirculated.

310 **1875-S Twenty-cent piece.** The design as used on this series from 1875 to 1878. The 1875-S is the only twenty-cent piece to ever be struck at the San Francisco Mint. The present coin is a sharply struck **Gem Brilliant Uncirculated** piece and therefore is most unusual. A prize coin in every respect.

Extraordinarily Choice 1807 Quarter

311 **1807 Quarter.** Representative of the draped bust type with heraldic eagle reverse as minted only from 1804 to 1807. **Choice Brilliant Uncirculated.** Well struck, which is exceedingly unusual for a quarter of this design. Extraordinarily choice and extraordinarily rare (in this grade). Worth a high bid!

Unexcellable 1825/3 Quarter

312 **1825/3 Quarter.** Overdate with traces of the undertype 3 quite visible (which it usually isn't on this variety). Representative of the *Capped Bust* type, large size, as issued from 1815 to 1828. The present coin is a **Choice Brilliant Uncirculated** piece with a nearly complete prooflike surface. Like the other coins in this stellar offering, this is an exceptional coin.

Gem Uncirculated 1834 Quarter

313 1834 Quarter. Representative of the *Capped Bust* type, small size and without motto on reverse, as minted from 1831 to 1838. **Gem Brilliant Uncirculated.** Rarely seen or offered in this high grade.

314 1854 Quarter. Arrows at date. Representative of the type issued in 1854 and 1855. **Choice Brilliant Uncirculated.**

315 1861 Quarter. Representative of the Liberty seated type without motto as issued from 1838 to 1853 and from 1856 to 1865. **Gem Brilliant Uncirculated.**

316 1874-S Quarter. Arrows at date. Of the design produced only in 1873 and 1874. **Gem Brilliant Uncirculated.** Very rare in this grade.

317 1877-S Quarter. With IN GOD WE TRUST motto style as used from 1866 to 1873 and 1875 to 1891. **Gem Brilliant Uncirculated.**

318 1895-S Quarter. Barber design as minted from 1892 to 1916. **Gem Brilliant Uncirculated.**

319 1917-D Type I quarter. Liberty standing type, no stars below eagle, as minted in 1916 and 1917. **Gem Brilliant Uncirculated with full head.**

320 1928 Quarter. Liberty standing type with stars below eagle, as minted from 1917 to 1930. Gem Brilliant Uncirculated. 75% full head.

321 1936-D Quarter. Washington type, silver alloy, as minted from 1932 to 1964. **Gem Brilliant Uncirculated.** Very rare in this grade.

Note: The 1936-D quarter is a numismatic pricing phenomenon. Turn to page 123 of the Guide Book *and you will see that mintage-wise it doesn't differ appreciably from 1935-S or 1936-S. And yet the 1936-D in Uncirculated grade catalogues five or six times more ($270) than these other issues. Why? The reason is that nearly all 1936-D quarters were released into circulation before bags and rolls were set aside by investors. A few years later, investors began to notice that 1936-D quarters, despite their high mintage, were rare in Uncirculated grade. By then, of course, it was too late. So, the 1936-D has remained rare in Uncirculated grade since then.*

The coin catalogues $30 in Extremely Fine grade, as opposed to just $9 for 1935-S and 1936-S in comparable condition. Why is this? This is because of the fact that unknowing persons who see the Uncirculated grade assume falsely that 1936-D is scarcer in lower grades as well. This is not true. 1936-D in Extremely Fine is not appreciably scarcer than either 1935-S or 1936-S!

AU 1795 Half Dollar

322 1795 Half dollar. Overton-110. *Flowing Hair* style as used only in 1794 and 1795. The present coin is a beautiful AU example. It is exceedingly well struck and is bereft of the usual adjustment marks. The design detail is incredible for a 1795 half dollar and includes exquisite hair detail on the obverse and feathers on the eagle's breast on the reverse. A blue-chip 1795 half dollar. Exceedingly rare in this outstanding condition.

We would be delighted to have you attend the sale in person. If we can help in any way with reservations or other information, just let us know!

Very Rare 1796 16-Stars Half Dollar

323 **1796 Half dollar. 16 stars on obverse.** Representative of the draped bust type with small eagle reverse as minted only in 1796 and 1797. The total mintage for the 1796-1797 half dollars was just 3,918 pieces! As a result, the half dollar of this type is the rarest of all U.S. silver coin designs. The presently offered coin is a choice and desirable **Very Fine** specimen. Should sell for well over catalogue value.

One of the Finest Known 1806 Half Dollars
—Stem not through claw variety—

324 **1806 Half dollar. Pointed 6. Stem not through claw.** Representative of the draped bust design with heraldic eagle reverse as minted from 1801 to 1807. The coin here offered is the most interesting variety in this date range. Due to an error the diecutter omitted the end of the stem on the olive branch, with the result that the eagle's talons are grasping thin air! **Choice Brilliant Uncirculated.** Sharply struck. One of the finest known examples of this interesting issue. Exceedingly rare. A prize coin for the connoisseur!

Note: Diecutting errors such as this provide great interest in the field of early U.S. Mint issues.

TRIPLE THANKS!

"Dear Mr. Ruddy:

I would like to thank you for 1) the beautiful coins you sent me, 2) for the mail bid catalog of the Newport Collection and 3) the copy of the book you sent me 'High Profits from Rare Coin Investments'.

This book opened my eyes to that important word in coin collecting — quality. And that was the kind of coins I received in my last (and first of many) shipment(s)." — an unsolicited testimonial from B.B. of Claremont, California

325 **1834 Half dollar.** Small date, small stars, small letters. A beautiful example of the *Capped Bust* type with lettered edge as minted from 1807 to 1836. **Gem Brilliant Uncirculated.** A prize coin worth a top bid!

326 **1837 Half dollar.** *Capped Bust* type with reeded edge, 50 CENTS on reverse, as minted in 1836 and 1837 only. **Gem Brilliant Uncirculated.** A major scarcity in this grade.

327 **1838 Half dollar.** *Capped Bust* type with reeded edge, HALF DOL. on reverse, as minted in 1838 and 1839 only. Choice Brilliant Uncirculated. Likewise elusive in this outstanding condition.

328 **1855-O Half dollar. Arrows at date.** Design minted in 1854 and 1855. **Gem Brilliant Uncirculated.** Very difficult to locate in this condition.

329 **1861 Half dollar.** Liberty seated type without motto, as minted from 1839 to 1853 and from 1856 to 1865. **Gem Brilliant Uncirculated.**

★ AMERICAN AUCTION ASSOCIATION
Division of Bowers and Ruddy Galleries, Inc. ★

330 1869 Half dollar. Liberty seated type with IN GOD WE TRUST motto as minted from 1866 to 1873 and from 1875 to 1891. **Choice Brilliant Uncirculated.**

331 1874 Half dollar. Arrows at date. Typical of the style minted in 1873 and 1874 only. **Gem Brilliant Proof.** Only 700 pieces were minted, and of that number no more than 100 could survive today in condition equal to the present example.

332 1892 Half dollar. Barber type of 1892-1915. **Gem Brilliant Uncirculated** with prooflike surface. Scarce in such superlative condition.

Famed 1794 Silver Dollar

333 1794 Silver dollar. The *Flowing Hair* style as used in 1794 and 1795. Beautiful **VF-EF.** Far above average in striking and sharpness, not to mention adjustment marks which occur on most specimens.

The 1794 silver dollar is one of the rarest and most famous coins; the first United States coin of this denomination. Only 1,758 pieces were minted, and of that number it is estimated that only 80 to 100 exist today in all grades.

Here is an American numismatic classic. A landmark coin which will be the centerpiece of any collection in which it is included.

High Grade 1797 Silver Dollar

334 1797 Silver dollar. **Stars arranged 9 left and 7 right.** Draped bust type with small eagle reverse as minted from late 1795 until early in the year 1798. **EF-AU,** with traces of lustre remaining. An exquisitely sharp (and therefore unusual) striking with needle-sharp features on obverse and reverse. Only one in ten or twenty dollars of this type is as sharply struck as this! A really outstanding coin in every respect.

Uncirculated 1798 Silver Dollar

335 1798 Silver dollar. Heraldic eagle reverse type as minted from 1798 to 1804 inclusive. **Brilliant Uncirculated.** Very well struck, with full stars. An exceptional specimen of this rare early type. Only infrequently does a mint-state silver dollar of the heraldic eagle style come on the market.

1836 Dollar With C. GOBRECHT F. in Field
—Exceedingly rare; only 18 struck—

336 **1836 Gobrecht silver dollar.** Representative of the illustrious silver dollars made by Christian Gobrecht and dated 1836, 1838, and 1839. The present example is the exceedingly rare variety **with C. GOBRECHT F. in the field between the base and date.** The reverse depicts an eagle flying left amid a constellation of 26 stars (13 small stars and 13 large stars). The *Guide Book of U.S. Coins* notes that just 18 were struck and omits pricing this rarity.

This variety is of immense historical and numismatic importance. Over the years we have handled several of these landmark coins, and it has always been a special pleasure to catalogue them.

The history of the piece is fascinating. Mint Director Patterson, upon examining Christian Gobrecht's workmanship on the new silver dollar design, was so pleased with it that he directed Gobrecht to place his name prominently on the die. Accordingly, C. GOBRECHT F. (the "F" being the abbreviation for the Latin word *fecit:* "made it") was placed on the die in the field above the date and below the base of Liberty.

An unfavorable newspaper article appeared which criticized the "conceit" of Gobrecht for placing his name so conspicuously on the coin. Gobrecht's feelings were hurt, and he insisted that his name be removed from the coin. Director Patterson, still proud of Gobrecht's artistry, directed that the name be relocated to a less prominent place on the base of Liberty, where it indeed did appear on later 1836 issues.

The coin offered here is a **Choice Brilliant Proof** example struck from dies showing only a tiny hairline crack (as on other specimens generally catalogued as *originals,* the Louis Eliasberg Collection coin being another example) on the reverse, and not the heavy break seen on later issues. The historical and numismatic importance of this coin is equalled by few other coins in the American series. It was the forerunner, the ancestor of all Liberty seated coins—a series which ran until it was discontinued many years later (in the 10c, 25c, and 50c denominations) in 1891.

A numismatic landmark!

Prooflike 1841 Silver Dollar

337 **1841 Silver dollar.** Representative of the Liberty seated design without motto, minted from 1840 to 1865 inclusive. **Choice Brilliant Uncirculated** with prooflike fields. Quite possibly a *presentation piece.* An exciting coin!

338 **1871 Silver dollar.** Representative of the Liberty seated type with IN GOD WE TRUST motto as minted from 1866 to 1873 inclusive. **Choice Uncirculated** with indescribably beautiful golden, gray, and iridescent toning. A prize coin from an old-time collection.

339 **1903-O Silver dollar.** Morgan type as minted from 1878 to 1921. Gem Brilliant Uncirculated.

340 **1921 Silver dollar.** Peace design as minted from 1921 to 1935. Gem Brilliant Uncirculated. About 80% struck up on hair, which is far above average. An exceptional specimen of this date.

Note: Actually, the 1921 Peace dollar is a slightly different style than that made 1922-1935. The design is in high relief. It was found (in December 1921 when these were minted) that one blow of the coining press would not fully strike up the high points of the design detail, specifically the center of the hair on the obverse. As a result, the design was modified to a much shallower format in 1922.

341 **1875-S Trade dollar. Choice Brilliant Uncirculated.** An exceptionally select specimen of the trade dollar design as coined in America from 1873 through 1885.

Incredible 1851-D Gold Dollar

342 **1851-D Gold dollar.** Representative of the Type I design as minted from 1849 to 1854. The present coin is a superb **Choice Brilliant Uncirculated** example and is certainly the finest known or tied with it. Only 9,882 specimens of the 1851-D gold dollar were minted, making the coin a rarity in *any* grade in its own right. The appearance of a mint-state specimen is a numismatic landmark. As such, this coin should attract the attention of gold specialists worldwide.

Uncirculated 1854 Type II Gold Dollar

343 **1854 Gold dollar. Type II design** as minted during the last part of 1854, all of 1855, and at the San Francisco Mint in 1856. Sharp **Brilliant Uncirculated.** This coin possesses excellent striking and detail, the only exception being a slight weakness at the 8 of the date. A lovely specimen of this rare gold dollar style.

Note: Refer to our notes under Lot 12 for a discussion of the Type II gold dollar design and its ephemeral existence.

344 **1883 Gold dollar.** Type III design as minted from 1856 to 1889. **Choice Brilliant Uncirculated,** prooflike. Just 11,007 minted.

Exceedingly Rare 1796 With-Stars $2½

345 **1796 Quarter eagle. With stars on obverse.** Representative of the type minted from 1796 to 1807. The 1796 with-stars quarter eagle is one of the rarest of all American gold coins. *Only 432 pieces were minted!* The present coin is an attractive EF-AU example which was lightly cleaned long ago. So few specimens of this coin are known that the appearance of one on the numismatic market is a spectacular event. Another prize opportunity for the gold specialist.

A Rarity: The 1829 Quarter Eagle

346 **1829 Quarter eagle.** Representative of the *Capped Head to Left* style as minted from 1821 through 1834 inclusive. E PLURIBUS UNUM motto on reverse. The present 1829 is a beautiful AU example and is one of the finest known specimens of this date. Only 3,403 were minted, of which just a few dozen survive today.

Note: This entire series of quarter eagles 1821-1834 is remarkable for its exceedingly low mintages. Fewer than 40,000 pieces were made totally of this design, and this relatively low figure is spread over many different issues (1821, 1824/1, 1825, 1826/5, 1827, 1829, 1830, 1831, 1832, 1833, and 1834).

Choice 1838 Quarter Eagle

347 **1838 Quarter eagle.** Representative of the *Classic Head* type minted from 1834 to 1839. No motto on reverse. The coin offered here is a **Choice Brilliant Uncirculated** example save for some minor pin scratches on the reverse. It is one of the highest quality 1838 quarter eagles to appear on the market in recent decades. Worth a strong bid!

Gem Proof 1897 Quarter Eagle

348 **1897 Quarter eagle.** Representative of the 1840-1907 Liberty head style. **Gem Brilliant Proof.** A superlative specimen of this low mintage (just 136 Proofs were coined) issue. Another prize item for the connoisseur!

Superb Uncirculated 1911-D Quarter Eagle

349 **1911-D Quarter eagle.** The Indian head style as designed by Bela Lyon Pratt and used from 1908 to 1929 inclusive. The 1911-D is the rarest and most sought-after coin in the series. The coin offered here is a **Gem Brilliant Uncirculated** example. No finer specimen could or does exist. The world's record price for a 1911-D quarter eagle should be defined by this coin when it comes up for sale on December 12th.

Gem Uncirculated 1854 $3 Gold

350 1854 **$3 gold.** First year of issue of the 1854-1889 three-dollar gold series, and the only year with the word DOLLARS on the reverse in very small letters. **Gem Brilliant Uncirculated.** A superb coin! For the discriminating numismatist who wants the finest.

Note from QDB: Describing the preceding lot reminded me of one of the first coins I ever purchased from another dealer. This was back in 1953. In Wilkes-Barre, Pennsylvania, near my home town of Forty Fort, there was a small coin shop where I used to spend an occasional few hours looking through stock. One afternoon I was shown a real prize: an Uncirculated 1854 three-dollar gold piece with what for me was a high price (in terms of my own buying power, for I was a student in high school at the time)—all of $35! After some deliberation I bought it. Soon it was gone to a customer, for this was in the beginning era of my coin business. I don't remember the selling price; perhaps $40 or $45.

This little situation is illustrative of several things:

First of all, that choice coins such as the 1854 $3 have been superb investments over the years, consistently outmatching any other investment medium of which I have ever heard or encountered. The current value of an Uncirculated 1854 $3 will be determined when Lot 350 comes up for bidding in the sale—but I imagine that a bid in the $2,500 to $3,000 range, considering the quality of the coin, will prevail (although, of course, the coin may sell for higher or lower). Second, the greatest profits in coins go to a dealer's customers and not to the dealer, providing, of course, that the customer has the patience to hold on to his coins for five to ten years or more. When I sold the 1854 $3 back in 1953 I made $5 or $10 on it. If the purchaser still has it, he will make $2,000 to $3,000 profit when he sells it!

Rare 1795 Small Eagle $5

351 1795 **Half eagle.** Reverse with small eagle perched on palm branch; the first design in the half eagle series. A beautiful **Extremely Fine plus** specimen of excellent strike and sharpness. A superb addition to a top grade type set.

Choice Uncirculated 1806 $5

352 1806 **Half eagle.** Round top 6. Stars arranged 7 left and 6 right. Representative of the heraldic eagle reverse style as used from 1795 to 1807. **Choice Brilliant Uncirculated.** Exceedingly rare so fine.

Exquisite 1812 Half Eagle

353 1812 **Half eagle.** Of the design with capped draped bust to left as used from 1807 to 1812. **Choice Brilliant Uncirculated.** A superb coin. A rarity in this exquisite condition.

Choice Uncirculated 1813 $5

354 1813 **Half eagle.** Representative of the capped head to left style half eagle design as used from 1813 to 1834. **Choice Brilliant Uncirculated.** Scarce so fine. Worth a strong bid. Half eagles of the 1813-1834 type are among the rarest coins in all of numismatics.

Presentation 1834 Half Eagle

355 1834 **Half eagle.** The *Classic Head* type of 1834-1838, without E PLURIBUS UNUM on reverse. The present coin is an example of the Plain 4 variety. The condition is extraordinary: **Gem Brilliant Uncirculated** with full prooflike surfaces, including within the shield stripes on the reverse. Considering that this is a specimen of the first year of issue of this design and also considering its special state of preservation it was undoubtedly produced as a *presentation piece* for a government official or dignitary. One of the most important half eagles to come on the market in recent years.

356 1852 **Half eagle.** Liberty head type without IN GOD WE TRUST motto as produced from 1839 to 1866. **Choice Brilliant Uncirculated.** Exceedingly elusive in this grade. Dealers are bidding in the $700 range, with few transactions taking place, for specimens of this design in this condition.

357 1902-S Half eagle. **Gem Brilliant Uncirculated.** An attractive specimen of the 1866-1908 Liberty head style with IN GOD WE TRUST on the reverse.

358 1915 Half eagle. The Indian head style as designed by Bela Lyon Pratt and coined from 1908 to 1929 inclusive. Gem Brilliant Uncirculated. A beautiful specimen of this popular design.

Beautiful 1797 Eagle

359 1797 **$10 gold.** With large or heraldic eagle reverse; the design used from 1797 to 1804. Very beautiful AU with a goodly complement of original mint lustre remaining. Only 10,940 pieces were minted, and of this number we doubt if more than 100 to 200 survive in all grades today. The piece herewith offered has to be one of the finer known examples. Worthy of your close attention.

360 1847-O Eagle. Typical of the Liberty head design without motto as employed beginning in 1838 and ceasing in 1866. EF-AU.

361 1901-S Eagle. The design type with IN GOD WE TRUST motto as minted from 1866 to 1907. Choice Brilliant Uncirculated. Not rare, but quite beautiful.

Note: The San Francisco Mint was so busy making gold coins in 1901 (mintages of the 1901-S $5, $10, and $20 are very large) that it neglected silver production, with the result that the 1901-S dime and half dollar are elusive and the 1901-S quarter is a rarity.

362 1911 Eagle. A delectable Gem Brilliant Uncirculated specimen of this elegant design: noted sculptor Augustus Saint-Gaudens' Indian head style as first minted in 1907 and last coined in 1933. Really scarce in such superlative condition!

363 1861 **Double eagle.** The style without motto as minted from 1850 to 1866. **Choice Brilliant Uncirculated.** Mint-state double eagles of this design type are very elusive.

364 1873 **Double eagle. Open 3 in date.** The design type made from 1866 to 1876, with IN GOD WE TRUST motto and with the value expressed as TWENTY D. **Brilliant Uncirculated.** Just a hair's breadth from the Choice category. Uncommon so nice.

Choice Uncirculated MCMVII High Relief $20

365 MCMVII (1907) **High relief double eagle. Wire rim variety.** Augustus Saint-Gaudens' illustrious design, one of the most beautiful gold coins the world has ever known. The specimen offered here is a **Choice Brilliant Uncirculated** coin which will satisfy the most fastidious collector, investor, or museum. A showpiece of the first order. A numismatic treasure worth a generous bid.

366 1908 Double eagle. The without-motto style by Saint-Gaudens as minted in 1907 and 1908. Choice Brilliant Uncirculated.

U.S. Colonial Coins

We present another section of choice and desirable United States colonial coins, an offering which features a variety of pieces from early Massachusetts silver issues to pieces honoring George Washington.

Beautiful 1652 Pine Tree Shilling

368 1652 **Massachusetts Pine Tree shilling.** Noe-6. Large planchet. Weight: 70.8 grains. A superb **Extremely Fine** coin with remarkable sharpness, save for one small area on the reverse. Toned a pleasing light gray color, this is one of the most beautiful Pine Tree shillings we have had the pleasure of offering in recent years. Its pedigree is no less distinguished than the coin itself: it traces its ancestry to the remarkable collection of T. James Clarke and to the collection of Dr. J.M. Henderson. A superb coin worth a top bid!

369 1652 **Massachusetts Pine Tree shilling.** Noe-29. Small planchet. Weight: 68.2 grains. A very attractive **Very Fine** piece, as illustrated. Like the preceding lot, this coin possesses a beautiful light gray coloration and a pleasing numismatic "personality" or quintessence. Anyone who *likes* early colonial silver cannot help but *love* this coin.

Uncrowned Rose 1723 Rosa Americana Halfpenny

370 1723 **Rosa Americana halfpenny.** Exceedingly rare variety with *uncrowned (full-blown) rose on reverse.* Fewer than a dozen specimens are known of this variety, and only at infrequent intervals does an example appear on the market. The present coin is in **Fine** condition, but with weakness at the left obverse border and the corresponding part of the reverse, as illustrated. Unpriced in the *Guide Book of U.S. Coins.* A prime opportunity for the colonial specialist!

371 1723 Hibernia or Wood's farthing. DEI GRATIA REX ("King by the Grace of God"). Extremely Fine.

372 1723 Hibernia or Wood's halfpenny. Superb Extremely Fine or better. A pleasing coin, well struck, and with glossy surfaces. A pleasure to behold!

373 1760 Voce Populi halfpenny. Fine.

374 1773 **Virginia halfpenny.** Variety with period after GEORGIVS. **Choice Brilliant Uncirculated.** A superb, magnificent, and otherwise superlative specimen. Although Uncirculated 1773 Virginia halfpennies come on the market from time to time (due to the 19th century Col. Cohen Hoard), nearly always they are spotted. The present coin is a pleasing exception to this general rule, and as such it should bring an exceptional price. It's worth it!

Rare and Desirable 1776 Continental Dollar

375 1776 **Continental dollar.** Newman 1-C. Pewter. With CURRENCY misspelled as *CURENCY.* A sharp and very beautiful AU specimen of this rare and historic issue. The 1776 Continental dollar, long a classic, is gaining additional recognition in view of the impending bicentennial. No other colonial United States issue bears the "magic" date 1776. The presently offered coin is an exceptionally desirable example of this early coin.

376 1787 Nova Eborac (New York) coinage. Figure facing left. Very Good to Fine. Some lightness of striking around borders, as characteristic.

377 1787 **Immunis Columbia copper; eagle reverse.** Obverse with the seated figure of Columbia; IMMUNIS COLUMBIA legend (a reference to Columbia ["America"] being immune from the rest of the world's problems) surrounding. Reverse with heraldic eagle. An attractive **Very Fine** specimen, well-struck, well-centered, and on a pleasing light brown planchet. Catalogues $550 in the **Guide Book**, but easily worth more.

378 1788 Vermont copper. Ryder-16. Mailed bust right. Fine obverse; Very Good reverse. Weakly struck at the center, as is characteristic of all known examples (irrespective of grade) of Ryder 16 coins.

379 1787 Connecticut. Draped bust left. Miller 33.9-S.2. Rarity 2 on the Miller scale. Very Fine.

380 1788 Connecticut. Draped bust left. Miller 15.1-L.1. Rarity 4. Very Fine.

381 1787 New Jersey. Small thick planchet. Plain shield. Maris 43-y. Very Fine.

382 1787 Massachusetts cent. Ryder 3-G. Very sharp Extremely Fine. Nice!

383 1783 Washington. Large military bust. Plain edge. Extremely Fine.

384 1783 Washington. Draped bust. No button on toga. Very Fine.

385 (1783) Washington. Double Head cent. F-VF. An authentic example of a two-headed coin! Interesting and popular.

386 1793 Washington. Ship halfpenny. Edge lettered: PAYABLE IN ANGELSEY LONDON OR LIVERPOOL. F-VF.

387 1795 Washington. Liberty and Security halfpenny. Plain edge. Sharp VF-EF. Exceptionally sharp striking for this issue, as illustrated. An unusual opportunity for the collector of Washingtoniana.

GREAT COLLECTIONS

It is a matter of record that the American Auction Association and Bowers and Ruddy Galleries have handled a good share of the major collections to come on the market in recent decades. And yet, you don't have to have a "great collection" to be a consignor to one of our sales. On the contrary, in each of our sales we usually have a number of consignors who sell properties—a few single coins or an extensive group—worth from a few thousand dollars on up. Thinking of selling? Write or call today for complete information.

U.S. Half Cents

388 1794 Cohen-9. Very Fine and sharp. A pleasing specimen of this early half cent date.

389 1802/0 New reverse. C-2. G-VG. Small planchet crack at left rim. A myriad of ancient abrasion lines on the higher parts are visually better than the description indicates. Pleasing light brown color.

390 1804 Crosslet 4 in date. Stems to wreath. C-10. VF-EF.

391 Pair of half cents: (1) 1804 Plain 4. Stems to wreath. C-1. Very Fine; (2) 1805 Small 5. Stemless wreath. C-1. Extremely Fine. Very attractive surfaces. (Total: 2 pieces)

392 1834 C-1. **Uncirculated.** Burgundy coloration at the centers fading to deep iridescent hues at the border. Beautiful!

Exceedingly Rare 1846 Original Half Cent

393 **1846 Half cent. Original.** The consignor acquired this rarity at our fabulous Newport Collection sale, where it was described as follows:

"**1846 Proof half cent. Original, with large berries on reverse.** Exceedingly rare; one of only 25 to 35 pieces known to exist. The present specimen, acquired from us over ten years ago, is a lovely **Proof** example with attractive light toning. Here is a prize coin for the half cent collector or for the general collector and/or investor who appreciates rare and beautiful numismatica."

So, now we handle this prime rarity for the third time in little more than a decade. Hopefully, we'll have the pleasure of handling it again someday!

Note: In our nearly quarter century of business we have handled certain scarcities and rarities several times. Coming to mind in this regard is a specimen of the rare 1876-CC twenty-cent piece which we handled three times (the specimen formerly in the Jerome Kern Collection), an 1838-O half dollar which we handled three times (the Century Collection coin), and so on. Such events are like seeing an old friend again!

Important and Rare 1847 Half Cent

394 **1847 Half cent. Second restrike** with small berries in wreath. With diagonal die striations over RICA of AMERICA, as is diagnostic. **Choice Proof** with iridescent lilac toning. Exceedingly rare; fewer than three dozen pieces are known to exist. An important opportunity for the half cent aficionado.

395 1853 Lustrous brown Uncirculated.

396 1853 AU+. Attractive reddish-brown surfaces.

397 1856 Choice Uncirculated. Frosty claret and brown surfaces. A beautiful coin with attractive toning as acquired over the years. Scarce so fine.

398 1856 Choice brown Uncirculated. A lustrous little cameo that will delight the advanced collector in this series.

399 1857 **Uncirculated** with some tinges of original mint red. One of just 35,180 pieces minted. The last year of half cent coinage.

U.S. Large Cents

Important 1793 Chain AMERICA Cent

400 **1793 Chain AMERICA cent.** S-3. Obverse with Ms. Liberty facing right. LIBERTY above and 1793 below. Reverse with a chain of 13 links enclosing ONE CENT 1/100. Around the border: UNITED STATES OF AMERICA.

Beautiful **Very Fine.** Exceedingly well struck, with extraordinary (for a 1793 Chain cent) hair detail on obverse.

Lacking the rim bruises and defects so often found on cents of this style. A few trivial planchet marks (one before the L of LIBERTY on the obverse and some small others around STATES on the reverse) must be mentioned for the sake of accuracy but do not measurably detract from this exceptional coin. Worth a high bid from the serious collector of United States coins by design types.

Note: Shortly after the new American cent made its appearance, the Boston Argus, issue of March 26, 1793, wrote:

"The American Cents (says a letter from Newark) do not answer our expectations. The chain on the reverse is but a bad omen for Liberty, and Liberty herself appears to be in a fright . . ."

This and other similar comments were not unheeded by the Mint, and shortly thereafter the design was changed to the wreath style, thus isolating the 1793 Chain cent as one of the most interesting and historically significant of all early American copper coins.

Magnificent 1793 Wreath Cent

401 **1793 Wreath cent. Vine and bars edge.** S-9. Superb **EF-AU.** Gorgeous light brown coloration at the centers, fading to darker brown at the edges. Struck on a lightly striated planchet.

A sharp and very beautiful specimen of this important early cent. A coin for the collector who appreciates the finest. Certainly few equal or finer 1793 wreath cents have crossed the auction block in the past century.

402 **1793 Wreath cent.** S-11b. Edge lettered: ONE HUNDRED FOR A DOLLAR. **F-VF,** with some old, small cuts on the obverse. Actually, this is a very attractive coin overall; a piece which should be seen to appreciate its beauty.

403 **1793 Wreath cent.** Vine and bars edge. S-6. Abt. Good.

Very Rare 1793 Liberty Cap Cent

404 **1793 Liberty cap cent.** S-12. The scarcest of the three major designs of the year, the 1793 Liberty cap cent is a rarity in all grades. The present specimen is a pleasing **VF-EF** example of lovely deep brown coloration. The coin is on a beautiful planchet, is well centered, and is truly outstanding in all respects. A truly handsome specimen of one of the rarest and most desired of all early American copper issues. Worth a strong bid from the large cent specialist.

405 Group of early large cents: (1 to 3) group of 3 Fair 1794 cents; (4) 1795 Lettered edge. Fair; (5) 1795 Plain edge. Fair; (6) 1796 Liberty cap. Fair; (7) 1796 Draped bust. VG obverse, Abt. Good reverse; (8) 1797 Gripped edge. VG obverse, Abt. Good reverse; (9 and 10) 2 pieces 1797 Fair; (11 to 15) 3 pcs. 1798 Abt. Good, 2 pcs. 1798 Fair; (16) 1800/179 Fair; (17) 1800 Abt. Good; (18) 1800 Fair; (19) 1801 Abt. Good; (20) 1801 Fair; (21) 1802 Fair; (22) 1802 Abt. G; (23 and 24) 2 pcs. 1802 Good; (25) 1802 VG; (26) 1803 Fair; (27 and 28) 1803 holed, 2 pcs; (29) 1804 Fair; (30) 1805 Good; (31 and 32) 2 pcs. 1805 Fair; (33) 1806 Fair; (34) 1807/6 Abt. Good; (35) 1807/6 Fair; (36) 1807 Fine, black and porous; (37) 1807 Good; (38) 1807 Abt. G; (39) 1808 Abt. Good; (40) 1809 Fair; (41) 1810 Good; (42 and 43) 2 pcs. 1810 Fair; (44) 1811 Fair; (45) 1812 Good; (46 and 47) 2 pcs. 1813 Abt. Good; (48) 1814 Good; (49) 1814 Fair. (Total: 49 pieces)

406 1794 S-41. Rarity 4. **Very Fine.** With dark and lightly porous surfaces. Believed to be the *sixth finest known* specimen of this rare variety. From the Hines Collection, Barney Bluestone, and the Dr. Charles Ruby Collection. An opportunity for the large cent specialist.

Condition Census 1794 S-59 Cent

407 1794 S-59. Beautiful **Brown Uncirculated** with some edge bumps. Deep rich glossy brown surfaces. A few minor marks on the surfaces are visible with a glass. Very comfortably within the 60-60-40-35-30-30 Condition Census, and as such, a rare prize for the specialist!

408 1794 S-59. R-3. Abt. Fine.

409 Group of cents: (1) 1794 Fair; (2) 1803 Small date, small fraction. VF, porous; (3) 1818 **Brilliant Uncirculated.** Expertly cleaned long ago. Very nice-appearing, and a desirable coin; (4) 1837 Plain hair cord. Medium letters. EF. Dark and porous. (Total: 4 pieces)

Choice Uncirculated 1795 Cent

410 1795 S-78. Plain edge. ONE CENT centered in wreath. **Choice Brown Uncirculated.** Exceptionally well struck and with exquisite needle-sharp detail, even on the higher points. A minor area of planchet roughness occurs at the extreme right border on the obverse but does not extend into the field past the dentieles. From the standpoint of striking, this is one of the finest S-78 cents in existence. From the standpoint of condition it is among the finest also, but not quite in the Condition Census. A truly beautiful cent and one which would be ideal to illustrate the 1793-1796 design type in a top grade type set of United States coins.

411 Trio of cents: (1) 1795 Plain edge. Abt. Good obverse. Nearly smooth reverse; (2) 1798 S-166. Fine; (3) 1801 The famous *Three Errors* reverse. Abt. Good, but with all three of the errors very distinct. (Total: 3 pieces)

412 1799 S-189. Very Good grade overall. The date, 1799, is exceptionally bold for a coin of this condition. LIBERTY is weak, as expected on S-189. The reverse displays numerous green pits. Traditionally, 1799 is the most famous date in the large cent series.

Condition Census 1802 S-238 Cent

413 1802 S-238. **Rarity 6.** Widest date of the year. Reverse with four berries on the right branch. Attractive **Very Fine.** Flawless surfaces save for tiny identifying marks to the left of L in LIBERTY and on the reverse to the left of U in UNITED. Dark, smooth patina. A **Condition Census item,** within the 40-25-20-15-15-12 enumeration. From the celebrated Clapp and French collections. Another prize for the collector of early cents.

414 1804 Restrike. Although this piece is traditionally called the *Mint Restrike,* its fabric indicates that it was privately made outside of that venerable institution. The Proskey-Doughty commentary quoted by Dr. William H. Sheldon (cf. p. 313 of *Penny Whimsy*) indicates the Mint origin:

"This singular example of the low moral tone of some of our public officials made its appearance about the year 1860 . . . in no (real) sense a restrike . . . but manufactured for the sole purpose of supplying coin dealers with a cent . . . they could sell to young and ignorant collectors."

As noted, the coin is not a *restrike* for it was not restruck from original dies. Rather, it is a made-up item, a *piece de caprice* as it were, produced by altering the obverse of an old and rusted 1803 cent die and combining it with an irrelevant and differently-styled reverse of an 1818 cent.

The 1804 "restrike" has always been a popular curiosity among collectors, so the present coin should sell for a good price. It is Uncirculated with a light brown surface.

415 1809 Searce date. S-280. Very Good. Surfaces, save for the higher parts, are black and slightly porous.

416 Large and interesting lot of large cents of various years from 1816 to 1857. This comprises a date set of cents of this era, plus some interesting varieties and duplicates. A lot which will provide a lot of numismatic interest to its new owner. The group contains:

(1) 1816 Good; (2) 1816 Fair; (3) 1817 15 stars. Abt.G to G; (4) 1817 15 stars. Fair; (5) 1817 13 stars. Abt. G; (6) 1817 13 stars. Abt. G; (7) 1818 VG; (8) 1818 Abt. G; (9) 1819/8 Abt. G; (10) 1819 G; (11) 1819 Abt. G; (12) 1819

Fair; (13) 1820/19 G; (14) 1820 VG; (15) 1820 Fair; (16) 1820 Fair; (17) 1821 Abt. Good; (18) 1822 Very Good; (19) 1822 Fair; (20) 1823/2 Scarce. Abt. Good; (21) 1824 Good; (22) 1825 Good; (23) 1826 VG; (24) 1826 Fair; (25) 1827 G, counterstamped; (26) 1827 Fair; (27) 1828 Small date. Scarce. VG; (28) 1828 Small date. Fair; (29) 1829 G; (30) 1829 Fair;

(31) 1830 VG; (32) 1831 Fine; (33) 1831 Abt. G; (34) 1832 G; (35) 1832 G; (36) 1833 G; (37) 1834 G; (38) 1834 Abt. G; (39) 1834 Abt. G; (40) 1835 VF; (41) 1835 G; (42) 1836 Fair; (43) 1836 Fair; (44) 1837 PHC. EF; (45) 1837 PHC. Fine; (46) 1837 PHC. Good; (47) 1838 VG; (48) 1838 VG; (49) 1838 Fair; (50) 1839 Type of '38. G; (51) 1839 *Silly Head* VG; (52) 1839 *Booby Head* Abt. G; (53) 1839 Type of '40. Abt. G;

(54) 1840 VF, but acid-etched; (55) 1840 Fine; (56) 1840 VG, counterstamped; (57) 1841 G; (58) 1842 Fine; (59) 1842 VG; (60) 1842 Fair; (61) 1843 Type of '42. EF, cleaned; (62) 1843 Type of '42. VF; (63) 1844 Good; (64) 1845 VF; (65) 1845 Fine; (66) 1845 VG; (67) 1846 VG; (68) 1846 Fair; (69) 1847 VG; (70) 1847 VG; (71) 1847 Fair; (72) 1848 Fine; (73) 1848 Fine; (74) 1848 Fine; (75) 1848 VG; (76) 1848 VG; (77) 1848 Good; (78) 1848 Good; (79) 1849 VG; (80) 1849 Good;

(81) 1850 VF, porous; (82) 1850 Fair; (83) 1851/81 Die blunder. Fine; (84) 1851 Fine; (85) 1851 Good; (86) 1851 Good; (87) 1851 Abt. G; (88) 1852 Fine; (89) 1852 G; (90) 1852 G; (91) 1852 G; (92) 1853 VG; (93) 1853 Fair; (94) 1854 EF; (95) 1854 VF; (96) 1854 VF; (97) 1854 Abt. G; (98) 1854 Abt. G; (99) 1855 Slanting 5's. EF, cleaned; (100) 1855 Knob on ear variety. F-VF; (101) 1855 Upright 5's. AU; (102) 1855 Upright 5's. EF; (103) 1856 Slanting 5. VF; (104) 1857 SD. F-VF; (105) 1857 LD. VF, cleaned. (Total: 105 pieces)

417 1846 Small date. Choice brown Uncirculated. Some nuances of original mint red on reverse. A very pleasing coin.

418 1847 Choice Brown Uncirculated with mint red showing in places. Small (6 mm.) depressed area or *lint mark* in reverse field due to a piece of debris in the die.

419 1853 Choice Uncirculated. Original lustre naturally toned to a rich russet color. Very attractive.

420 1853 Brown Uncirculated. Some small edge bumps.

Choice Proof 1856 Large Cent

421 **1856 Large cent.** A beautiful lightly toned **Choice Proof** specimen from the Proof set of this year. As only about 25 Proof sets were coined in 1856, this coin is an exceedingly important rarity. Only infrequently does a specimen come on the numismatic market. A beautiful coin worth a strong bid!

Note: The 1856 Proof sets contained large cents, not flying eagle cents, for the latter were considered patterns and not regular issues at the time.

422 1856 Upright 5 in date. Brown Uncirculated. Traces of original red. Struck on a lightly granular planchet, as is sometimes seen. Unusual.

423 1857 Large cent. Small date. AU+. Separated from Uncirculated by just a hint of rubbing on the higher spots. Scarce.

THANK YOU FOR YOUR PARTICIPATION!

★ Famed 1856 Flying Eagle Cent ★

426 **1856 Flying eagle cent.** A *superb* **superb** specimen of this, one of the most famous of all United States coins. The specimen here offered is a **Choice Proof** with beautiful light toning as naturally acquired over a long span of years. The ideal opportunity for the numismatist who wants the *finest quality* 1856 flying eagle cent money will buy.

Note: The 1856 flying eagle cent was originally conceived as a pattern. In 1856 approximately 500 to 600 of these coins, mainly in Uncirculated (not Proof) condition, were minted in order to test the small diameter (in comparison to the standard large copper cent of the period) and the design. The Mint was pleased with the new format, and made 500 to 600 pieces for distribution to congressmen, newspaper editors, and others of influence. In addition, a few Proofs were minted in 1856.

Public and legislative reaction was very favorable, and as history relates, the flying eagle cent became an actuality in 1857. During that year millions of 1857 flying eagle cents were produced for circulation.

In the meantime, the 1856 pattern flying eagle cent had achieved a fame of its own. It immediately became popular with numismatists who recognized its scarcity, at least in comparison to the plentiful 1857 and later the plentiful 1858 cents of the same design. The original 500 to 600 pieces had by this time been quite well distributed. But, here was an interesting commodity and there was a demand for it—so why not strike more 1856-dated flying eagle cents? So ran the logic of those in command at the Philadelphia Mint.

Accordingly, for the next several years, perhaps until as late as 1863-1865, the Mint produced additional 1856 flying eagle cents, mostly Proofs. At the time the Mint was a super-active "coin collector" and regularly bought, sold, and traded coins. To gain pieces for its own cabinet, particularly for the Washington Cabinet of coins and medals honoring our first president (this collection was dedicated in 1859), the Mint produced a wide variety of restrikes of earlier issues, including 1804 silver dollars, Gobrecht dollars, and 1856 flying eagle cents. The value of the 1856 flying eagle cent was not great at the time. In 1859 one had an average market value of about $2. However, $2 was worth a lot more in 1859 than it is now—and, considering inflation, it is safe to assume that in terms of today's dollars each coin could be sold by the Mint for about $30 to $40.

It is nowhere recorded how many 1856 flying eagle cents were made. However, for what one guess is worth, we would estimate that 1,800 to 2,000 were struck. The most famous holding of these pieces was the celebrated John Beck Hoard located in Pittsburgh, Pennsylvania. At one time it contained 531 pieces in various grades! (That hoard is being sold over a period of years by our friends, Jerry Cohen and Abner Kreisberg.)

Rare 1856 Flying Eagle Cent

427 **1856 Flying eagle cent.** One of America's scarcest, most romantic, and most desired coins. Attractively toned **Proof.** Some tiny specks are visible with a hand glass and are scarcely worth mentioning. All in all, a very beautiful coin.

Note: See description under Lot 426 for historical data concerning this issue.

☆ A Third Rare 1856 Flying Eagle Cent ☆

428 **1856 Flying eagle cent.** Another specimen—the third offered in this remarkable auction sale! The present coin, probably an original (see notes under Lot 426), is in VF-EF grade. Sharply struck and with pleasing surfaces. A very desirable coin.

429 **1857 Flying eagle cent. Uncirculated** with attractive light toning. First regular year of issue of this short-lived design.

Gem Proof 1859 Indian Cent

430 **1859 Indian cent.** The only regular issue year with the Indian head obverse and the laurel wreath reverse. The present coin is a **Gem Brilliant Proof** specimen and is superb in every aspect. Catalogues $750 in the *Guide Book*, and whatever it brings is up to you—but it's our guess that this coin will approach or cross the $1,000 mark. Certainly it's worth it!

Note: This coin brings to mind the first item that your cataloguer (QDB) ever ordered through the mail. In 1953, I believe, I received a letter from the Copley Coin Company (owned by Maurice M. Gould and Frank Washburn) offering me a Proof 1859 Indian cent for the princely sum of $11. I sent off my check, and within a week or so the package arrived. Upon opening it I was confronted with the most beautiful Indian cent I had ever seen! Maury Gould, now a friend of mine for many years, presently is a national columnist for many papers, an author of several books, and a member of the board of governors of the American Numismatic Association. Frank Washburn passed away a few years ago. The 1859 cent? I don't recall what happened to it. It was sold at a nominal profit, I am sure. I hope that the purchaser, who probably paid me $15 or so for it, still owns it—for it certainly has been a wonderful investment!

Exceedingly Rare 1861 Original Confederate Cent

431 1861 **Confederate States of America cent in copper-nickel metal. Original. One of just twelve specimens struck. Choice Uncirculated** with light toning.

In our more than twenty years in numismatics, this is just the second specimen of an original 1861 C.S.A. cent we've handled. The first, also an Uncirculated piece, was listed in our *Rare Coin Review* No. 19 two years ago at $14,995 and was sold instantly.

To our mind the 1861 Confederate States of America cent is one of the most important coins in American numismatics. Its history is fascinating:

The story of the 1861 C.S.A. cent began early in that year when the Confederacy contacted Bailey & Co., the well-known Philadelphia jewelers, about coining on a contractual basis a supply of one-cent pieces for the South. Bailey & Co. agreed to do this, and contacted Robert Lovett, Jr., a diesinker of that city, to prepare the pieces. In 1860 Lovett had produced a one-cent-size business token with an attractive bust of Liberty on the obverse and his own advertisement on the reverse. This aesthetically beautiful Liberty design was deemed ideal for use on the Confederate cent.

Lovett used the Liberty motif for the C.S.A. obverse, surrounding it with the legend CONFEDERATE STATES OF AMERICA, and added the 1861 date below. The reverse depicted a wreath of tobacco, cotton, and sugar cane—all products of the South—with a cotton bale below. On the bale he added his tiny initial L.

Lovett struck just twelve pieces in copper-nickel. He was then fearful that his assignment would be viewed as illegal by the Union authorities, and he concealed the dies and the twelve coins in his cellar.

Lovett nevertheless was quite proud of his Confederate cents, and he carried two of them as pocket pieces. Sometime in the early 1870's he accidentally spent one of these in a tavern. The solitary 1861 Confederate cent, as chance would have it, found its way to Captain J.W. Haseltine, a coin dealer and prolific researcher. (It was Haseltine who produced a series of pioneering listings of American silver coins by die varieties, for example.) Haseltine, familiar with the Liberty design from its use on Lovett's 1860 token and other Lovett tokens, immediately recognized who made it. He subsequently made several visits to Lovett in an effort to learn the true story of the Confederate cent.

(Text continued on following page)

EXCEEDINGLY RARE 1861 ORIGINAL CONFEDERATE CENT (CONT.)

Lovett, still concerned with the legality of his work, remained silent. One day Lovett had a change of heart and pulled out one of his cabinet drawers for Haseltine. There all in a tidy row were the ten remaining original 1861 Confederate cents! Lovett then told the story, up to that point completely unknown by numismatists, of the origin of the C.S.A. pieces. He sold to Haseltine the ten coins and the dies used to strike them.

Realizing the sensation that the knowledge of the existence of a genuine Confederate cent would have for numismatists, and further realizing that the tiny supply of ten original pieces would hardly suffice to fill the demand, Haseltine enlisted the help of J. Colvin Randall and Peter L. Krider, also of Philadelphia, in producing restrikes from the original dies. They were careful not to produce any restrikes in the original metal, copper-nickel, thus preserving the integrity of the ten (formerly twelve) pieces struck in 1861 by Lovett.

The story of the restriking was told in an advertisement used to sell the subsequently-produced coins:

Philadelphia, April 2, 1874

Having succeeded in discovering and purchasing the dies of the Confederate cent, we, the undersigned have concluded to strike for the benefit of collectors a limited number, and in order to protect those gentlemen who had the [copper-nickel] pieces, originally struck in 1861, we determined to strike none in that metal. Our intention was to strike five hundred in copper, but after the 55th impression the collar burst and the dies were badly broken. They are now in the possession of Mr. Haseltine and may be seen at any time at his store, No. 1343 Chestnut St., Philadelphia.

The history of this piece is probably known to most collectors [having been written up extensively in the numismatic press after Captain Haseltine's discovery], but for the information of those who are ignorant of the facts, we will state that the dies were made by Mr. Lovett, of Philadelphia, in 1861, who says that they were ordered in that year by the South, and that he struck but twelve pieces, but probably thinking that he might have some difficulty in reference to them (having made the dies for the South), he mentioned the matter to no one until a few months since, when he parted with ten pieces, struck in [copper-nickel] which he stated were all he had, having lost two pieces. One of the said two pieces was the means of the dies and pieces being traced. Although the Confederacy did not adopt this piece, it will always be considered interesting as the only coinage designed for the said Confederacy . . .

The notice went on to say that 7 restrikes were made in gold, 12 in silver, and, finally, 55 in copper, and that by April 2, 1874, six of the ten original 1861 C.S.A. copper-nickel cents had been sold.

The whereabouts of the twelve original C.S.A. cents are unknown to us today. To our knowledge no one has ever attempted to list known specimens together with their pedigrees.

The presently-offered coin, in superb condition, is one of just two specimens we've handled in over twenty years of numismatics, and it is the first we've ever offered at auction. Indeed, this variety has been absent from virtually every important collection marketed in this century.

The coin is of great historical importance. Only two coins were ever commissioned by the Confederacy: the 1861 cent, of which 12 were struck, and the 1861 half dollar, of which 4 were struck. The half dollar is only partly a unique Confederate design, for the obverse is that of a regular 1861 United States half dollar.

Your cataloguer has handled some wonderful coins—the silver dollar of 1804, three different MCMVII Extremely High Relief double eagles (which are now valued at over $200,000 each), the 1913 Liberty head nickel, and so on—but no coin can claim a richer *numismatic history* than this little cameo 1861 original Confederate cent. This very coin was struck in secret, then reposed for years hidden in Lovett's cellar, and then was the subject of sensational news in the numismatic world.

Whether it will bring $15,000 (as mentioned earlier, we sold one at private sale two years ago for $14,995) or more or less is up to you. If we *personally* were to have a say about it, we would think that $15,000 is *absurdly cheap* in view of the prices that many other U.S. rarities sell for. We'll be jealous of the buyer, for we wish that it were our own. Our hope is that in some future day we'll have the pleasure of cataloging this piece of history. Coins such as this are the *raison d'etre* of numismatics!

432 1862 **Copper-nickel. Brilliant Proof** regular-issue U.S.A. Indian cent. One of just 550 Proofs minted. Separated from the *gem* category only by some trivial tittle specks.

433 1864 **Copper-nickel.** An attracrive **Brilliant Proof.** Separated from perfection by a small edge bump and by some flyspecks. Rare. Only 300 Proofs of this issue were coined, and by any standard this constitutes a *rarity* in the Indian cent series.

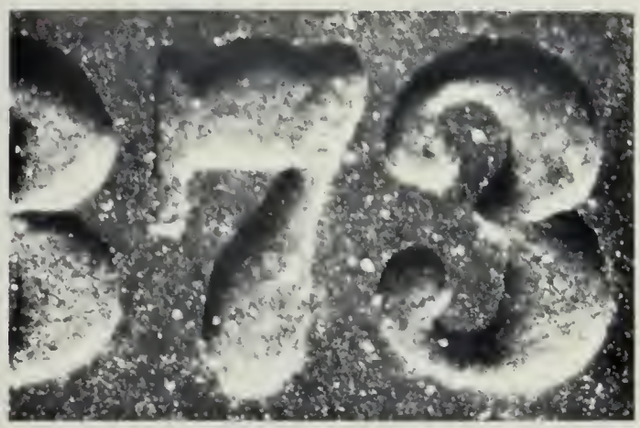

434 1864-L **Choice Brilliant Uncirculated.** Rare. Beautiful. Desirable.

435 1864-L **Uncirculated.** Red and brown.

436 1867 Brilliant Uncirculated.

437 1870 Choice Brilliant Uncirculated.

438 1873 **Open 3 cent.** Not a rare issue per se, but this specimen is much more than above average in interest. First of all, it is a **Gem Brilliant Uncirculated** piece—which makes it scarce, if not rare.

Most important, it is the *discovery piece* for this variety. This coin, formerly in the collection of our friend Harry X Boosel, is the piece used to illustrate the Open 3 variety on page 81 of *A Guide Book of U.S. Coins.* It was Harry who discovered and subsequently published (in the *Numismatic Scrapbook Magazine*) the information that most 1873 coins existed in two varieties. The first ones, the Closed 3 issues, resembled an 8 more than a 3, with the result that to the unaided eye an 1873 cent seemed to read "1878." So, the Mint opened the 3, and hence the Open 3 variety on later issues.

So, here is a coin with an interesting story!

Note: Harry X Boosel has X as a middle name, not as a middle initial, as we discovered years ago when we once wrote his name as Harry X. Boosel, and he hastened to write a letter to correct us! Since then Harry X has been a good friend and has, in fact, consigned coins to us in several of our past sales. (The present coin is not a consignment of Harry X Boosel but, rather, is the consignment of Mr. Jerome Shochet, who purchased it earlier from the Boosel Collection.)

439 1875 Choice Brilliant Uncirculated. Subliminal toning just beginning to form. A really beautiful coin.

Note: The Kensington Collection sale may not be the most valuable auction we've ever catalogued (although it certainly ranks up there somewhere!), but there is no doubt that from a numismatist's viewpoint it is one of the most fascinating. One can make money on coins, and over the years we've seen our clients make untold millions of dollars by investing in coins. It is sometimes overlooked that one can have a lot of fun with coins as well—and it is the pleasure rather than the profit aspect of this catalogue which excites us most! We hope that you as a successful bidder will share in some of this with us.

440 1875 Choice Uncirculated. Attractive red and brown satiny surfaces.

441 1879 Brilliant Proof. Medium-size oxidation spot on headdress.

442 1882 Choice Brilliant Proof.

443 1889 Choice Proof. With beautiful blue and green iridescent toning.

444 1892 Brilliant Proof.

445 1909 **V.D.B. Choice Matte Proof.** A legitimate Matte Proof with *squared rims* and other hallmarks. Although 420 Matte Proof 1909 V.D.B. Proofs were reported coined, it is our estimate that only about 100 to 200 survive today. Complicating the situation is the fact that most, perhaps even 80%, of the 1909 V.D.B. "Matte Proof" cents offered for sale aren't Matte Proofs at all but are regular Uncirculated pieces with granular or matte-like surfaces (with which many Uncirculated pieces are found). So, a *real* Matte Proof is hard to find. Here is one! It is a sharp specimen with light toning.

446 1909-S **V.D.B.** One of the most famous 20th century United States scarcities. Brown **Uncirculated.** With V.D.B. initials weakly struck, but identifiable without question.

447 1909-S **V.D.B.** AU, cleaned.

448 1909-S **V.D.B.** AU, cleaned. Duplicate.

449 1909-S **V.D.B.** Very Fine. Streaked light and brown toning.

450 Hoard of 1909-S Lincoln cents. Good to Very Fine, but mostly in the VG range. All have been cleaned and are in need of judicious re-toning (about which Dr. William H. Sheldon gives some judicious advice in his *Penny Whimsy* book). (Total: 28 pieces)

451 1913-S Red and brown Uncirculated.

U.S. Two-Cent Pieces

454 1864 Large motto. Brilliant Uncirculated.

455 Group of two-cent pieces: 1864 LM. AU; 1864 LM. EF; 1869 VF; 1871 EF. (Total: 4 pieces)

456 Group of two-cent pieces: 1864 LM. EF; 1865 EF; 1868 BU, cleaned; 1869 AU, cleaned. (Total: 4 pieces)

457 Group of two-cent pieces: large lot of 218 pieces, average worn condition (Good or so for the most part). A very unusual group! (Total: 218 pieces)

458 1866 Brilliant Uncirculated. Cleaned, and now beginning to retone a light golden color.

459 1870 Proof. Cleaned some time ago, lightly toned in the interim, and then lacquered.

460 1871 Choice Brilliant Uncirculated, prooflike.

U.S. Nickel Three-Cent Pieces

461 1865 Choice Brilliant Uncirculated. First year of issue of this denomination.

462 1865 Brilliant Uncirculated.

463 1866 Brilliant Uncirculated.

464 1878 Gem Brilliant Proof. Elusive Proof-only date. Only rarely is one in such beautiful condition seen or offered for sale.

465 1879 Brilliant Proof. Some horizontal lines (slide marks) on cheek.

Note: "Slide marks" are found on probably 75% of the Proof Barber 10c, .25c, and 50c in existence—and on an occasional nickel 3c piece, as the foregoing lot indicates. These pieces have the cheek of Ms. Liberty as one of the highest-relief features on the obverse. When these coins are stored in certain types of holders with acetate or celluloid slides the clear slides will leave abrasive slide marks if they are allowed to rub back and forth against the cheek on the coin each time a slide is removed from the album. The best way to prevent this is to push each coin down in the album a sufficient distance that the slide will not come into contact with the coin.

466 1879 Gem Brilliant Uncirculated. A rarity in all grades, 1879 is particularly elusive in superlative condition such as this.

467 1880 Choice Brilliant Proof. Rare date.

468 1880 Gem Brilliant Uncirculated. Rare!

469 1880 Gem Brilliant Uncirculated. Another one, believe it or not! Such pieces are far rarer than Proofs.

470 1881 Choice Brilliant Proof.

471 1882 Choice Proof with very light toning just beginning to form.

472 1883 Choice Brilliant Proof.

Note: Nickel three-cent pieces of the 1877-1889 era, excluding the high-mintage 1881, are exceedingly popular due to the small numbers coined each year. The Kensington Collection sale gives you the opportunity to bid on many really outstanding coins from this era.

473 1883 Choice Brilliant Proof.

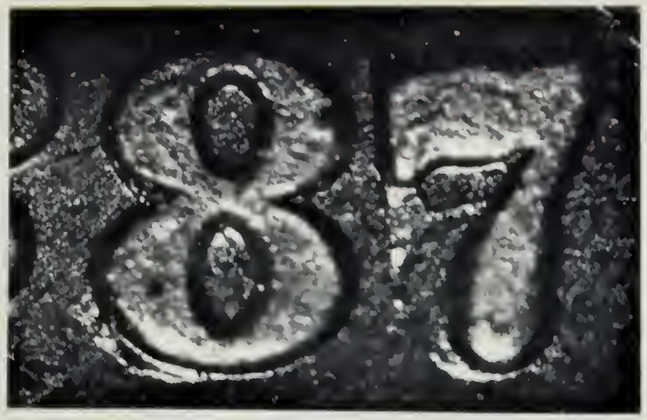

474 1883 Lightly-toned Choice Uncirculated. Trivial nick on cheek. Rare so fine!

475 1884 Choice Brilliant Proof.

476 1885 Choice lightly-toned Proof.

477 1886 Choice Brilliant Proof. Two tiny planchet marks in the edge denticles. A beautiful specimen of this low-mintage issue.

478 1887/6 **Overdate. Choice Brilliant Proof.** The only overdate in the nickel-three cent series, and one of the few U.S. overdate coins known to exist in Proof condition.

479 1888 Gem Brilliant Uncirculated, prooflike.

480 1889 Choice Brilliant Proof.

Silver Three-Cent Pieces

481 Group of silver three-cent pieces: 1851 EF; 1852 BU; 1852 EF-AU; 1855 scarce date. AU, date weak; 1861 BU, some weak areas; 1862 EF. A nice start on a date set of this tiny silver denomination. (Total: 6 pieces)

482 1853 Brilliant Uncirculated.

483 1853 Brilliant Uncirculated. Tiny rim mark.

484 1858 **Brilliant Uncirculated.** The scarce Type II design minted only from 1854 to 1858 inclusive.

485 1861 Gem Brilliant Uncirculated.

486 1861 Brilliant Uncirculated, light rubbing.

487 1862 Gem Brilliant Uncirculated. Rainbow toning around the periphery. A connoisseur's coin!

488 1862 Choice Brilliant Uncirculated. Beautiful light toning just beginning to form around the periphery.

489 1862 Brilliant Uncirculated.

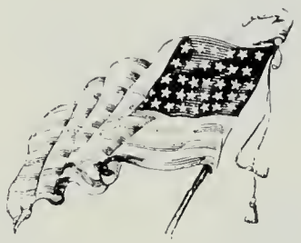

490 1862 Brilliant Uncirculated.

491 1864 **Choice Proof** with superb blue and iridescent toning. A numismatic prize!

492 1864 **Choice Brilliant Uncirculated.** Exceedingly rare in this superlative condition.

U.S. Nickel

☆ Five-Cent Pieces ☆

493 1866 **With rays.** First year of the shield nickel design. **Choice Brilliant Proof.** A few tiny specks are scarcely worthy of mention. A far above average specimen of this rare (in Proof grade) issue.

494 1866 With rays. Brilliant Uncirculated, light rubbing.

495 Group of shield nickels: 1866 Rays. VF; 1867 No rays. VF; 1868 VF; 1869 F; 1870 F; 1871 F; 1873 VF; 1874 F; 1875 G; 1876 VF; 1882 VF; 1883 EF. (Total: 12 pieces)

496 1867 **With rays. Choice Brilliant Uncirculated.** A beautiful specimen of this rare issue.

497 1867 No rays. Choice BU, save for some minor flyspecks.

498 Group of shield nickels: 1867 No rays. VF; 1868 AU; 1869 EF; 1870 VF, cleaned; 1871 Scarce date. AU; 1872 BU, rubbing; 1873 VF; 1874 VF; 1875 VF; 1876 AU; 1883 EF. (Total: 11 pieces)

499 1870 Uncirculated, light rubbing.

500 1871 **Gem Brilliant Proof.** A very scarce date in very rare condition!

501 1871 **Proof** with light toning. Scarce.

502 1877 **Brilliant Proof.** Exceedingly rare date. An estimated 510 pieces were coined in Proof grade. No pieces were made for circulation. This is the second-lowest (the 1913 Liberty head is lowest) mintage nickel in the entire series from 1866 to date! **Brilliant Proof.** A few flyspecks. Quite attractive overall.

503 1878 **Gem Brilliant Proof.** A superb specimen of this rare Proof-only date.

504 1879 **Gem Brilliant Uncirculated.** Very scarce in this grade.

505 1879 **Gem Brilliant Uncirculated.** Another specimen of this scarce issue—and just as nice!

506 1880 **Choice Brilliant Proof.** Beautiful!

507 1880 **Choice Brilliant Uncirculated,** prooflike. Very rare in this grade.

508 1880 **Choice Brilliant Uncirculated.** Another superb specimen of this rare date.

509 1881 **Brilliant Proof.** Scarce date.

Collection of Liberty Head 5c 1883-1912

515 **Collection of Philadelphia Mint Liberty head nickels 1883-1912.** One each of the dates in this span, plus the two varieties of 1883. No 1912-D or 1912-S. An attractive grouping with predominately higher grades, to wit:

1883 No CENTS. Choice BU; 1883 With CENTS. VF; 1884 Choice BU; 1885 Rare date. Toned Uncirculated; 1886 Rare. Brilliant Proof; 1887 BU, rubbing; 1888 Choice Brilliant Proof; 1889 AU, cleaned; 1890 EF; 1891 Brilliant Proof; 1892 Choice Uncirculated, lightly toned; 1893 Proof, some surface streaks; 1894 Choice Brilliant Proof; 1895 EF, cleaned; 1896 AU; 1897 AU; 1898 Brilliant Proof; 1899 Choice Uncirculated with golden toning; 1900 BU, rubbing; 1901 BU; 1902 Choice BU; 1903 Proof with hairlines; 1904 Choice BU; 1905 BU; 1906 BU; 1907 BU, rubbing; 1908 Choice BU; 1909 Choice Proof, lightly toned; 1910 BU, rubbing; 1911 AU, cleaned; 1912 BU, rubbing. (Total: 31 pieces)

516 1883 Liberty. No CENTS. Choice Brilliant Proof.

Note: From the second Proof die used to coin this variety, and lacking the recut S in PLURIBUS on the reverse.

517 Group of 1883 No-CENTS Liberty nickels. Uncirculated, lightly toned to brilliant. A few with some trivial rubbing. A group of ten pieces which probably traces its origin to some 19th-century dresser drawer "hoard." It was widely publicized in 1883 that the omission of CENTS was a design error (which it indeed was), so the public saved them in quantity. (Total: 10 pieces)

518 Grouplet of Liberty nickels: 1883 No CENTS. AU; 1884 BU with a few planchet flakes; 1895 BU; 1905 Choice BU. (Total: 4 pieces)

519 1885 **Gem Brilliant Uncirculated.** A major scarcity in this condition. Far rarer in this grade than in Proof condition. Catalogues $325 in the *Guide Book*, and it will probably bring in that range—but it's potentially worth a good deal more.

520 1897 Brilliant Uncirculated. A few flyspecks.

521 1900 Choice Brilliant Proof. Beautiful light iridescent toning just beginning to form.

522 1905 Choice Brilliant Uncirculated. Beautiful light iridescent toning.

523 1910 Choice Brilliant Uncirculated. With light golden toning. Another beautiful coin!

524 1911 Choice Brilliant Uncirculated. Another coin with attractive light toning.

525 1912-S Group of seven pieces, Good to Fine grades, but mostly VG. A nice lot of this low-mintage and legitimately scarce issue. (Total: 7 pieces)

526 1914-D Uncirculated. Attractive iridescent toning.

527 1926-D Choice Uncirculated from the standpoint of wear, however very weakly struck—as is the case with nearly all known examples of 1926-D. Beautiful rainbow toning.

Note: Our comments which we recently gave in our Winthrop Collection sale (September '75) are appropriate: Over 95% of the known Uncirculated 1926-D nickels are very weakly struck. Thus, the Guide Book *value of $320 can be taken to refer to a usual (i.e., weakly struck) example and not a sharply struck one. Indeed, sharply struck 1926-D nickels have sold for double to triple or more catalogue listing!*

528 Important **group of Uncirculated 1931-S nickels.** Choice Brilliant Uncirculated, and no doubt taken directly from an original roll. Some trivial lightness of striking here and there, as *always* on 1931-S, so this would not even have to be mentioned. Thirty seven pieces totally.

1931-S is a very appealing issue. Only 1,200,000 pieces were made at the San Francisco Mint during this Depression year, and not many were saved by collectors or investors. The appearance of a group such as this, while not unheard of (we had a hoard of 1931-S 5c a few years ago, and they sold like hotcakes when we offered them for sale), is certainly uncommon. A nice group to buy and put away to forget about for a decade or so—after which time the chances are great that they'll have increased sharply in value. At least this has been the case historically. Again, a most unusual opportunity! (Total: 37 pieces)

529 Trio of 1931-S: (1) VF-EF; (2) EF; (3) EF-AU. (Total: 3 pieces)

530 **1937-D 3-leg** variety. A lovely **Brilliant Uncirculated** example. An exceptional specimen of this curious and interesting variety.

531 1937-D 3 leg variety. Sharp AU.

532 1937-D 3 leg variety. Extremely Fine.

533 Pair of 1937-D 3 leg pieces. Each is Very Fine. (Total: 2 pieces)

534 Set of Jefferson nickels from 1938 to 1965 inclusive. All Brilliant Uncirculated, mostly all in the Choice category, housed in a plastic display holder. Contains one of each date and mintmark plus the "P" varieties of 1942. Exceptions to the Uncirculated status are 1938, 1942 Type I, 1958, 1959, 1961, 1962, and 1963 which are Choice Brilliant Proofs. A very nice set! (Total: 72 pieces)

535 Nearly complete roll set of silver "wartime" nickels. All Choice Brilliant Uncirculated. This group started life as a complete roll set, but evidently then someone picked out a coin here and there from some of the rolls, perhaps to fill in an album. So, what we now have is a group of lovely coins consisting of the following: 1942-P 39 pieces; 1942-S 40 pieces (a nickel roll contains 40 pieces when full, so this is a full roll—as are the other 40-piece issues listed here); 1943-P 39 pieces; 1943-D 39 pieces; 1943-S 40 pieces; 1944-P 39 pieces; 1944-D 40 pieces; 1944-S 40 pieces; 1945-P 38 pieces; 1945-D 39 pieces; 1945-S 40 pieces. (Total: 433 pieces)

Note: It was our Philadelphia dealer friend Harry Forman who first singled out the silver-content nickels from the Jefferson series and popularized them as the "wartime" series.

536 1942-S 5c. Roll of 40 Choice Brilliant Uncirculated pieces. (Total: 40 pieces)

U.S. Half Dimes

537 **1795** Valentine-5a. Flowing hair style as used in '94 and '95. **Extremely Fine to AU.** Some vestigial mint lustre in fields and protected areas. Light attractive toning. Some slight weakness as struck on eagle's right (observer's left) wing. All in all, a very pleasing example of this beautiful early half dime design.

538 **1795** V-5. Abt. Good. Holed and plugged. A filler.

539 **1796 LIKERTY variety.** V-1. Scarce and in great demand for type set purposes, as are all 1796-1797 half dimes of the draped bust obverse, small eagle reverse, design. Basically **Extremely Fine,** but "whizzed" and then recolored to a color which is a cross between rotogravure sepia and magenta.

540 **1805** Scarce date; second rarest (after 1802) in the 1800-1805 heraldic eagle reverse series. Very Fine. Some areas of light striking on the reverse. A nice coin either for the type set collector or the numismatist who is assembling a collection of half dimes by dates.

541 1829 Lightly toned Uncirculated. Reverse ostensibly choice; obverse showing some friction on the cheek of Ms. Liberty. First year of the *Capped Bust* design.

542 Group of half dimes: (1) 1829 EF; (2) 1830 VF; (3) 1831 EF; (4) 1832 EF; (5) 1834 VF; (6) 1835 LD. Small 5. VF; (7) 1835 LD. Large 5. VF; (8) 1835 SD. Small 5. VF; (9) 1835 SD. Large 5. VG; (10) 1837 Bust. Large 5. VF; (11) 1838 No drapery. EF; (12) 1839 VF; (13) 1840 No drapery. EF. (Total: 13 pieces)

543 **Collection of half dimes from 1829 to 1873.** An extensive group which, while not complete, does contain a good number of scarcities and rarities, interesting varieties, and other desirable pieces. A wonderful opportunity for the numismatist desiring to own a comprehensive collection of this denomination. The collection comprises:

1829 F-VF; 1830 Fine; 1831 VF; 1832 VF; 1833 Fine; 1834 VF; 1835 LD. Sm. 5c. VF; 1836 Sm. 5c. EF; 1837 Bust. Lg. 5. VF; 1838 No drapery. Fine; 1839 No drapery. VF; 1839-O No drapery. VF-EF;

1840 No drapery. EF; 1840-O No drapery. VG; 1840 Drapery. VG-F; 1840-O Drapery. Fine; 1841 VF; 1841-O VG; 1842 Good; 1842-O VG; 1843 F-VF; 1844 VG; 1844-O Good; 1845 VF; 1845 Duplicate. VG-Fine; 1846 Scarce date! VF; 1847 Fine; 1848 EF, whizzed; 1848-O Fair; 1849/6 EF; 1849/8 VF; 1849/8 three duplicate pieces, each Fine; 1849/8 Another. VG; 1849/8 Yet another. Good; 1849 VF-EF;

1850 VF; 1850-O Fine; 1850-O Duplicate. Good; 1850-O Another. Fair; 1851 Fine; 1851-O VG; 1852 EF; 1852-O Fine; 1853 Arrows. Fine; 1853-O Arrows. EF; 1854 VF; 1854-O VG; 1855 F-VF; 1855-O VG; 1856 Fine; 1856-O VF; 1857 Fine; 1857-O Fine; 1858 over inverted date. Rare. Fine; 1858 VF; 1858-O VG; 1859 Fine; 1859-O Fine;

1860 EF-AU; 1860-O EF; 1861 VF; 1862 EF; 1863-S EF; 1864-S Fine; 1865-S EF; 1866 Rare. EF; 1866-S EF; 1867 Rare. Fine; 1867-S VG; 1868 Fine; 1868-S VG; 1869 VG; 1869-S VG;

1870 Fine; 1871-S VG-Fine; 1872 EF; 1872-S Below wreath. VF, nicks; 1872-S Within wreath. VF; 1873 EF; 1873-S EF. (Total: 82 pieces)

544 1832 **Uncirculated** with light attractive toning.

545 1832 Brilliant Uncirculated with light rubbing.

546 Group of 42 miscellaneous various and sundry half dimes, Abt. Good to Very Fine grades (but mostly averaging Very Good) from 1836 to 1873. All are common dates save for two specimens of the 1837 Liberty seated without stars (Abt. Good and Good). (Total: 42 pieces)

547 1837 **Bust type. Large 5c. Choice Uncirculated** with lovely light lilac toning around the periphery.

548 1837 **Liberty seated, no stars. Small date** (flat top on 1). **Brilliant Uncirculated.** A lovely specimen of this popular type coin—the style coined only at the Philadelphia Mint in 1837 and at the New Orleans Mint (1838-O) in 1838.

549 1837 **Liberty seated, no stars. Large date** (pointed top on 1). Brilliant Uncirculated. Another attractive and scarce coin.

550 1837 Liberty seated, no stars. Small date. AU, lightly polished.

551 1838 **Choice Brilliant Uncirculated.** A sparkling little cameo! Rare so fine. No drapery.

552 1840 **Brilliant Uncirculated.** Tiny edge mark near 13th star. Very attractive overall.

553 1845/3 So-called "overdate." This coin, a scarce (but not rare) variety, is often referred to as an overdate. *Scott's Encyclopedia of U.S. Coins* (1971 edition) notes that it is "unverified," and if it exists it is R-8. D.W. Valentine (the noted student of the series who published *The United States Half Dimes* in 1931) writes: "All numerals show they have been twice punched, and the 5 looks as if it had been made over from a 3." Walter Breen, in his supplement to the Valentine work, wrote that "The [Newcomer] plate does not show the 'overdate' too clearly. Whatever it is, it is not a mere recut date."

This question may never be resolved, for certain of the recut figure parts under the final 5 have characteristics of both a 3 and a 5. Our personal opinion, and the reader may differ, is that it is a recut date and not an overdate. The coin certainly is *intriguing* in any event and keeps its secret well. The present coin is certainly one of the finest known, for it is **Choice Brilliant Uncirculated.**

Note: Readers interested in the half dime series will want to acquire a copy of The United States Half Dimes, *the title of a comprehensive book published at $25 by Quarterman Publications. This volume contains reprints of the original Valentine work and the Breen update, plus additional commentary by other scholars in the field—a compact "library" of half dime information. The foreword to this 273-page volume was written by your cataloguer, QDB. While this book is hardly cheap, it is worth it for the information it contains. Available from numismatic booksellers or from us for $25 postpaid. (Please submit your order in a separate envelope from your auction bid sheet, for books are handled by a different department. Thank you.)*

554 Pair of important half dimes: (1) 1846 Rare date. Nice Very Fine; (2) 1854-O VF-EF. (Total: 2 pieces)

555 1853 **Arrows at date. Brilliant Uncirculated.** A popular coin for type sets.

556 1854 **Choice Brilliant Uncirculated.** Another nice coin for a type set—to illustrate the 1853-1855 with-arrows style.

557 1856 Gem Brilliant Uncirculated. A very nice coin in every respect. Stars on obverse.

558 1859 Choice Proof with beautiful iridescent toning around the periphery. Very scarce. Probably no more than 100 to 200 Proofs are known of this issue.

Note: The 1859 half dime is an anomaly. Unlike its contemporaries the 1859 Philadelphia Mint issue has stars with hollow (rather than raised) centers. Also, the arms of Ms. Liberty are slimmer. Of this, D.W. Valentine wrote:

"The new hub [used to make the dies for the 1859 Philadelphia Mint half dime] is of slightly lower relief. The stars are sharper pointed and are hollow in the center. The face, hair, and drapery show marked differences, the arms are slimmer, the Liberty cap smaller, the word LIBERTY on shield larger, the bottom of the base less irregular and projects beyond the foot of Liberty . . ."

559 1860 Choice Brilliant Proof. Some delicate champagne-colored toning just beginning to appear. A lovely half dime!

560 1866 Choice Brilliant Uncirculated. A rarity in this condition, for Uncirculated 1866 half dimes only infrequently appear on the numismatic market. Worth a really top bid by the knowing numismatist!

Note: Just 10,725 half dimes were made in 1866; divided into 10,000 business strikes made for circulation and 725 Proofs made for collectors. As the Proofs were sold at a premium and were especially made to be saved, most pieces survive today. How many? Allowing for attrition, accidental spending, and other calamities, probably 400 to 500 still are with us, of which perhaps 200 or fewer are what we might call "Choice."

Uncirculated pieces are another story. At the time of mintage, anyone wanting a piece for his or her collection would have ordered a Proof, so the survival of an Uncirculated coin is strictly a matter of happenstance, a fortunate accident. It is our estimate that perhaps 200 to 300 non-Proof 1866 half dimes are known in all grades, and of this number perhaps two or three dozen—that's right—just two or three dozen are known in Uncirculated grade. Scott's Encyclopedia of U.S. Coins *(1971 edition) takes an even more liberal view and states that non-Proof 1866 half dimes are Rarity 6, which means that only 13 to 30 pieces exist!*

What the preceding 1866 half dime brings is up to you, but by anyone's calculations it is a major rarity.

561 1867 Uncirculated or quite close to it, but lightly polished years ago, probably around the turn of the century. Since then the coin has toned a deep lavender color. As *only 8,000 were made for circulation* this is a major rarity (for the rationale of this see our notes under Lot 560 preceding). Worth a good price!

562 1871 Choice Brilliant Uncirculated. Lovely light golden toning just beginning to form.

563 1871 Choice Brilliant Uncirculated.

564 1804 Scarce date. 13 stars on reverse (although due to weak striking only 10 stars are fully visible). VG-Fine. An attractive specimen of this elusive issue.

Note: This coin is very unusual in that the same die used to coin the 14-star reverse dime of 1804 was also used to coin the similar-diameter 14-star reverse $2½ gold piece of the same year!

565 Group of four early dimes: (1) 1814 Small date. VF-EF; (2) 1814 Large date. Extremely Fine, but with some deep nicks; (3) 1822 Scarce. Very Good; (4) 1823/2. Small E's in reverse legend. Very Fine. (Total: 4 pieces)

Note: The fourth coin in the preceding listing, the Small E's variety of 1823/2, brings to mind inconsistencies in modern numismatics: what is significant to the collector and what isn't. In our opinion the trivial difference in the size of the E's on the reverse is not very important and these differences should not constitute major varieties. They are, of course, interesting to the specialist who is super-interested in minute die differences. Your cataloguer is not, of course, impugning the desirability of collecting E-sizes vis-a-vis not collecting them. This is a matter of personal opinion.

However, for consistency, the Guide Book *and other references should consider what is truly significant and what isn't. For example, unlisted in the* Guide Book *are such major (and, again, this is our opinion—our thoughts about what constitutes "major") varieties as the 1794 cent with missing fraction bar (a diecutting blunder), the 1787 Connecticut cent with the INDE in INDE ET LIB on the reverse cut over an erroneous FUDE (the engraver thought he was engraving a Fugio cent and caught his error after FU of FUGIO had been cut on the Connecticut die!), the curious 1787 over 1877 (sic!) Connecticut cent (made by erroneously transposing the two center digits at first), and certain overdates among 1839 gold coins. Are these varieties more important or less important than a "1800 'Dotted date' (from die breaks)" silver dollar?*

"What should I collect?," is one of the commonest inquiries we get. Our answer is to collect what is significant to you. It is important not to be slavish to a reference book. For example, if you collect Morgan dollars you may want to limit your collecting to one of each date, mintmark, and overdate—a sensible goal. Or, if you want to make a super-specialty of Morgan dollars you may want to collect recut dates, unusual die states, etc. There is no right or wrong in this regard, and even Guide Book *listings change and evolve over a period of years as collectors change their thoughts about what is significant.*

On second thought, all of this contributes to the interest of numismatics. There is room for individuality and personal expression. Who would want it to be different?

566 1827 **Brilliant Uncirculated.** Some light rubbing on the higher portions. Nearly complete original mint lustre.

567 1832 **Brilliant Uncirculated.** Some light rubbing on the higher portions. Attractive overall.

Note: What we refer to simply as "rubbing" was commonly called "cabinet friction" 10 or 20 years ago in numismatics. At that time and earlier it was common practice (it still is in England, by the way) to store coins in mahogany cabinets with wooden drawers. Each coin would have a little recessed area for its "home." The theory was that the putting in and taking out of the cabinet would eventually produce some rubbing on the higher parts. Today the "cabinet friction" term has been generally discarded, for cabinets are no longer in use. The friction commonly referred to as "rubbing" was most probably (in most instances) acquired not from storage in a cabinet but from contact with other coins in a mint bag—witness silver dollars in this condition taken from a previously-unopened mint-sealed bag, for example.

568 1836 **Uncirculated.** Attractive light golden toning. Sherlock Holmes could find some light friction on the obverse, but to the unaided eye the coin seems perfect. In any event it is quite beautiful and unquestionably desirable.

569 1837 Liberty seated, no stars on obverse. Large date. Sharp, desirable, and attractive AU with light golden toning. A very beautiful design, in our opinion. The starless feature gives the piece a cameo-like appearance.

570 1851 **Choice Brilliant Uncirculated.** Very rare in this *superb* condition.

571 1853 Arrows at date. Brilliant Uncirculated with "cabinet friction" (cf. notes under Lot 567) on the higher parts. A popular coin for type sets.

572 1856 **Small date** (date figures from half dime punches). **Choice Brilliant Uncirculated.** Some lightness of striking should be mentioned for hyper-accuracy, but, really, this is a superb example of this variety.

573 1870 Proof with lilac and gray toning. One of 1,000 pieces made in Proof grade this year.

574 1871 Proof. Lightly cleaned and with some surface marks.

575 1875 Choice Brilliant Uncirculated.

576 1879 **Gem Brilliant Uncirculated.** What else is there to say?

577 1879 **Choice Brilliant Uncirculated, prooflike.** Another outstanding example of this low-mintage dime issue.

578 1881 Another dime scarcity. Extremely Fine.

579 1887 Choice Uncirculated with attractive toning.

580 Pair of dimes: 1888 Brilliant Uncirculated; 1889 Brilliant Uncirculated with light rubbing. (Total: 2 pieces)

581 1890 Brilliant Uncirculated.

582 1891 Choice Brilliant Uncirculated, prooflike.

583 1891 Another. Choice Brilliant Uncirculated. Some light golden toning, particularly on the reverse.

584 1891-O Choice Brilliant Uncirculated.

Note: Of significance as the only New Orleans Mint dime minted in the Liberty seated series since 1860.

585 1891-S Choice Brilliant Uncirculated.

586 1911 Choice Brilliant Uncirculated. Barber design as used 1892-1916.

587 1912-D Choice Brilliant Uncirculated.

588 1913 Choice Brilliant Uncirculated.

589 1914-S AU or a bit better. Nearly full lustre.

590 1928-S Choice Brilliant Uncirculated. Perfection in a Mercury dime!

591 1930-S Choice Brilliant Uncirculated.

592 1931 Choice Brilliant Uncirculated.

593 1931-D Gem Brilliant Uncirculated. A really fantastic specimen of this intriguing issue; one of the lowest-mintage pieces (1,260,000 made) in the Mercury dime series.

594 1931-D Choice Brilliant Uncirculated. Another little beauty!

595 1931-S Choice Brilliant Uncirculated. Scarce.

596 1937 Choice Brilliant Proof.

597 1940 Choice Brilliant Proof.

U.S. Twenty-Cent Pieces

598 Group of 20c pieces: 1875-CC Good; 1875-S EF-AU; 1875-S VF; 1875-S VF. (Total: 4 pieces)

599 1875-S EF-AU.

600 Trio of 20c pieces: 1875-S EF; 1875-S VG; 1876 EF. (Total: 3 pieces)

Note: For some reason unbeknown to us, there has been a singular interest in the 1876 20c piece lately—with a flock of bids being recorded each time we offer one for sale singly or in a lot. Does someone know something we should know?

601 1875-S Very Fine.

U.S. Quarter Dollars

602 1804 Rare date. First year of the 1804-1807 heraldic eagle reverse style. Very nice **Very Fine**, which for an 1804 quarter is an exceptionally high grade.

603 1804 Very Good.

604 Group of early quarters: 1818 Fine; 1818 VG; 1824 Abt. Good; 1831 Small letters. EF; 1834 EF; 1836 EF. (Total: 6 pieces)

605 1831 **Large letters.** First year of the *Capped Bust* style, small diameter, as minted 1831-1838. **Brilliant Uncirculated** with some trivial friction on the higher parts. Possesses nearly full original lustre. Pieces not the equal of this have been advertised as *Gems.*

606 1843 **Choice Brilliant Uncirculated.** A rarity, as is *any* Uncirculated quarter of the 1840's.

607 1854 Arrows. **Choice Brilliant Uncirculated.** A lovely specimen of the short-lived 1854-1855 design type.

608 Group of quarters spanning over a century: 1854 Arrows. AU; 1917 Type II. BU, rubbing; 1932 Brilliant Uncirculated; 1938 Choice Brilliant Uncirculated (scarce); 1940-D Choice Brilliant Uncirculated; and last and least, 1960-D Choice BU. (Total: 6 pieces)

609 1861 **Gem Brilliant Uncirculated.** Fantastic, fantastisk, phantastisch—in any language, *great!*

610 1863 **Brilliant Proof.** Some light hairlines from some well-intentioned (probably) but ill-advised cleaning.

611 1865 **Choice Brilliant Uncirculated.** A rarity in this condition.

612 1867 **Choice Proof** with lilac toning. Beautiful and rare.

613 1870 **Proof.** Hairlines in the field. Light toning.

614 1871 **Choice Brilliant Proof** with subtle toning just beginning to form. One of 960 Proofs minted in this year.

615 1876-S Brilliant Uncirculated. Centennial year.

616 1876-S Brilliant Uncirculated. Another quarter from a century ago.

617 1877 Choice Uncirculated. With deep magenta and gray toning—the color of the evening sky an hour after the sun sets. Very beautiful. A coin for the advanced numismatist who will *appreciate* its rarity in this state of preservation.

Note: From our fabulous Terrell Collection sale of 1973, Lot 686.

618 1877-S Choice Brilliant Uncirculated. Prooflike surfaces.

619 1878 Choice Brilliant Uncirculated. *Rara numismatica americana.*

620 1879 **Choice Proof** with absolutely superb iridescent toning. An item for the perfectionist!

Note: The Proof mintage of the 1879 quarter is probably 1,100 pieces, not 250 (as occasionally noted in print). Still, in the condition offered here the piece in Lot 620 is a rarity.

621 1879 **Proof** with light toning. A myriad of fine hairlines in the field from long-ago cleaning.

622 1879 **Choice Brilliant Uncirculated.** Exceedingly rare in this grade. Only 13,600 pieces (our estimate, taking into consideration 1,100 Proofs deducted from a total mintage of 14,700 pieces) made for circulation. The survival of an Uncirculated piece such as this is a matter of chance, and few are known today.

623 1884 Impaired Proof. A rare date in any grade.

624 1886 Proof with cloudy surfaces.

Note: The preceding coin shows no wear. It's just that a dozen successive owners tried to "improve" it by cleaning it, or so it seems. Millions of dollars worth of coin values are lost each year by cleaning coins. If beginning collectors would realize, like museums and old-timers do, that "brilliant" doesn't mean "best" in the silver coin series, then posterity would inherit a much choicer group of coins. The only valid reason, in our opinion, to clean a coin is to remove spotting or corrosion; never to remove attractive light toning—which, as auction records prove time and time again, actually increases *the value of a coin!*

625 1888 **Gem Proof** with superb iridescent toning. A prize piece.

626 1888 **Gem Brilliant Uncirculated.** Subtle light toning.

627 1891 **Proof** with some light handling marks. Attractive toning.

628 1891 Brilliant Uncirculated. Last of the Liberty seated quarters.

629 1892 **Barber. Choice Proof** with steel-colored toning. A superb specimen of the first year of the popular 1892-1916 Barber design.

630 1892 AU. Lightly polished.

631 1893-O Brilliant Uncirculated. Separated from the *Choice* classification by some handling marks on the cheek of Ms. Liberty.

632 1896 **Choice Proof** with light iridescent toning around the periphery. Tiny mark before face. A far above average specimen of this low mintage (only 762 Proofs coined) issue.

633 Pair of Barber quarters: 1896 AU; 1914 AU. (Total: 2 pieces)

634 1898 **Brilliant Proof.** One of 735 Proofs coined.

635 1901 Choice Brilliant Uncirculated.

636 1902 **Choice Proof** with subliminal toning just beginning to form.

637 1903-S **Choice Uncirculated.** Beautiful light toning. A connoisseur's coin. Very, very rare in this condition.

638 1905 Brilliant Proof. Lightly cleaned.

639 1906 Gem Brilliant Uncirculated.

640 1906 Choice Brilliant Uncirculated.

641 1907 Brilliant Uncirculated with light rubbing.

642 1913 Scarce date. Brilliant Uncirculated with light rubbing. From a regular (i.e., non-Proof) mintage viewpoint, the rarest Philadelphia Mint Barber quarter issue.

643 1913-D Brilliant Uncirculated.

644 1913-S Only 40,000 minted. Good grade.

645 1914 **Proof.** Light iridescent toning. Of importance, significance, and desirability as the lowest mintage Proof quarter issue from 1860 to 1916! Only 380 Proofs were coined!

646 **1914 Proof.** Some rubbing on the higher areas and some handling marks in the fields. Superb iridescent toning which makes the coin quite attractive. Rare; only 380 Proofs minted.

647 1916 Barber. Brilliant Uncirculated.

648 1916-D Barber. Choice Brilliant Uncirculated with attractive light toning.

649 **1916 Liberty standing type.** A rarity in our own century; only 52,000 pieces were minted. AU. Lightly polished.

650 **1916 Liberty standing.** Rare. Very Good.

651 1917 Type I. Gem Brilliant Uncirculated. Full head. Superb!

Note I: In our opinion this is one of the most undervalued of all 20th century type coins.

Note II: In our opinion this is one of the most beautiful of all 20th century coin designs. Its style is reminiscent of the Maxfield Parrish era—the 'teens and 'twenties which, at least as reported in literature, seem to have been incredibly romantic.

652 1917 Type I. Choice Brilliant Uncirculated. Full head (as nearly always on Type I). Another superb specimen of this issue.

653 1917 Type I. Choice Brilliant Uncirculated. Full head. Yet another specimen of this great design.

654 1917 Type I. Choice Brilliant Uncirculated. Full head. Another chance to acquire one of these beautiful coins.

655 1917 Type I. Brilliant Uncirculated with a hint of rubbing. Full head.

656 1917 Type I. Brilliant Uncirculated with very light rubbing.

657 1917 Type I. Brilliant Uncirculated with very light rubbing.

Note: This section of our Kensington Collection sale catalogue has to be one of the greatest offerings of 1917 Type I quarters ever!

658 1917 Type I. AU.

659 1917-D Type I. Gem Brilliant Uncirculated. Full head. A classic!

660 1917 Type II. Choice Brilliant Uncirculated.

THANK YOU FOR YOUR PARTICIPATION!

661 **1919-S Brilliant Uncirculated.** One of the rarer issues in the relatively short-lived 1916-1930 Liberty standing quarter series. Not often listed for sale in this grade.

662 **1921 Choice Uncirculated.** About 70% full head which for 1921 is unusual (for this date is nearly always weakly struck). Mottled golden toning. Rare so fine.

663 1924-S Choice Brilliant Uncirculated.

664 1926 Choice Brilliant Uncirculated.

665 1926-D Choice Brilliant Uncirculated.

666 1926-S Choice Brilliant Uncirculated. One of the rarer quarter dollar dates in the 1920's.

667 1927-D Scarce date. Choice Brilliant Uncirculated.

668 1927-D Lightly toned Uncirculated. 90% full head.

682 1930-S Choice Brilliant Uncirculated. 70% full head.

683 Group of early Washington quarters, all Choice Brilliant Uncirculated. A superb lot for the numismatist who wants a firm foundation for a top grade set. The group has in it the following:

1932; 1934 Light motto; 1934 Heavy motto; 1936-S; 1937; 1937-D; 1937-S; 1938; 1938-S; 1939; 1939-D; 1939-S. (Total: 12 pieces)

684 **1932-D** Brilliant Uncirculated with light rubbing. One of the most desired of all 20th century quarter issues.

685 Group of scarce Washington quarters: (1) 1932-D Fine; (2) 1932-S BU, rubbing; (3) 1932-S VF; (4) 1932-S VF; (5) 1932-S VF; (6) 1932-S Fine. (Total: 6 pieces)

686 1932-S Choice Brilliant Uncirculated. A lovely specimen of the lowest-mintage issue in the Washington quarter series.

687 1935-D Choice Brilliant Uncirculated.

688 1936-D Gem Brilliant Uncirculated. Very rare in Uncirculated grade; *extremely rare* in Gem Uncirculated grade. A prize!

689 Pair of quarters: 1936-S Choice Brilliant Uncirculated; 1937-S Choice Brilliant Uncirculated. (Total: 3 pieces)

690 1937 Choice Brilliant Proof. 5,542 minted, which is low for a modern Proof issue.

U.S. Half Dollars

Beautiful Uncirculated 1795 Half Dollar

695 1795 Half dollar. Overton-130. Extremely rare (R-6) in all grades. Distinctive type with wreath berries on the reverse arranged 7 to the left and 10 the the right. **Choice Brilliant Uncirculated** from the standpoint of wear. Some mint-caused (during the planchet preparation process) adjustment marks on the obverse. Extremely sharply struck at the centers, with full detail on Ms. Liberty's hair and with nearly all breast feathers showing on the eagle. An *exquisite* coin. For the variety collector this coin is undoubtedly far and away the finest known example of O-130. For the type collector, this is one of the finest known half dollars bearing the date 1795. Only once in every few years does a 1795 half dollar of *any* variety come on the market in Choice Uncirculated grade. A really fantastic coin!

696 **1795 O-116.** Rare (R-6) variety. Good.

697 1803 Large 3 in date. O-101. Extremely Fine. Light gray toning.

698 Trio of early half dollars: (1) 1803 Large 3. O-101. Very Good; (2) 1805 O-109. Fine plus; (3) 1806 Pointed 6. Stem through claw. O-115. Very Good. (Total: 3 pieces)

699 1805/4 O-102. Rarity 4. Very Fine obverse, Fine reverse. Rim bump.

Note: The 1805/4 is the closest one can come to owning an "1804 half dollar."

700 Pair of half dollars: (1) 1805 O-112. Very Fine; (2) 1806/5 Overdate. Round 6 in date. O-103. Fine. (Total: 2 pieces)

701 1806 O-115. Pointed 6. Stem through claw. Very Fine.

702 Group of *Capped Bust* type half dollars with lettered edge (style of 1807-1836). A nice lot for the numismatist who desires to begin a date set of this series. Includes some duplicates which are always good for trading, selling at your coin club, etc.

1807 VG; 1808 G; 1809 VG; 1809 G; 1809 G; 1812 VG; 1813 VF-EF; 1818 G; 1821 G; 1822 VG; 1822 VG; 1824 EF; 1824 F; 1824 VG+; 1826 VF; 1827 Sq. 2. Fine; 1828 Sq. 2, knob. VF; 1828 Sq. 2, knob. Abt. G; 1829 Fine; 1829 G; 1830 Fine; 1831 AU; 1832 F-VF; 1833 VF; 1834 Fine, bump; 1835 F-VF; 1836 VF. (Total: 27 pieces)

703 Group of half dollars of the 19th and 20th centuries. A varied lot! Contains: 1807 *Capped Bust* type. Fine; 1853 Arrows and rays. VF; 1935 AU; 1938 Choice BU; 1941-S Choice BU; 1942-S Choice BU; 1944 BU, rubbing; 1946 Choice BU; 1946-D Choice BU; 1946-S Choice BU; 1915-S Panama Pacific commemorative 50c. EF; 1952 Washington-Carver commemorative. AU. (Total: 12 pieces)

704 Group of 5 half dollars: 1808 VF; 1808 Fine; 1827 EF-AU; 1832 VF; 1834 VF. (Total: 5 pieces)

705 1809 O-107b. Rare (R-5) variety. Lustrous AU with light iridescent toning just beginning to form around the periphery.

706 1811 O-106. Small 8 in date. Brilliant Uncirculated with light rubbing. Some tiny carbon flecks in field; otherwise fully lustrous. Sharply struck. An outstanding half dollar of this date.

707 Group of early half dollars: 1811 EF; 1819/8 VG; 1819 VF; 1822 EF; 1822 Good; 1824 over various dates. Fine; 1824/4 VF; 1830 Large 0. VF. Edge bump; 1835 EF; 1835 VF; 1836 Lettered edge. AU; 1837 EF; 1838 Fine. (Total: 13 pieces)

708 Group of half dollars: 1813 EF; 1818/7 Small 8. EF; 1819/8 Small 9. VF-EF; 1820/19 Curl 2. Small date. Scarce. EF; 1824 AU, prooflike. Especially sharp; 1827 Sq. 2. VF-EF; 1828 Sq. 2. Small 8's. LL. EF-AU; 1828 Curl 2, no knob. EF; 1831 EF; 1832 Fine; 1834 LD, SL. VF-EF. (Total: 11 pieces)

709 1814 O-109. **Rarity 5. Choice Uncirculated** with light gray toning. Sharply struck. An outstanding 1814 half dollar. Very elusive in this superior condition.

710 1817/3 O-101. R-5. Rare variety. Attractive AU. Light golden toning just beginning to form around the periphery.

711 1821 O-106. AU. With beautiful iridescent toning around the borders.

712 1823 O-110. **Brilliant Uncirculated, prooflike.** Undoubtedly one of the first coins from the dies or a presentation striking. Especially sharp.

713 1823 O-111a. Lustrous AU.

714 1825 O-106. AU.

715 1826 O-105. **Uncirculated** with beautiful light gray and golden toning. A really outstanding coin!

716 1826 O-106. Fully frosty and beautiful Uncirculated grade. Some trivial rubbing on the higher parts due to contact with other coins in a mint bag. Coins of this quality are often seen described as *Choice* or even *Gem*. We take the conservative stance, but the coin is nonetheless beautiful and desirable.

Note: During the time from 1803 through 1840 when silver dollar coinage was suspended, the half dollar was the largest silver denomination being produced by the Philadelphia Mint. Large numbers were minted in the 'teens, 'twenties, and 'thirties. The coins, usually in 1000-coin bags, were often shipped from bank to bank in settlement of large transactions.

717 1830 O-110. **Choice Uncirculated** with deep gray and golden toning. A really superb early half dollar. Only when old-time collections come on the market do coins of this quality appear for sale.

718 1832 **Brilliant Uncirculated.** Tiny planchet defect at top obverse rim. Very nice-appearing overall.

719 1834 **Large date, large letters. Brilliant Uncirculated.** Scarce so fine.

720 1836 Lettered edge. Brilliant Uncirculated with light rubbing.

Superb 1836 Reeded Edge Half Dollar

721 1836 **Reeded edge half dollar.** New style with smaller diameter. Reverse with 50 CENTS legend. Exceedingly elusive; just 1,200 pieces were minted. The presently-offered coin is a **Choice Uncirculated** example with iridescent and golden toning as acquired over a long period of years. An exciting coin, and one which should elicit spirited bidding!

Note: The 1836 reeded edge half dollar was spotted as a "sleeper" a few years ago by our friend John Kamin, who publishes "The Forecaster," an investment newsletter. So, in recent years there has been a tremendous demand for 1836 reeded edge half dollars on the part of Mr. Kamin's readers. There is only one problem: there aren't many of the coins around! In Uncirculated grade the 1836 reeded edge half dollar is a major rarity. This coin catalogues $1,600. It will be interesting to see what it brings!

722 1836 **Reeded edge.** Variety as preceding. Attractive Very Fine. Popular.

723 Group of three scarce and desirable half dollars: (1) 1837 Reeded edge. Very Fine; (2) 1838 EF-AU; (3) 1873-CC Arrows. Very Fine. (Total: 3 pieces)

724 Group of half dollars: 1837 VG+; 1838 VF; 1850-O G; 1853 Arrows and rays. VG+; 1855-O Arrows. EF; 1858 Fine; 1867-S Fine; 1873 Arrows. Good; 1875-S VG; 1876 G; 1877-S VG. (Total: 11 pieces)

725 1838 **Gem Brilliant Uncirculated.** A superb specimen of the short-lived 1838-1839 bust type with **HALF DOL.** on reverse. A connoisseur's coin!

726 1838 AU, prooflike. There is an excellent chance that this coin was originally struck as a Proof. It displays Proof characteristics, including the requisite surface within the shield stripes. The coin has seen circulation and is no longer Proof, but quite a bit of the original surface remains.

Note: If we were positive that the coin was a Proof earlier, we could not grade it "AU"—for AU means "Almost Uncirculated," and a Proof coin never was Uncirculated (i.e., with frosty, lustrous surfaces) to begin with. This is an interesting semantic point!

727 1838 AU. Attractive toning.

728 **1840 Small letters. Choice Brilliant Uncirculated. Superb!** Nearly complete prooflike surface; undoubtedly a *specimen striking.* Exceedingly rare in this grade.

729 Group of half dollars: 1853-O Arrows and rays. EF; 1854-O Arrows. EF; 1860-O EF; 1861 EF; 1865 EF; 1870-S VF; 1871-S VF; 1873 Arrows. EF; 1874 Arrows. EF; 1875 EF; 1876 EF; 1877 EF. Obverse nicks; 1906-D Barber. EF. (Total: 13 pieces)

730 **1858 Choice Brilliant Uncirculated.** Light golden toning just beginning to form.

731 **1861 Confederate States of America half dollar.** 1879 restrike by J.W. Scott. AU with attractive deep gray toning.

The story of the 1861 C.S.A. half dollar restrike is fascinating:

On February 28, 1861—six weeks before the firing on Fort Sumter on April 12—a band of Confederates seized the New Orleans Mint and forced the superintendent, William A. Elmore, to permit them to strike four specimen pieces (in effect, patterns) of a half dollar which they hoped would become a regular Confederate issue—for Southerners generally believed that they would win the rebellion in a matter of weeks.

Using a distinctive reverse die prepared by one A.H.M. Patterson, which bore a Liberty cap on a pole above the Southern insignia surrounded by CONFEDERATE STATES OF AMERICA and HALF DOL., chief coiner of the mint B.F. Taylor struck four pieces muled with the regular United States Liberty seated obverse die, dated 1861 (the rebels meant to have their own obverse, too, but failed to procure it in time). These four coins—minted with federally-owned silver by federal employees and with one federal die, by rebels at a United States branch mint—were distributed by the militants to President of the Confederacy Jefferson Davis (who carried his specimen as a pocket piece throughout the war), Professor Biddle of the University of Louisiana, one Dr. Ames of New Orleans, and Taylor, the chief coiner who struck them. While the rebels who temporarily took the New Orleans Mint for their own purposes never got a chance to make the design of the Great Seal of the Confederacy into an obverse die, as they had originally planned, and never returned to strike any more half dollars, they did manage to create a great numismatic rarity!

Years later, sensing the significance and tremendous desirability of the extremely rare 1861 C.S.A. half dollar, the well-known dealer J.W. Scott managed to obtain the original C.S.A. reverse die. When the Civil War ended, the federal government allowed Taylor, who had become the chief coiner of the Confederacy when the South seceded, to retain the Confederate die, although the obverse die, which was U.S. government property, was confiscated.

Ebenezer Mason, a coin dealer, bought the die and Taylor's original half dollar from him and resold it to J.W. Scott in 1879. Scott decided to restrike pieces from the reverse die. Fearing that the old die would soon shatter, he first struck off 500 white-metal tokens using the reverse die and a token obverse bearing the firm's name. He next obtained 500 regular 1861-O half dollars from circulation and planed off the reverses, creating a smooth side. The pieces were then overstruck with the C.S.A. reverse. The restrikes were sold to collectors on a subscription basis. Sales were slow, and it took a good number of years to dispose of them all.

Today the 1861 C.S.A. restrike is a highly desired item. Obtaining an original is virtually impossible (of the four made, one is unlocated, one is in the cabinet of the American Numismatic Society, and the other two are privately held—one of the latter having been purchased over the counter by a dealer about ten years ago). The restrikes, which have their own interesting story, are a fascinating souvenir of the short-lived Confederate government.

732 **1861 C.S.A. half dollar.** Restrike, as preceding. Extremely Fine. Attractive and desirable.

733 **1871 Choice Brilliant Proof.** Light mottled toning just beginning to form. Only 960 Proofs minted.

734 1874 Arrows at date. AU or a bit better. Light iridescent toning. A nice item for a type set to illustrate the 1873-1874 with-arrows style.

735 1874 Arrows. Extremely Fine.

736 **1875-S Choice Brilliant Uncirculated.**

737 **1875-S Choice Uncirculated** with beautiful light gray and golden toning.

738 **1876-S Uncirculated** with pale gray and iridescent toning.

739 1877 Proof with light toning. Very rare low-mintage issue. Only 510 Proofs were coined—the lowest mintage in the Liberty seated series from 1860 to 1891.

740 1879 **Gem Brilliant Uncirculated.** Incredibly low mintage of just 4,800 pieces for circulation this year. The present coin, a superb piece with light golden toning, is an item for the perfectionist!

741 1879 **Choice Brilliant Uncirculated.** Nice things must come in pairs! The offering of *one* Uncirculated 1879 half dollar in a sale would be highly unusual. The offering of *two* is extraordinary. This and the preceding lot should attract wide attention.

742 1880 **Choice Proof** with superb lilac and magenta toning. A coin for the collector who demands the finest.

743 1880 **Gem Uncirculated** with light golden toning just beginning to form. Of incredible rarity. Only 7,400 were minted for circulation, and no more than a dozen or two coins, if indeed that many, survive today in this fantastic preservation.

A COLLECTOR'S ITEM

This sale catalogue will become a collector's item. It's a matter of fact that our past great sale catalogues have become collectors' items, often selling for much more than our original issue price.

When you consign your coins to an American Auction Association sale they will become part of a truly great catalogue—one which will be a lasting tribute to your consignment and your collecting endeavors.

744 1881 **Gem Brilliant Uncirculated.** Another super coin! Only 10,000 pieces were minted for circulation, and of that number no more than a dozen or two survive today in this superb grade. We would like to say that this is a once-in-a-decade opportunity, but the following two lots (to which we refer) prevent this!

745 1881 **Gem Brilliant Uncirculated.** Incredibly enough, a duplicate of the preceding coin!

746 1881 **Gem Brilliant Uncirculated.** What can we say? If we didn't see this third piece listed in our own catalogue we wouldn't believe it!!!

Note: Seriously, here is a really wonderful opportunity for the serious collector or investor who appreciates quality. In fact, the entire Kensington Collection sale catalogue is a landmark in this regard!

747 1884 **Choice Uncirculated** with beautiful light golden toning. Another "rarest of the rare" item. Only 4,400 were minted for circulation. How many pieces of this quality can survive today? A dozen?

748 1886 **Choice Brilliant Uncirculated, prooflike.** One of just 5,000 circulation strikes made. Another super rarity in this lofty grade.

749 1887 **Gem Brilliant Uncirculated, prooflike.** One of just 5,000 made for circulation. Another rarity in this incredible listing.

750 1889 **Choice Proof** with superb iridescent toning around the periphery. Rare.

751 1890 **Gem Brilliant Uncirculated.** One of only 12,000 business strikes. Rare!

752 1892 **Choice Uncirculated.** Brilliant Uncirculated with light mottled golden toning. A candidate for *judicious* cleaning (dipping).

753 1893-O **Brilliant Uncirculated.** Scarce New Orleans Mint issue.

754 1894-S **Choice Brilliant Uncirculated.** Elusive in this excellent grade.

755 1896 **Choice Proof** with beautiful lilac and golden iridescent toning around the periphery. Another wonderful coin.

756 1897 **Brilliant Proof.** Only 731 pieces minted this year.

757 1906-D **Brilliant Uncirculated.**

758 1907-O **Choice Brilliant Uncirculated.**

759 1910 **Brilliant Uncirculated** but with surfaces peppered with a myriad of tiny nicks—from what cause we don't know. Worth what a BU with rubbing coin might bring. Scarce date.

760 1911 **Gem Brilliant Uncirculated.**

761 1911-D **Choice Brilliant Uncirculated.** Rare so fine.

Note: This is one of the finest-quality offerings of late-date Liberty seated and Barber half dollars to appear on the numismatic market in recent years. The opportunity to acquire top-grade pieces and rarities is often more important than the price paid (although, of course, price must be considered). Time has always vindicated those who have built fine collections. Quality is always in demand—in recessions, in boom times, in stock market ups and downs, or whatever. Never in numismatic history has there been a time during which choice coins have not been eagerly sought after. It would be hard to say the same of any other collection or investment medium.

762 1912-D **Brilliant Uncirculated.**

763 1916-D Liberty walking half dollar. Mintmark on obverse this year. **Choice Brilliant Uncirculated** with very light magenta toning just beginning to form. No finer 1916-D exists in all the world.

764 1917-S **Mintmark on reverse. Choice Brilliant Uncirculated.** Scarce so nice.

765 1920 **Choice Brilliant Uncirculated.** Light golden toning just beginning to form.

766 1920-S **Choice Brilliant Uncirculated.** A major rarity in this superlative condition.

CHECK YOUR BIDSHEET CAREFULLY

Check your bidsheet carefully — and then mail it to us right away. Be sure to sign your bidsheet, and also be sure to check the appropriate space if you want a list of prices realized (available approx. 4 weeks after the sale). Remember, the more lots you bid on, the greater are your chances of success.

Choice Brilliant Uncirculated 1921 Half Dollar

767 1921 Liberty walking half dollar. One of the rarest coins in the entire series; just 246,000 were minted. The present coin is an extraordinary specimen: **Choice Brilliant Uncirculated.** A coin for the numismatist who wants to be secure in the knowledge that after purchasing Lot 767 he will never encounter a finer 1921 half dollar. A remarkable coin!

768 1927-S **Brilliant Uncirculated.**

769 Group of half dollars: 1928-S AU; 1934-S BU, rubbing; 1937-S BU, rubbing; 1940-S AU; 1941-D Choice Brilliant Uncirculated; 1941-S BU, rubbing; 1942 BU, rubbing; 1942-S BU, rubbing; 5 pieces 1942-S BU; 3 pieces 1943-S AU; 1944-S BU. (Total: 17 pieces)

THE NUMISMATIC SPECTRUM

The knowledge of our large numismatic staff covers the entire spectrum of numismatics. Thinking of selling? Whether you are selling major United States rarities, pattern coins of French Indo-China, crowns of Africa, or any other speciality, there is a specialist on the American Auction Association / Bowers and Ruddy Galleries staff to take care of all of the necessary research. We offer you a complete numismatic service.

770 1929-D **Gem Brilliant Uncirculated.** Superb!

771 1929-D **Choice Brilliant Uncirculated.** Another really exceptional coin.

772 1929-S **Brilliant Uncirculated.**

773 1935-D Choice Brilliant Uncirculated.

774 1935-S Brilliant Uncirculated.

775 1936-S Choice Brilliant Uncirculated. Some light water spots.

776 1937-S Choice Brilliant Uncirculated.

777 1938 Choice Brilliant Uncirculated.

778 1938-D **Choice Brilliant Uncirculated.** A rarity in our own time. Deservedly popular.

779 Trio of Choice Brilliant Proofs, in holder: 1939, 1963, and 1964. (Total: 3 pieces)

780 Group of high quality halves: 1941 Choice BU; 1941-D Ch. BU; 1943 Choice BU; 1943-D Choice BU; 1944-D Choice BU; 1945 Choice BU; 1945-D Choice BU; 1945-S Choice BU; 1946 Choice BU; 1946-S Choice BU; 1947 Choice BU; 1947-D Choice BU. (Total: 12 pieces)

781 Group of 1941 half dollars: two pieces each of 1941, 1941-D, and 1941-S. All are Choice Uncirculated with light toning. The 1941-S pieces, contrary to the usual situation for this specific variety, are well struck. (Total: 6 pieces)

782 Pair of halves: 1941-D Choice BU; 1946-S Choice BU. (Total: 2 pieces)

783 Complete set of 1948-1963 Franklin half dollars. All Choice Brilliant Uncirculated save for 1961, 1962, and 1963 which are Choice Brilliant Proofs. A nice group! (Total: 35 pieces)

784 Group of 40 pieces (two rolls) of 1948-D Franklin half dollars. Brilliant Uncirculated, nearly all Choice, some with attractive light toning. First year of coinage of the Franklin series. (Total: 40 pieces)

U.S. Silver Dollars

785 1795 Flowing hair style as used also in '94. Bolender-5. Three leaves below each wing. Nice Very Fine. Tiny edge bump on reverse.

786 1795 Flowing hair style as preceding. B-6. Three leaves below each wing. Very Fine. Scratch on eagle on reverse.

787 1795 **Small eagle reverse.** B-15. Second major design type of this year. Draped bust. VG-Fine. Attractive.

788 1798 **Small eagle reverse.** B-1. Rarity 4. 13 stars on obverse. **Extremely Fine.** Rare. Most 1798 dollars are of the heraldic eagle reverse style; only a few small-eagle pieces were struck. Should bring a good price.

789 1798 Heraldic eagle reverse as used 1798-1804. B-12. Very Fine. Some old rim bumps.

790 1798 Heraldic eagle reverse. B-23. Very Fine.

791 1798 Heraldic eagle reverse. B-30. Rarity 5. Extremely Fine. Seldom seen or offered for sale in this outstanding condition.

792 1799/8 **Overdate.** B-3. 15 stars on reverse. **Extremely Fine**, with some hints of original lustre within the letters and other protected coin areas.

793 1799 B-8a. Very Fine.

794 1799 B-10a. Sharply struck **EF-AU.** Deep gray and iridescent toning. An attractive specimen of this early silver dollar issue.

Superb 1799 8x5 Stars Dollar

795 1799 **Stars arranged 8x5.** B-23. Although this variety is often overlooked, it is one of the most interesting among early dollars. The stars are arranged 8 to the left and 5 to the right, an unbalanced style that was immediately discontinued. Only rarely does a specimen of this scarce (R-5) variety come on the market in *any* grade. The present coin is superb: it is a **Choice lightly-toned Uncirculated** example. Exceedingly rare in this condition. Catalogues $5,000 in Uncirculated grade, as do others of this era—however the 1799 8x5 star variety isn't just "another" silver dollar. It is *exceedingly rare.* A sleeper. Worth a really good price.

796 1800 B-10a. VF-EF. Tiny planchet chip at border near 11th star. Attractive overall.

797 1801 B-3. G-VG.

798 1803 B-4. Small 3 in date. Very Fine.

799 1840 First year of the Liberty seated style. VF-EF.

800 1844 Rare date. VG+.

801 1847 VF-EF. Small edge bump on reverse.

802 1847 Very Fine.

803 1849 Prooflike AU. Not easy to find in higher grades such as this.

CHECK YOUR BID SHEET CAREFULLY!

804 **1860 Choice Proof** with light toning. Although 1,330 Proofs were minted of this issue (according to the *Guide Book*), we doubt if more than 200 or 300 *Choice* examples survive today.

805 1860-O EF-AU.

806 1870-CC **Brilliant Uncirculated, prooflike.** Some minor handling marks. One of the finest known examples of this, the first Carson City Mint silver dollar.

Note: The Carson City Mint opened in 1869 and began producing coins in 1870. The last coinage was effected there in 1893. Metal was obtained from the famed Comstock Lode—one of the romantic chapters in America's past (with the "Wild West" stories of Virginia City, Adolph Sutro's tunnel which saved the day, etc.). Today the Carson City Mint building serves as a museum.

807 Pair of dollars: 1871 EF. Initials (HEC) in obverse field. 1872 VF. (Total: 2 pieces)

Rare 1871-CC Dollar

808 1871-CC One of the rarest of all silver dollars. *Only 1,376 specimens were coined!* The present specimen is a beautiful and very sharp **EF-AU** example. A major opportunity for the silver dollar specialist.

809 1872 AU with nearly full lustre.

810 1872 AU. Another. Also with nearly full lustre.

Uncirculated 1872-CC Silver Dollar
–From the King Farouk Collection–

811 1872-CC **Brilliant Uncirculated, prooflike.** Lightly cleaned years ago. From the collection of King Farouk of Egypt who, prior to his being deposed in 1952, was an avid collector (funded by the Egyptian treasury) of art, stamps, pornography, and—coins. His coin collection was outstanding and contained many prime rarities, including a 1913 Liberty head nickel, many superb United States pattern coins, and other issues. The present lot was his 1872-CC dollar, and a nice piece it is.

812 1872-CC Rare. Only 3,150 pieces coined. Nice Extremely Fine.

Very Rare 1873-CC Silver Dollar

813 1873-CC One of just 2,300 pieces minted of this very rare Carson City issue. Only rarely does an 1873-CC dollar in any grade appear on the market. The present coin, an **Extremely Fine** piece which has been lightly cleaned (does not affect its value, in our opinion), is one of the finest to appear on the market in recent years. Another prime opportunity for the silver dollar specialist.

Collection of Morgan and Peace Dollars
–1878-1935–

814 **Virtually complete collection (lacking just the 1895) of silver dollars by dates and mints; Morgan issues 1878-1921 and Peace issues 1921-1935.** A beautiful collection of dates and mintmarks. These and other dollars we grade in Uncirculated condition on the Mint State system (MS-60 equals "average" Uncirculated, with bagmarks and handling marks; MS-65 equals Choice Uncirculated with only a few such marks, a superb coin; MS-70 equals a Gem coin, a condition generally unobtainable).

This collection gives the numismatist the opportunity to acquire with one bid a collection which otherwise would take a long, long time to assemble:

MORGAN DOLLARS: 1878 8 tail feathers. MS-65+; 1878 7/8 TF. MS-60; 1878 7 TF. MS-60; 1878-CC MS-60; 1878-S MS-65; 1879 BU, rubbing; 1879-CC VF. Edge bumps. Rare; 1879-O AU; 1879-S Rev. of '78. AU, edge nick. Rare.

1880 MS-60; 1880-CC MS-65; 1880-O BU, rubbing; 1880-S AU; 1881 MS-65; 1881-CC MS-65; 1881-O BU, rubbing; 1881-S MS-65. 1934 EF; 1934-D EF-AU; 1934-S VF; 1935 AU; 1935-S EF.

(Total: 121 pieces)

815 Collection of 1878 Morgan dollars: 1878 8 TF. MS-65; 1878 7 TF. MS-65; 1878 7/8 TF. MS-65; 1878-CC MS-65; 1878-S MS-65. In attractive display holder. A nice group of really high quality coins! (Total: 5 pieces)

816 **High quality group of Morgan dollars, 1878-1886.** Contains the popular Carson City issues (includes the rare 1879-CC), and other desiderata—in *remarkably excellent* condition. A group for the connoisseur who wants to use this collection as a foundation for a complete set of dollars. Beautiful! The lot contains:

1878 8 TF. MS-65. Prooflike; 1878 7/8 TF. MS-65. Prooflike; 1878 7 TF. MS-65. Prooflike; 1878-CC MS-65; 1878-S MS-65; 1879 MS-65; 1879-CC MS-65. **Prooflike.** A rarity!; 1879-O MS-65; 1879-S MS-65+;

1880 MS-65; 1880-CC MS-65; 1880-O MS-65; 1880-S MS-65+; 1881 MS-65; 1881-CC MS-65. Prooflike; 1881-O MS-65; 1881-S MS-65+; 1882 MS-65; 1882-CC MS-65+; 1882-O MS-65; 1882-S MS-65+; 1883 MS-65; 1883-CC MS-65; 1883-O MS-65; 1883-S BU, rubbing; 1884 MS-65; 1884-CC MS-65; 1884-O MS-65; 1884-S EF-AU; 1885 MS-65+; 1885-CC MS-65; 1885-O MS-65; 1885-S MS-65; 1886 MS-65; 1886-O MS-60+; 1886-S MS-65. A nice lot! (Total: 36 pieces)

817 Group of dollars, popular and scarce varieties: 1878 8 TF. MS-65. Prooflike; 5 pieces 1883-CC MS-65. A nice group of this popular Carson City issue!; 1885-CC MS-65; 1928-S EF. (Total: 8 pieces)

818 Group of silver dollars, mostly Carson City, including scarcities: 1878-CC MS-60+; 1881-CC MS-65; 1882-CC MS-60; 1883-CC MS-60; 1884-CC MS-60; 1884-O MS-65; 1885-CC MS-65; 1890-CC MS-60; 1891-CC MS-60; 1900-O/CC MS-65, the curious "overmintmark." (Total: 10 pieces)

Note: "Overmintmarks" are numismatic curiosities. Prior to 1960 no such things were known in numismatics. Now there are several, including the preceding-listed dollar, the 1875-S/CC trade dollar, 1954-S over D 5c, 1955 D over S 5c, 1944-D over S cent (a significant variety which should be listed in the Guide Book, *but which isn't yet), and so on.*

It was your cataloguer's privilege to be the first person to authenticate and describe a U.S. "overmintmark" of any kind. The story in the early 1960's made the front page of Coin World, *and the coin was the 1938-D over S buffalo nickel.*

819 Group of silver dollars: 1878-CC MS-60; 1878-S MS-65+; 1882-CC EF; 1892 MS-65; 1897 MS-65; 1898-O MS-60; 1899-O MS-65; 1900-O MS-60. Cleaned on obverse; 1901-O MS-65; 1902-O MS-60; 1904-O MS-60; 1923 BU, rubbing. (Total: 12 pieces)

820 **1879-CC MS-65. Prooflike.** A superb specimen of this, one of the most important of all Carson City Mint silver dollars.

821 1879-CC MS-65. Another superb Uncirculated specimen of this rare issue. An important opportunity for the Morgan dollar specialist.

822 1880/79-CC Second reverse. Parallel top arrow feather; concave breast on eagle. **MS-65.** An outstanding specimen of this scarce variety.

823 1880/79-CC Second reverse, as preceding. MS-65. Another outstanding coin.

824 1880/79-CC Second reverse. MS-60. A third specimen of this desirable overdate variety.

825 1880-CC 8/7. 7 high. 3rd reverse. **MS-65. Prooflike.** Scarce. (VAM No. 5).

826 1880-CC 8/7. 3rd reverse. 7 shows as a dash under the 8. (Van Allen-Mallis Variety No. 7). MS-65.

827 1880-CC 8/7. 3rd reverse. 7 shows as a dash under the 8. (VAM No. 3). MS-65.

828 1883-S MS-65. A beautiful Brilliant Uncirculated specimen of this rarity. Choice examples such as this are seldom offered for sale.

829 1885-S MS-65.

830 1886-S MS-65. Prooflike.

831 1889-CC Scarce. EF-AU.

832 1890-CC MS-60+. Fully prooflike fields.

833 1890-CC MS-60. The *Tail Bar* variety. A bar-like piece of metal extends from the left part of the eagle's tail to the olive wreath (VAM variety No. 4). Scarce.

834 Trio of dollars: 1890-O MS-65; 1898-O MS-65; 1899 AU. (Total: 3 pieces)

835 Roll of 1890-S dollars. MS-60 to MS-65. (Total: 20 pieces)

836 10 pieces of 1891-S dollars. MS-60 to MS-65. (Total: 10 pieces)

837 1892-CC **MS-65.** An outstanding specimen of this scarce Carson City Mint silver dollar.

838 1892-CC **MS-65.** Another outstanding example of this elusive issue. A "find" for the silver dollar specialist.

839 1892-CC **MS-65.** A couple of trivial edge marks.

840 1892-CC AU. Cleaned.

841 1893-CC Scarce. AU.

842 1894 **MS-65.** A pleasing specimen of this, one of the most elusive of all Philadelphia Mint silver dollars.

843 1894 MS-60+. Another example of this scarce issue.

844 1894-O **MS-65,** except for numerous pin scratches on Ms. Liberty's cheek.

845 1894-O BU, rubbing.

846 1895-O **Brilliant Uncirculated** with light rubbing.

847 1902 **Choice Brilliant Proof.** One of only 777 Proofs minted this year. Rare.

848 1902-S **MS-65.** A desirable specimen of this early 20th century San Francisco dollar.

849 1902-S MS-60+. Scarce so nice.

850 1903-O MS-65+.

851 1904-S **MS-65+.** One of the finest known examples of this silver dollar scarcity. 1904-S dollars in this grade are seldom encountered.

852 1921 **Peace dollar. MS-65. Sharply struck.** One of the nicest strikes we've seen of this traditional weak issue.

Note: As we mentioned under Lot 340, the weak striking is the reason the high-relief 1921 Peace design was modified to the shallow-relief format a year later.

853 1921 **Peace. MS-65.** Above average strike.

854 1921 **Peace. MS-65.** Also an exceptional strike. Such an offering of 1921 Peace dollars is highly unusual!

855 **Complete set of Peace dollars, 1921-1935.** All are MS-60 to MS-65 with the exception of 1934-D which is AU. 1921 is MS-65, 1928 is MS-65, and 1934-S is MS-60+. A very nice-appearing set. (Total: 24 pieces)

856 Roll of 1923-S dollars. MS-60 to MS-65. (Total: 20 pieces)

857 Roll of 1922-S dollars. MS-60+ to MS-65. (Total: 20 pieces)

858 1934 MS-70. A Gem. Rare so.

859 1934-D MS-65+. Beautiful!

860 **1935-S Roll of 20 pieces. MS-60 to MS-65.** A remarkable offering of this rare issue. Only infrequently does the collector, dealer, or investor have a chance to buy a full mint roll of this elusive piece. (Total: 20 pieces)

861 **1935-S Group of 10 pieces. MS-60 to MS-65.** Another really rare opportunity! (Total: 10 pieces)

★ U.S. ★
Trade Dollars

862 1873-CC **Choice Brilliant Uncirculated.** An exceptionally nice specimen of this rare Carson City issue struck in the first year of trade dollar coinage.

863 1874 Proof with light blue, gray, and lavender toning. A few trivial marks. A very beautiful specimen of this rare issue. Only 700 Proofs were minted this year.

864 1874-CC **Brilliant Uncirculated.** Extensive bagmarks (as usually seen).

865 1874-CC EF-AU.

866 1875-CC AU.

Choice Brilliant Uncirculated
1875-S/CC Trade $1

867 1875-S over CC. The famous "overmintmark" variety. The present coin is a **Choice Brilliant Uncirculated** example and is one of the *finest known* pieces of this issue. Rare in all grades. Exceedingly rare in this incomparable preservation.

868 1876-CC AU.

869 **1876-S Choice Brilliant Uncirculated.**

870 Trio of dollar-size coins: (1) The main item is an 1876-S trade dollar, Brilliant Uncirculated; (2) 1965 restrike of the 1876 Dickeson copy of the 1776 Continental dollar. Pewter. Proof; (3) Brand-new 1776-1976-S Eisenhower silver dollar. Choice BU. (Total: 3 pieces)

871 1876-S AU, whizzed. Spotty toning.

872 1877-CC **Brilliant Uncirculated.** Oriental chopmark on obverse. Interesting and rare.

Note: Chopmarks were applied in the Orient by banks, merchants, and others to indicate acceptance of the coin's full weight and value.

Years ago (in the 1940's) trade dollars with chopmarks were more valuable in some instances than trade dollars without them—for numismatists would pay a premium for a piece which indicated that it actually circulated in the Orient (which is the original purpose for which trade dollars were coined).

873 1877-CC AU+. Scarce.

874 **1877-S Choice Brilliant Uncirculated.**

875 Group of trade dollars: 1877-S EF; 1877-S EF, rough rim; 1877-S VF; 1878-S VF. Many, many marks in field. (Total: 4 pieces)

876 1878 **Choice Proof.** A beautiful specimen with lilac and iridescent toning on the obverse and mottled golden toning on the reverse. A really outstanding coin! Just 900 Philadelphia Mint 1878 trade dollars were coined. Proof-only issue, for no pieces were struck for circulation.

877 1878 **Brilliant Proof**, but with hairlines and numerous light handling marks. Still a desirable specimen of this very rare date.

878 1878-CC The rarest Carson City trade dollar. EF-AU.

879 1878-S **Choice Brilliant Uncirculated,** save for a small staple scratch in the field.

Note: Great care must be taken when removing coins from holders which are stapled together. The contact of a coin's surface with the end of a staple can produce disastrous results, the outstanding example of which is a Texas friend's unfortunate experience of having this happen to a Proof 1863 quarter eagle. Be careful!

880 1880 **Choice Brilliant Proof.** Popular Proof-only issue. Rare and highly desirable!

881 1880 **Choice Brilliant Proof.** Another, and every bit as nice and as desirable!

882 1881 **Proof** with cloudy (microscopically granular) surfaces. Rare Proof-only date. Just 960 were minted.

THE NUMISMATIC SPECTRUM

The knowledge of our large numismatic staff covers the entire spectrum of numismatics. Thinking of selling? Whether you are selling major United States rarities, pattern coins of French Indo-China, crowns of Africa, or any other speciality, there is a specialist on the American Auction Association / Bowers and Ruddy Galleries staff to take care of all of the necessary research. We offer you a complete numismatic service.

883 1882 **Brilliant Proof.** Another rare Proof-only issue. 1,097 were minted.

884 1883 **Proof.** Steel gray and blue toning. Rare Proof-only issue. Only 979 were made. The last readily collectible coin in the trade dollar series, the 1884 and 1885 being for all practical purposes unobtainable.

894 1936 Bridgeport. Choice Brilliant Uncirculated.
Note: With obverse portrait of that well-known 19th century American, P.T. Barnum. Barnum was the impresario who introduced Jenny Lind, Gen. Tom Thumb, Jumbo (a huge elephant whose name has since become generic), and other interesting things to the public.

895 Group of very nice commemoratives: (1) 1936 Cleveland. Choice BU; (2) 1893 Columbian. BU; (3) 1923-S Monroe. Choice BU; (4) 1920 Pilgrim. Choice BU; (5) 1926 Oregon. BU. Cleaned; (6) 1926-S Oregon. Choice BU; (7) 1925 Stone Mountain. Choice BU; (8) 1934 Texas. Choice BU. (Total: 8 pieces)

896 1936 Elgin. Choice Brilliant Uncirculated.

897 1936 Gettysburg. Choice Brilliant Uncirculated.

898 **1928 Hawaiian.** Brilliant Uncirculated with light rubbing. The most desired single American silver commemorative coin. Very rare.

899 1924 Huguenot. Choice Brilliant Uncirculated.

900 1918 Lincoln-Illinois. Choice Brilliant Uncirculated.

901 1936 Long Island. Choice Brilliant Uncirculated.

922 1903 $1 gold. Louisiana Purchase Exposition. McKinley. Choice Brilliant Uncirculated.

923 1903 $1 gold. Louisiana Purchase Exposition. McKinley. Another beautiful Choice Brilliant Uncirculated specimen.

Note: Commemoratives are among the most interesting of all American coins. The Kensington Collection sale gives the numismatist the opportunity to select from many really outstanding examples.

924 1915-S $1 gold. Panama Pacific International Exposition. Choice Brilliant Uncirculated. Scarce.

925 1915-S $1 gold. Panama Pacific International Exposition. Choice Brilliant Uncirculated. Another rare and beautiful specimen.

926 1917 $1 gold. McKinley. Choice Brilliant Uncirculated.

927 **1922 $1 gold. Grant. Without star.** Choice Brilliant Uncirculated. Very rare.

928 $2½ 1926. Sesquicentennial. Choice Brilliant Uncirculated.

929 $2½ 1926. Sesquicentennial. Brilliant Uncirculated.

930 $2½ 1926. Sesquicentennial. AU.

Note: The reverse of this issue is similar to the "new design" we now have for the 1776-1976 bicentennial half dollar.

The Collection of a Prominent Midwestern Numismatist

It is with great pleasure that we now offer for sale at auction the collection of a prominent midwest numismatist. This collection, remarkable for its quality, was assembled over a long period of years. As the following pages will disclose, certain of the properties are so choice or so rare that comparable specimens will probably not appear on the market for many years.

Beginning the listing is a collection of early United States Proof sets. Purchased intact in 1968 from our New York City dealer friend Lester Merkin (reference: Lots 299-325 of Lester Merkin's auction sale of March 6, 1968), the group consists of sets *with their original mint wrappers.* These sets were obtained directly from the Philadelphia Mint in the year of issue and have remained intact since that time!

An offering of Proof Morgan dollars from the same collection will attract numismatists and discriminating investors. The American gold coins in the consignment are likewise landmarks and include one of the most complete collections of Indian type $10 pieces ever auctioned, a collection of Matte Proof quarter eagles, and other desirable pieces.

The "rarest of the rare" in the United States commemorative series is the Panama Pacific set in the original copper frame. There are perhaps 100 of these known, and each time one appears on the market it attracts wide interest. The present consignment includes not a regular Panama Pacific set but, rather, a *double* Panama Pacific set—with two of each coin, to show the obverse and reverse. So far as can be determined, only *four or five* such sets exist in all of numismatics.

The consignment of this prominent midwestern numismatist will be long remembered in our field. Few groups of coins like it have ever appeared for sale, and few groups like it will ever appear again.

In conclusion, we would like to thank Lester Merkin of New York City for his kind permission to use certain descriptions which originally appeared in his auction sale of March 1968.

U.S. Proof Sets 1867-1916

The following group of United States Proof sets, with the exception of certain years as noted (which were subsequently acquired and added to the collection), originally appeared for sale as Lots 299 through 325 of Lester Merkin's auction sale of March 6, 1968. Every lot in that sale group was acquired by the present consignor, with the solitary exception of Lot 322, a duplicate set of 1913–which was not needed. Lester Merkin's original introduction to that section of his 1968 sale follows:

"All of these were obtained from the Mint in the year of issue and have remained until now in the original wrappers and envelopes in which they arrived. Some were picked up in person, others were mailed to the collector. All are pristine and uncleaned. In all instances the original wrappers accompany the sets. A group like this, unassembled and untouched, with the original wrappers, represents a historic opportunity hardly ever matched. Most extant 19th century Proof sets were assembled in recent decades; very few original sets remained intact because collectors preferred then as now to place the individual denominations in their date sets. We strongly urge buyers of these sets to retain them as is, not cleaning them, and keeping the original wrappers and envelopes as an aid in preserving the pedigree."

IMPORTANT NOTE: The offering of Proof sets ranges from 1867 to 1916; Lots 931 through 967 of this sale.

It is the consignor's wish that Lots 931-967 also be offered intact as a single lot–as well as individually. This will be done as follows: as Lots 931 to 967 are sold at the sale they will be sold provisionally to the successful bidders. At the end of Lot 967 we will pause and total up the realization for Lots 931-967 inclusive. Then, Lot 968 will be an offering of Lots 931-967 as a single lot. The opening bid will be the total of Lots 931-967 plus 5%. If no one bids an amount equal to or greater than the starting bid, then Lots 931-967 will be awarded to the bidders who provisionally purchased them earlier. If Lot 968 exceeds by 5% or more the total of Lots 931-967, then the successful bidder on Lot 968 will get all of the sets.

Choice 1867 United States Proof Set

931 **1867 United States Proof set. Choice condition.** Contains the following items: (1) Indian cent. Just beginning to acquire light natural toning; (2) Two-cent piece with mottled reddish brown toning; (3) Nickel three-cent piece. Brilliant; (4) Silver three-cent piece. Toned a beautiful gray and iridescent hue; (5) Shield nickel is the type without rays. Brilliant; (6) Half dime. Toned a deep iridescent blue with gold at the center; (7) Dime. Lovely light golden color with blue around the periphery; (8) Quarter. Mottled iridescent obverse and lilac reverse; (9) Half dollar. Brilliant; (10) Silver dollar. Attractive gray and blue tone. Rare and seldom offered for sale. (Total: 10 pieces)

932 **1871 United States Proof set. Choice condition.** (1) Indian cent. Beautiful golden color. A few specks; (2) Two-cent piece. Light golden color; (3) Nickel three-cent piece. Brilliant; (4) Silver three-cent piece. Beautiful lilac and gray toning; (5) Shield nickel. Brilliant; (6) Half dime. Blue and iridescent toning; (7) Dime. Blue and magenta toning; (8) Quarter. Deep blue toning; (9) Half dollar. Beautiful iridescent toning. Superb!; (10) Silver dollar. Deep blue toning. Very rare. (Total: 10 pieces)

Gem 1877 United States Proof Set
—With original mint wrappers—

933 **1877 United States Proof Set. Gem condition.** Lester Merkin's original description follows:

1877 Eight piece Proof set. Cent brilliant golden red, mellowing slightly to a more pronounced red, but superb. Three cents fully brilliant and superb with unusually strong borders which are partly squared (usually they come only rounded). Five cents the usual impression with rounded rims; acquiring some dark tarnish which has obscured part of TRUST. Dime Type II, rainbow toned gem, showing odd color areas from the mint wrappers. Twenty cents identical and exceptionally nice. Quarter with half of the obverse cloudy, the remainder partly brilliant and partly rainbow toned. Half dollar with Type II reverse, exceedingly rare, toned and tarnished. Trade dollar toned and tarnished. *One of 50 sets issued in October 1877.* Obtained at the mint, November 7, 1877. Original blue envelope of issue bears the curious notation "To be exhibited July 4, 1976." We hope the purchaser of this set will be able to exhibit it at the bicentennial

celebration alluded to. Not more than 350 sets could have been issued, that being the number of 20c pieces struck; the actual number is considerably smaller as many 20c were separately sold and the unsold ones were melted in June 1878. It is guessed that possibly only a couple of hundred complete sets were sold as such; very few of these would have had the Type II half dollar (pointed berry above H), almost all other Proof halves of 1877 to date having the old 1876 Type I reverse . . .

(Total: 8 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 299 from the aforementioned Lester Merkin sale.

Gem 1878 United States Proof Set
—With original mint wrappers—

934 **1878 United States Proof set. Gem condition.** Lester Merkin's original description follows:

1878. Nine piece Proof set. Cent with full original brilliance, superb; normal date. Three cents brilliant, streak of reverse toning, one minute dark spot near reverse lower border. Five cents, from a variety we have never seen before—possible *overdate:* part of shaft 7(?) within second 8. Borders somewhat rounded though less so than usual; pristine, pale gold tone with a few minute flyspecks. Dime toned gunmetal blue obverse, brilliant reverse, superb. Twenty cents with reverse deeply tarnished, but pristine. Quarter with obverse brilliant, reverse subtly toned; a gem. Half dollar (reverse Type II) like the 20c. Silver dollar from the first Eight Feathers hub. Trade dollar is a rainbow toned gem acquiring some dull peripheral tarnish. At present only one other unassembled set is now traced aside from the gold sets in the Smithsonian and the American Numismatic Society. As a set, in a class with the 1877 . . .

(Total: 9 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 300 from the aforementioned Lester Merkin sale.

Gem 1879 United States Proof Set
—With original mint wrappers—

935 **1879 United States Proof set. Gem condition.** Lester Merkin's original description follows:

1879. Eight piece Proof set. Cent, fully brilliant with orange and greenish overtones; tiny defect at upper right obverse. Three cents, fully brilliant and save for a minute flyspeck above U it is superb. Five cents, delicately toned save for minute reverse spot. Dime with tarnished obverse and brilliant reverse. Quarter (very rare) brilliant obverse, rainbow toned reverse. Half dollar (Beistle 2-A, full drapery, reverse Type I die of 1876) toned to the cool end of the spectrum. Silver dollar likewise. Trade dollar irregularly toned and tarnished. All silver coins of gem quality. Exceedingly rare; only 250 quarters made, some of them being melted in 1880 with earlier dates, and this limits the number of complete sets of 1879 that could ever have existed. At present less than five complete unassembled sets are known to survive . . .

(Total: 8 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 301 from the aforementioned Lester Merkin sale.

Gem 1880 United States Proof Set
—With original mint wrappers—

936 **1880 United States Proof set. Gem condition.** Lester Merkin's original description follows:

1880. Eight piece Proof set. Cent, extra brilliant but with traces of obverse fingerprint. Three cents, brilliant and superb. Five cents, a gem. Dime with incomplete drapery, mostly brilliant, slightly cloudy Quarter partly russet, reverse lovely blue and violet tones. Half dollar with Type II reverse, palest pink and deeper blue toning. Silver dollar toned pink, steel, blue, and purple. Trade dollar obverse deep gunmetal, reverse rainbow toned. All silver coins of gem quality. One of very

few intact original unassembled sets known to survive outside museums . . .

(Total: 8 pieces)

Note: Included also are the original mint wrappers (noting that this set was purchased at the mint on August 10, 1880) and the envelope showing this to be Lot 302 from the aforementioned Lester Merkin sale.

Gem 1882 United States Proof Set
—With original mint wrappers—

937 **1882 United States Proof set. Gem condition.** Lester Merkin's original description follows:

1882. Eight piece Proof set. Cent brilliant golden red beginning to tone down, some of the toning a little cloudy. Three cents, brilliant with a touch of cloudy reverse toning. Five cents partly gold, partly blue. Dime brilliant/gunmetal, from an unfamiliar die (for Proofs) with complete drapery. Quarter gunmetal/brilliant and with reverse shield normal, unlike most Proofs of this date. Half dollar rainbow toned. Silver dollar beautifully rainbow toned. Trade dollar likewise, but emphasizing the cool end of the spectrum still more. All coins of gem quality. One of less than 1030 sets made including the trade dollar. One of very few intact original unassembled sets . . .

(Total: 8 pieces)

Note: Included also are the original mint wrappers bearing the name of the original purchaser, Rev. William Richmond (who in the early years lived in Orange, New Jersey, and later in Summerville, South Carolina). Also included is the envelope showing this to be Lot 303 from the aforementioned Lester Merkin sale.

Gem 1883 United States Proof Set
—With original mint wrappers—

938 **1883 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1883. Ten piece Proof set including all three nickels. Cent beautifully toned to rainbow shades. Three cents toned pale blue. Shield nickel gray and blue tone with streaks of golden brown. Nickel without CENTS brilliant with faintly cloudy bluish tone. Nickel with CENTS similar, obverse golden brilliance with one minute reverse speck and a few minor planchet defects on obverse. Dime obverse blue to gunmetal to violet, reverse mostly brilliant. Quarter similar with some of the same toning on both sides. Half dollar rainbow toned with a small area of dull tarnish. Silver and trade dollars like the quarter. All silver coins of gem quality. *Of the Proof sets minted with all three nickels, only 342 contained trade dollars.* Very few of these could have remained intact, and the present set is the only one outside of the American Numismatic Society and the Smithsonian which we can positively prove to have come that way from the mint; others now known have presumably been assembled one piece at a time or at best by adding extra nickels (and perhaps the trade dollar) to silver sets . . .

(Total: 10 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 304 from the aforementioned Lester Merkin sale.

Gem 1884 United States Proof Set

939 **1884 United States Proof set. Gem condition.** This set, absent from the Lester Merkin auction offering, consists of coins with matched toning. It appears to be a completely original Proof set of the year 1884; a set which has been kept intact since the time of issue.

The Indian cent is lightly toned a golden color. The nickel three-cent piece is mostly brilliant, but with some light spottiness. Some planchet flaking is evident on the upper obverse. The Liberty nickel is brilliant with some minute flecking. The dime is a pale gray and golden color. The quarter, half dollar, and silver dollar are pale to dark bluish gray.

(Total: 7 pieces)

Gem 1885 United States Proof Set
—With original mint wrappers—

940 **1885 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1885. Seven piece Proof set. Cent with obverse brilliant, reverse deeply toned. Three cents brilliant with traces of golden and sunset tones. Five cents golden toned with microscopic flyspecks. Dime toned pink, steel, blue, and violet, with a patch of dull reverse tarnish. Quarter partly brilliant, partly toned to the cool end of the spectrum, the reverse gunmetal. Half dollar gunmetal and iridescent. Dollar likewise. All silver coins of gem quality. One of very few intact original sets, most having been dispersed long since on behalf of the 5c piece . . .

(Total: 7 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 305 from the aforementioned Lester Merkin sale.

Gem 1886 United States Proof Set
—With original mint wrappers—

941 **1886 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1886. Seven piece Proof set. Cent of Type 1, brilliant but with a couple of trivial spots. Three cents unusually brilliant and superb. Five cents with second 8 recut (very scarce), pale gold tone, satin finish strike on planchet granular as made (common through 1889). Dime toning russet/gunmetal. Quarter gunmetal/brilliant. Half dollar (Beistle 1-A. Doubled stars) of lovely rainbow tone. Dollar ditto. All silver coins of gem quality. One of only 886 sets, most long since broken up on behalf of the half, quarter, and nickel . . .

(Total: 7 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 306 from the aforementioned Lester Merkin sale.

Gem 1887 United States Proof Set
—With original mint wrappers—

942 **1887 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1887. Seven piece Proof set. Cent beautifully iridescent. Three cents 1887/6, clear overdate, brilliant obverse, blue reverse, and a splendid gem. Five cents unusually brilliant, with some pale blue toning, but struck flat on stars, the borders partly rounded. Dime brilliant/blue toned. Quarter identical. Half dollar gorgeous rainbow tone, head and some stars partly flat as on the nickel. Dollar with deep rainbow tone. All silver coins of gem quality. One of only 710 sets issued . . .

(Total: 7 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 307 from the aforementioned Lester Merkin sale.

Gem 1888 United States Proof Set
—With original mint wrappers—

943 **1888 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1888. Seven piece Proof set. Cent a rainbow toned gem of rare beauty. Three cents pale gold and aquamarine. Five cents another rainbow toned gem, though struck on a somewhat dull granular planchet—nevertheless more mirrorlike than on 90% of this date. Dime brilliant/dark gray with fingerprint. Quarter steel/light purple, minutely flyspecked. Half dollar a deep rainbow toned gem. Dollar mostly a dozen modulations of steel tone. Except as noted, silver coins of gem quality.

(Total: 7 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 308 from the aforementioned Lester Merkin sale.

Gem 1890 United States Proof Set
—With original mint wrappers—

944 **1890 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1890. Six piece Proof set. Cent extra brilliant and somewhat pale with minor rim spot. Nickel extra brilliant and pale rose. Dime blue and rose/brilliant. Quarter blue and rose/aqua and turquoise. Half dollar partly brilliant, partly toned blue and rose. Dollar mostly deep blue and rose with brilliant centers. Silver coins of gem grade. One of only 590 originally issued; the small number once held by Wayte Raymond were mostly broken up on behalf of collectors of dollars, halves, and quarters . . .

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 309 from the aforementioned Lester Merkin sale.

Gem 1891 United States Proof Set

945 **1891 United States Proof set. Gem condition.** A really superb set with evenly matched toning. Not from the aforementioned Lester Merkin sale, but undoubtedly an original unassembled set nevertheless.

The cent is a light golden color with a few trivial specks. Nickel light dusky and golden toning. Dime, quarter, half dollar, and silver dollar all with superb blue, magenta, and iridescent toning. A superb set, as noted.

(Total: 6 pieces)

Gem 1892 United States Proof Set
—With original mint wrappers—

946 **1892 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1892. Six piece Proof set, first Barber year. Cent extra brilliant and gem. Nickel a gem with pale rose and gold tone. Dime brilliant/rose, mauve, and blue. Quarter Type II, brilliant toned and choice. Half dollar toned like the dime. Dollar similar but more so. Silver coins of gem quality. One of only 1245 sets issued, of which few are known to survive intact, the others evidently being assembled.

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 310 from the aforementioned Lester Merkin sale.

Gem 1893 United States Proof Set
—With original mint wrappers—

947 **1893 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1893. Six piece Proof set. Cent extra brilliant, golden to deep red. Nickel likewise with pale rose, gold, and green tone. Dime partly brilliant, mostly deeply toned and with obverse fingermark. Quarter mostly brilliant/russet to blue. Half dollar partly brilliant with same toning. Dollar identical. Silver coins of gem quality except as noted. From the mint, date unspecified. One of only 792 issued, one of very few now surviving.

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 311 from the aforementioned Lester Merkin sale.

Gem 1894 United States Proof Set
—With original mint wrappers—

948 **1894 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1894. Six piece Proof set. Cent extra brilliant. Nickel brilliant gold and alice blue. Dime brilliant/steel with faint obverse fingerprint. Quarter likewise but without the fingerprint. Half dollar a fascinating rainbow blend. Dollar irregularly toned principally steel, rose, and blue. All coins gem quality except as noted. One of only 972 sets originally made, dollar collectors accounting for the breakup of most of them. Perfectionists will have nothing but smiles for this set.

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 312 from the aforementioned Lester Merkin sale.

Gem 1895 United States Proof Set
—With original mint wrappers—

949 **1895 United States Proof set. Gem condition.** This set includes the famous **1895 silver dollar.** Lester Merkin's original catalogue description follows:

1895. Six piece Proof set. Cent normal date, rainbow/extra brilliant. Nickel iridescent rainbow toned with a slight reverse fingermark. Dime brilliant/pale steel with obverse fingerprint. Quarter brilliant/steel to blue. Half dollar an irregular rainbow. Dollar steel and lilac toned, the reverse mostly brilliant. All coins gem quality except as noted. The dollar in particular is one of the most beautiful we have yet seen. One of perhaps three or four sets surviving intact outside museums, all others having long since been broken up on behalf of collectors of silver dollars. A fantastic and very rare opportunity . . .

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 313 from the aforementioned Lester Merkin sale.

Gem 1896 United States Proof Set
—With original mint wrappers—

950 **1896 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1896. Six piece Proof set. Cent rainbow toned. Nickel iridescent and pale gold with small obverse fingermark. Dime mostly brilliant gunmetal. Quarter iridescent gunmetal, mostly brilliant. Half dollar mostly iridescent gunmetal. Dollar similar. All coins gem quality except as noted, the dollar exceptionally so . . .

(Total: 6 pieces)

Note I: Included also are the original mint wrappers and the envelope showing this to be Lot 314 from the aforementioned Lester Merkin sale.

Note II: In 1968 the term "gem" was used only on exceedingly rare occasions. In our own business then, this word was scarcely in our vocabulary. Likewise with the word "choice." A coin was either a Proof or it wasn't. If it had problems, the problems were mentioned. If you look through our catalogues of the 1950's and 1960's you will see coins simply described as "Brilliant Proof," or whatever—coins which today would be called "Gem Brilliant Proof." So, Lester Merkin's use of the word "gem" back in 1968 really indicates super-extraordinary quality! The coins in these original sets are completely free of bagmarks, nicks, scratches, hairlines, and the other deleterious effects which are usually seen on other pieces of their kind.

Gem 1897 United States Proof Set
—With original mint wrappers—

951 **1897 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1897. Six piece Proof set. Cent iridescent deep red with minor reverse fingermark. Nickel pale gold with obverse fingermark and reverse tiny planchet granularity (before striking). Dime rainbow toned. Quarter similar. Half dollar lightly toned mainly to an amazing chartreuse. Dollar rainbow toned with light reverse fingermark. Except as noted, all coins of gem quality, the dime and quarter particularly so. One of only 731 sets originally issued, one of few surviving intact.

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 315 from the aforementioned Lester Merkin sale.

Gem 1898 United States Proof Set
—With original mint wrappers—

952 **1898 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1898. Six piece Proof set. Cent iridescent golden red to deep red with a tiny obverse rim spot and reverse spot on wreath, otherwise superb. Nickel a pale gold gem. Dime brilliant/iridescently toned, one tiny obverse spot. Quarter rainbow toned with faint obverse fingermark. Half dollar similar but without fingermark. Dollar steel, lilac to blue with faint obverse fingermark. Except as noted, all coins are gems, the toning prettier than usual. One of only 735 sets originally issued.

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 316 from the aforementioned Lester Merkin sale.

Gem 1899 United States Proof Set
—With original mint wrappers—

953 **1899 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1899. Six piece Proof set. Cent an iridescent gem, chartreuse to amber to deep red. Nickel, delicate steel tone. Dime a rainbow toned marvel, mainly at the cool end and emphasizing purple and magenta. Quarter rainbow toned emphasizing blue. Half dollar identical. Dollar likewise. All coins superb, the set unimprovable. This one should be cherished in its present glorious colors; dipping it would be a crime.

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 317 from the aforementioned Lester Merkin Sale.

Gem 1900 United States Proof Set
—With original mint wrappers—

954 **1900 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1900. Six piece Proof set. Cent orange-red/pale gold, faint fingermark. Nickel brilliant with faint fingermark. Dime iridescently toned and with a few specks which may have been in the planchet before striking. Quarter pale steel blue/brilliant. Half dollar golden/rainbow with minute traces of obverse fingermark. Dollar nicely but irregularly toned. Except as noted, all coins of gem quality. One of only 912 sets issued.

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 318 from the aforementioned Lester Merkin sale.

Gem 1901 United States Proof Set
—With original mint wrappers—

955 **1901 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1901. Six piece Proof set. Cent deep red iridescence/golden tone. Nickel pale gold/pale blue with minute reverse nick. Dime steel blue to lilac. Quarter pale golden steel/pale blue. Half dollar a somewhat cloudy rainbow. Dollar a paler version of the same. Coins of gem quality, the nickel falling short only as mentioned. One of only 813 sets originally made, of which very few survive intact today.

(Total: 6 pieces)

Note: Included also are the original mint wrappers and the envelope showing this to be Lot 319 from the aforementioned Lester Merkin sale.

Gem 1902 United States Proof Set
—With original mint wrappers—

956 **1902 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1902. Six piece Proof set. Cent greenish gold to orange brilliance. Nickel pale gold and blue. Dime brilliant/steel blue. Quarter iridescent gunmetal/brilliant. Half dollar brilliant with some pale lilac tone. Dollar partly toned to steel, blue, and lilac. All coins gem quality. From the mint in 1902; with the original Superintendent's Office envelope, as well as the usual wrappers and 2x3 envelope retained with all the other sets. One of only 777 sets issued, most of them long since broken up.

(Total: 6 pieces)

Note: Included also are the original mint wrappers, an envelope from the Superintendent's Office, and an envelope showing this to be Lot 320 from the aforementioned Lester Merkin sale.

Gem 1903 United States Proof Set

957 **1903 United States Proof set. Gem condition.** Acquired by the consignor subsequent to the Lester Merkin sale, this set is a gem in all respects and undoubtedly has been kept intact since the year of issue.

The cent is a deep golden color with a few nonconsequential flecks. The nickel is a light bluish gray. The dime, quarter, half dollar, and silver dollar are all gems with deep blue and lilac peripheral toning lightening to pale gold at the centers. One of just 755 sets originally issued. Few sets of equivalent quality exist today. Another prime opportunity for the connoisseur.

(Total: 6 pieces)

958 **1904 United States Proof set. Gem condition.** Also acquired by the consignor subsequent to the Lester Merkin sale, and possibly from the same collection as Lot 957, for the coins closely match the preceding in tone.

The cent has a gold obverse and an iridescent reverse. The nickel is bluish-gray in hue. The dime, quarter, half dollar, and silver dollar are all matched a bluish-gray color with iridescent overtones. The coins have obviously been kept together since the day of issue. One of just 670 sets issued. Exceedingly rare in this condition.

Note: After the Lester Merkin sale the consignor endeavored to acquire additional sets so as to complete the collection by dates, the Lester Merkin offering having certain gaps in it. Although many calendar pages have turned since the sale in March 1968, very few Proof sets of the gem quality equal to the original Lester Merkin offering have appeared, so there are still a few gaps in the listing. Quality is elusive!

Gem 1906 United States Proof Set
—With original mint wrappers—

959 **1906 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1906. Five piece Proof set. Cent in various tints of golden brilliance. Nickel naturally streaky golden and pale steel. Dime brilliant with pale aqua reverse tone. Quarter a fantastic rainbow. Half dollar similar but a little more dilute. All coins superb. Acquired personally at the mint in 1906; with original Superintendent's Office envelope of issue as [Lot 956]. One of only 675 originally issued; few survive now.

(Total: 5 pieces)

Note: Included also are the original mint wrappers, an envelope from the Superintendent's Office, and an envelope showing this to be Lot 321 from the aforementioned Lester Merkin sale.

Gem 1908 United States Proof Set

960 **1908 United States Proof set. Gem condition.** Acquired subsequent to the Lester Merkin sale. A gem set with matched coloration; a set undoubtedly kept together since the day of issue.

The cent is a pale golden color, with some microscopic flecks as nearly always seen on original uncleaned Proof cents of this era. The nickel is a beautiful light blue with just a nuance of gold. The dime, quarter, and half dollar are all matched iridescent hues, with lighter coloration toward the centers. One of only 545 sets minted this year. Not more than a dozen or two sets, if indeed that many, have survived intact since the year of issue. Another rare opportunity.

(Total: 5 pieces)

Gem 1909 United States Proof Set

961 **1909 United States Proof set. Gem condition.** Acquired by the consignor subsequent to the Lester Merkin sale. An original set acquired early in 1909, which contains the Indian cent, nickel, 10c, 25c, and 50c. Following the midsummer release of the Lincoln cent, additional Proof cents were struck this year—the 1909 V.D.B. and the 1909 plain. Some previous owner acquired a 1909 plain cent and added it to the original set. (No 1909 V.D.B. was obtained, however.)

The set contains: Indian cent: a gem with gold and light iridescent coloration. Nickel is a pale blue color; a trivial spot near border. The dime, quarter, and half dollar are all matched gems with iridescent and gold toning. The 1909 "plain" cent, added later, is of a slightly different hue, is not a gem, but is an "average" quality Proof coin. In the obverse field is a small spot with some attendant abrasions, indicating someone tried to expunge it years ago. Some verdigris is in the reverse letters.

So, we have here an original pristine gem 1909 Proof set acquired early in the 1909 year (before the Lincoln cent was issued), to which has been added one later coin. (Total: 6 pieces)

Gem 1910 United States Proof Set
—With original mint wrappers—

962 **1910 United States Proof set. Gem condition.** Acquired subsequent to the Lester Merkin offering, this is another rare instance of an original gem set accompanied by its "papers." The set comes with its original mint wrappers and envelope, plus a mailing envelope from the Treasury Department, Mint of the U.S. at Philadelphia, Pa., indicating that this set was delivered on March 28, 1910, to Miss Marcella Sears, c/o Dr. Charles E. Sears, Wallace, Idaho.

The set consists of five pieces as issued. The cent is one of the finest Matte Proofs we've seen. A couple of microscopic spots are scarcely worthy of mention. The nickel has a light blue and gold hue. The dime, quarter, and half dollar are matched deep blue and lilac color and are breathtakingly beautiful. Only 551 sets were minted this year, and the number of sets surviving in this condition today can be counted on your fingers. The documentation, of course, adds further to the lustre and desirability.

(Total: 5 pieces)

Note: Accompanied by the original wrappers and mailing envelope as noted in the preceding description.

Gem 1912 United States Proof Set
—With original mint wrappers—

963 **1912 United States Proof set. Gem condition.** Acquired subsequent to the Lester Merkin sale, and from the same source as Lot 962. To another of Dr. Sears' relatives (daughter?), addressed to Dr. Sears who, at this time, was in Austria. The mint must have had someone familiar with the German language for this package is addressed in German, even to the Teutonic spelling of *adresse.* With original wrappers and envelope (bearing 21c postage) from the Treasury Department, Mint of the U.S. at Philadelphia, and sent on October 21, 1912, to: Miss Norma Sears; per Adresse Dr. Chas. E. Sears; VIII Laugegasse 67; Vienna; Austria. Sent by registered mail, postal No. 2529, and countermarked *Return Receipt Demanded.*

The set consists of five pieces. The cent is of light natural color with a few trivial specks. The nickel is a light golden tone. The dime, quarter, and half dollar are mottled iridescent, mostly original brilliant fields punctuated by blue and gold. Only 700 such sets were minted. Just a few survive today in this condition, and of these, few if any have accompanying documentation as this one has.

(Total: 5 pieces)

Note: Accompanied by the original wrappers and mailing envelope as noted in the preceding description.

Gem 1913 United States Proof Set
—With original mint wrappers—

964 **1913 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1913. Five piece Proof set. Cent rainbow toned and a gem save for minute trace of obverse fingermark; spotless, which is very rarely the case. Nickel is the Type II and is pale rosy gold and blue, a spotless superb gem. Dime toned to half a dozen different blue tints. Quarter likewise, the reverse pale gold. Half dollar a pastel rainbow. Except as noted, all coins superb and unimprovable. Mailed from the mint December 3, 1913, (dated envelope) stamped and wax sealed; number issued unknown but evidently very small, as only 613 quarters were made (providing an absolute limit) and the earlier sets had the Type I nickel—probably the majority. As this set's wrapper shows internal marks proving that it never had more than the five pieces, clearly this is one of the late sets issued only with the Type II nickel, and extant sets containing both nickels must have been partly or wholly assembled. In fact, outside museums this is the only intact original set we have encountered, most others having been long since broken up on behalf of collectors of half dollars and quarters. Low mintages on both denominations for business strikes provided additional demand for Proofs to substitute for unobtainable Uncirculated specimens. As a result, this set is *of the highest rarity* as an intact original set from the mint . . .

(Total: 5 pieces)

Note: Accompanied by the original mint wrappers and with an envelope addressed to Rev. Wm. Richmond; Box 223; Summerville, S. Carolina. Mailed from the mint on Dec. 1, 1913 and received in Summerville on Dec. 3rd. Registry No. 8406. Also accompanied by an envelope showing this to be Lot 323 in the aforementioned Lester Merkin sale.

Gem 1914 United States Proof Set
—With original mint wrappers—

965 **1914 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

1914. Five piece Proof set. Cent a spotless Matte gem, partly golden, partly deep iridescence. Nickel similar, partly pale gold, partly steel-blue. Dime many shades of reddish gold and blue, mainly peacock blue. Quarter sunset hues and sky blue. Half dollar identical. All coins superb spotless gems of the highest imaginable quality. Mailed from the Mint March 12, 1914, received in Summerville, S.C. March 14; with original Superintendent's Office mailing envelope, stamped and wax sealed, together with the usual wrappers. *Exceedingly rare,* a museum set, as almost all the survivors of only 380 issued were broken up decades ago on behalf of collectors of half dollars . . .

(Total: 5 pieces)

Note: Included are the original mailing envelope to Rev. William Richmond, and an envelope showing this to be Lot 324 in the aforementioned Lester Merkin sale.

Gem 1915 United States Proof Set

966 **1915 United States Proof set. Gem condition.** Acquired subsequent to the Lester Merkin auction. An evenly matched set which must have been kept intact since the date of issue.

Contains 5 coins. The cent is a lightly toned Matte Proof with a tiny reverse spot. The nickel has beautiful pale blue and golden toning. The dime, quarter, and half dollar lilac blue and iridescent toning, darker around the periphery and lighter at the center. Only 450 sets were issued and, as was the case with 1914, most were broken up by date collectors in quest of the rare 1915 half dollar. A superb set of the highest rarity.

(Total: 5 pieces)

Gem 1916 United States Proof Set
—With original mint wrappers—

967 **1916 United States Proof set. Gem condition.** Lester Merkin's original catalogue description follows:

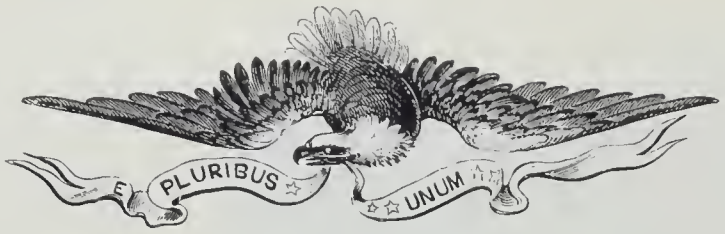

1916. Minor Proof set. [No Proof sets with the larger denominations were ever issued.] Cent iridescent golden red with traces of obverse fingerprint; the broadest and sharpest borders we have yet encountered on this exceedingly difficult date. Nickel iridescent pale gold and blue with faint hints of rose; satin finish Matte surfaces, broad sharp borders, some minute reverse speckles. From the mint by mail some time in 1916. *Exceedingly rare, the only such original set in private hands known to us* aside from sets assembled in recent decades.

(Total: 2 pieces)

Note: Included are the original mint wrappers and an envelope showing this to be Lot 325 from the aforementioned Lester Merkin sale.

968 Collection of Proof sets, various years 1867-1916, as heretofore listed under Lots 931 to 967 inclusive. Following the sale of Lot 967, we will pause, add up the total realization of Lots 931 through 967, add 5%, and use that figure as the starting bid for Lot 968. If the starting bid is met or exceeded, then Lots 931 through 967 will be sold to the buyer of Lot 968 rather than to the individual earlier bidders. If the starting bid is not met, then the sets will be sold to the bidders who competed for them individually earlier. This arrangement is made at the express request of the consignor.

U.S. Silver Dollars

The following is a date collection of United States Morgan-type silver dollars of the years 1878-1904. It contains many rarities, including Proof examples of 1878 with 7 tail feathers, 1894, and 1895, and a high grade 1893-S.

969 **1878 8 tail feathers. Proof** with light brown toning around the periphery. Some cloudiness on the obverse and extensive cloudiness on the reverse. One of 700 pieces minted of this first Morgan dollar type.
al,Note: Following the production of the first Morgan dollars with eight tail feathers it was realized that the even number 8 did not result in a central or longer feather—an ornithologically inaccurate situation. So, the design was subsequently modified to the 7-feathers format.

970 **1878 7 tail feathers. Choice Proof** with very light hazy gray toning. Some slight planchet streakiness as minted. A desirable specimen of this exceedingly rare (in Proof grade) variety; only 300 were minted. The lowest-mintage Proof of any variety in the 1878-1904 years. Catalogues $1,500 and should fetch that or more. Only rarely does one of these appear for sale.

971 **1879 Choice Proof** with very light hazy gray toning. An attractive specimen of this year. 1,100 minted.

A STAFF OF PROFESSIONALS

Our staff of over 30 people contains specialists in every area of numismatics—whether it be coins of ancient Greece and Rome, medals of medieval Europe, territorial gold coins of California, patterns of Britain's Soho Mint, or whatever. Better descriptions for your coins mean better prices. Thinking of selling? Our staff is waiting to hear from you!

972 **1880 Choice Brilliant Proof.** 1,355 Proof specimens were coined this year.

973 **1881 Choice Proof.** Gray, deep golden, and iridescent toning. 975 Proofs minted.

Note: In general, Proof Morgan dollars are rare. This is for several reasons:

1. Most Philadelphia Mint dates were and still are available for low prices in Uncirculated grades, so reduced attention was paid years ago to acquiring Proofs, save for scarce dates (such as 1894 and 1895).

2. The face value of the dollar was considerable (and represented close to a day's wages at the time of issue), so in a moment of duress it was tempting to "spend" a Proof—and this was often done.

3. The heavy weight and large size and surface area of the dollar made coins of this denomination more susceptible to handling marks and damage, so the survival of non-impaired Proofs is less than for the lower values.

974 **1881 Choice Proof** with deep gray and lilac toning. A really lovely coin which has undoubtedly been taken directly from an original Proof set. A duplicate specimen of this scarce issue. Just 975 Proofs minted.

975 **1882 Gem Proof.** With deep lilac and iridescent tones. A superb dollar for the numismatists who appreciates the finest. 1,100 Proofs coined this year.

976 **1883 Brilliant Proof.** Cleaned, and showing some hairlines as a result. 1,039 Proofs minted this year.

977 **1884 Brilliant Proof.** Cleaned, and showing some hairlines, mostly trivial, as a result. Light gray toning beginning to form. 875 Proofs minted this year.

978 **1885 Brilliant Proof** with light golden toning. Some minor hairlines. An attractive specimen. 930 Proofs minted this year.

979 **1886 Brilliant Proof** with light golden toning. Some minor hairlines must be mentioned. Attractive overall. 886 Proofs minted this year.

980 **1887 Brilliant Proof.** A couple of minor scratches, not as bad in person as they seem to be in print, are on the obverse. Otherwise a top grade specimen. 710 Proofs minted this year.

981 **1888 Proof** with iridescent toning around the periphery. Cleaned decades ago, and showing some hairlines as a result. 832 Proofs minted this year.

★

982 1889 Choice Brilliant Proof. One of 811 Proofs minted this year. Not more than 100 to 200 pieces can survive today in a state of preservation equal to this example.

983 1890 Brilliant Proof with a few trivial handling marks. Attractive iridescent toning around the periphery. Just 590 Proofs coined this year, a remarkably low amount.

984 1890 Proof with champagne-colored toning. Some old hairlines keep this out of the *Choice* classification, but it is an attractive coin nonetheless. Just 590 pieces were coined, as noted in the preceding lot (of which this is a duplicate).

985 1891 Brilliant Proof. Some minute hairlines in the field from cleaning long ago. Light golden toning beginning to form. Only 650 Proofs coined this year.

986 1892 Choice Brilliant Proof. A lovely specimen. 1,245 Proofs minted this year.

High Grade 1893-S Silver Dollar

987 1893-S Rare in all grades, 1893-S is particularly elusive in conditions approaching Uncirculated. The present specimen is a lovely AU coin with nearly all original lustre. An important opportunity for the numismatist who wants a coin between the catalogue values of $800 for an Extremely Fine and $20,000 for an Uncirculated example of this rare variety.

THE NUMISMATIC SPECTRUM

The knowledge of our large numismatic staff covers the entire spectrum of numismatics. Thinking of selling? Whether you are selling major United States rarities, pattern coins of French Indo-China, crowns of Africa, or any other speciality, there is a specialist on the American Auction Association / Bowers and Ruddy Galleries staff to take care of all of the necessary research. We offer you a complete numismatic service.

988 1894 Brilliant Proof. With some light hairlines in the field due to cleaning. Very rare date. 972 Proofs minted. However, the demand for this date stems from the fact that business strikes are rare (with Uncirculated coins cataloguing $630), and many numismatists have opted to utilize Proofs instead.

The Celebrated 1895 Morgan Dollar

989 1895 Morgan silver dollar. Choice Proof with deep blue, green, and iridescent toning. A beautiful coin of a quality which is seen only when old-time collections come on the market. One of just 880 Proofs struck this year. The 1895 is often called the "king of the Morgan dollars," a title it merits due to its status of being by far the lowest mintage coin in the series.

Note: Although mint records report that 12,880 pieces were minted (12,000 regular strikes plus 880 Proofs), we can trace no record whatever of an Uncirculated (i.e., an example definitely from the 12,000 business strike mintage) specimen ever having been offered on the numismatic market. All known specimens are either Proofs or circulated Proofs, to our knowledge.

It is presumed that the 12,000 regular strike 1895 silver dollars were melted under the provisions of the 1918 Pittman Act (which caused the reclaiming of 270,232,722 dollars of earlier dates into bullion). No Uncirculated 1895 dollars were released later as part of the Treasury-held pieces, nor are any Uncirculated 1895 dollars among the Government's current dollar holdings. The net mintage of just 880 Proofs remains the sole source for authentic 1895 Philadelphia Mint silver dollars.

990 1896 Brilliant Proof. Some hairlines in the field. Only 762 Proofs minted this year.

991 1897 Choice Brilliant Proof. Some light gray toning just beginning to form. An attractive specimen of this scarce issue. Only 731 Proofs were minted, and not many are the equal in condition today of this one!

992 **1898 Choice Brilliant Proof.** One of 735 pieces minted this year. Rare.

993 **1899 Gem Proof** with beautiful blue, green, magenta, and other toning of mixed iridescence. No *finer* Proof dollar of this date could exist, and it's our estimate that no more than a few dozen *equal* pieces survive. Only 846 Proofs were minted to begin with.

994 **1900 Choice Brilliant Proof** with light gray toning just beginning to form. Only 912 Proofs were struck this year, and incredibly few survive in *Choice* condition today.

995 **1900 Proof**, but with a myriad of tiny hairlines in the field. Light gray and golden toning. Duplicate of preceding year.

996 **1901 Brilliant Proof** with light brownish-gold (mainly) toning around the periphery. One of 813 Proofs made this year.

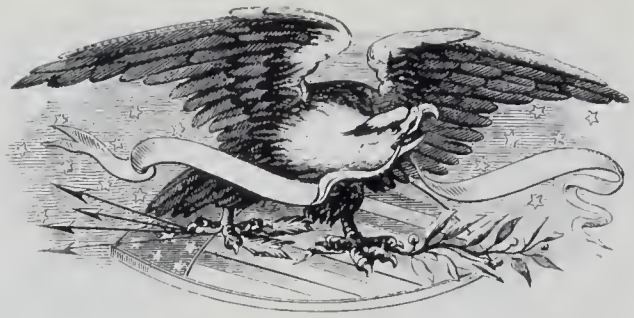

997 **1902 Choice Brilliant Proof.** 777 Proofs issued this year.

998 **1903 Choice Proof** with irregular light gray and golden toning. A superior specimen of this rare (only 755 Proofs made) year.

999 **1904 Brilliant Proof** with light toning just beginning to form. Some minor hairlines. Just 650 Proofs made this year.

Set of Quarter Eagles—Different Mints

1000 **Set of five quarter eagles illustrating the five different U.S. mints at which this denomination was struck.** The collection, housed in an attractive custom plastic display holder, comprises the following: (1) $2½ 1843-D Small date. VF-EF. Dahlonega Mint issue; (2) $2½ 1850-C Extremely Fine. Very rare. Charlotte Mint issue; (3) $2½ 1893. Choice Brilliant Uncirculated. Philadelphia Mint issue; (4) $2½ 1854-O Extremely Fine. New Orleans Mint issue; (5) $2½ 1878-S Very Fine. San Francisco Mint issue. An interesting and historically important collection. (Total: 5 pieces)

Set of Indian Quarter Eagles

1001 **Complete collection of Indian type quarter eagles, 1908-1929.** Mounted in display holder. This set contains the following: 1908 VF-EF; 1909 BU, rubbing; 1910 EF: 1911 EF, scratch on reverse; 1911-D Rare. Brilliant Uncirculated, rubbing; 1912 EF; 1913 Choice Brilliant Uncirculated; 1914 Brilliant Uncirculated; 1914-D AU; 1915 VF, scratches; 1925-D Brilliant Uncirculated; 1926 BU, light scratches; 1927 BU, rubbing; 1928 Brilliant Uncirculated; 1929 BU, rubbing. A scarce and beautiful set. (Total: 15 pieces)

COLLECTION OF 1908–1915
☆ PROOF $2½ GOLD ☆

We present in the following eight lots a complete collection of Gem Proof specimens of the Indian head quarter eagle series. With the solitary exception of 682 reported for the year 1910 (which may be in error, for 1910 quarter eagles do not appear on the market in this indicated frequency), mintages are miniscule. The attrition rate was very high for Proofs of this era, and only a small number survive. For example, of the 100 Proofs struck in 1915, we doubt if any more than 15 to 20 exist today, and of that number no more than a half dozen or so can equal the one we offer so far as quality is concerned.

This collection took many years to assemble. If you are a connoisseur of things beautiful in the field of American gold, this auction represents a really remarkable opportunity.

Gem Proof 1908 Quarter Eagle

1002 1908 Quarter eagle. Gem Matte Proof. 236 reported minted, of which just a few survive today. A superb specimen of the first year of issue of the Indian head quarter eagle design.

Gem Proof 1909 Quarter Eagle

1003 1909 Quarter eagle. Gem Satin Proof. With the Satin-type finish as used on Proof gold coins in the years 1909 and 1910 only. A superb specimen. Only 139 minted, of which only a few are known today.

Gem Proof 1910 Quarter Eagle

1004 1910 Quarter eagle. Gem Satin Proof. With the Satin-type finish as used on Proof gold coins in the years 1909 and 1910 only. A superb specimen. The *Guide Book* notes that 682 were minted, but this figure must be in error, for 1910 is as rare as its contemporaries so far as appearances on the coin market are concerned. Exceedingly rare.

Gem Proof 1911 Quarter Eagle

1005 1911 Quarter eagle. Gem Matte Proof. Superb condition. Only 191 were minted, and of this number just a few dozen exist today. Extremely rare and extremely important issue.

Gem Proof 1912 Quarter Eagle

1006 1912 Quarter eagle. Gem Matte Proof. Another superb piece. Only 197 were minted this year, and only a few are known to exist today. Likewise exceedingly rare and exceedingly important.

Gem Proof 1913 Quarter Eagle

1007 1913 Quarter eagle. Gem Matte Proof. Another superb Proof quarter eagle. 165 were reported minted, and only a few dozen survive today.

Note: Not since we sold the collection of Oscar G. Schilke about 15 years ago have we had the pleasure of offering a complete date run of Proof quarter eagles of the Indian head design.

Gem Proof 1914 Quarter Eagle

1008 **1914 Quarter eagle. Gem Matte Proof.** One of only 117 minted. We doubt if more than 10 or 15 of this number still exist. The present coin is superb and cannot be excelled.

Gem Proof 1915 Quarter Eagle

1009 **1915 Quarter eagle. Gem Matte Proof.** One of only 100 Proofs minted this year. A liberal estimate would be that 15 or 20 specimens of this issue may still exist, but appearances on the numismatic market belie this. It would be difficult to actually trace the existence of more than a dozen pieces outside of museums! A superb coin worth a runaway price.

U.S. Half Eagles

Set of Half Eagles—Different Mints

1010 Set of seven half eagles illustrating the seven different mints at which coins of this denomination were struck. Half eagles are the only denomination issued at so many mints. The collection contains: (1) $5 1857-C Extremely Fine. Rare. Charlotte Mint issue; (2) $5 1840-D EF-AU. Very rare. Dahlonega Mint issue; (3) $5 1881 Brilliant Uncirculated. Philadelphia Mint issue; (4) $5 1892-O BU, light rubbing. New Orleans Mint issue; (5) $5 1891-CC EF-AU. Scarce. Carson City Mint issue; (6) $5 1901-S AU. San Francisco Mint issue; (7) $5 1907-D BU, light rubbing. Denver Mint issue. In attractive display holder. A very beautiful set! (Total: 7 pieces)

1011 1908 $5 Indian. Extremely Fine.

1012 1908-D Brilliant Uncirculated.

Choice Uncirculated 1908-S Half Eagle

1013 **1908-S Choice Brilliant Uncirculated.** One of only 82,000 pieces minted of this issue; one of the rarest in the 1908-1929 Indian head series. Very few Uncirculated pieces are known to exist. An exciting coin!

1014 1909-D AU.

1015 1909-D Brilliant Uncirculated.

1016 1909-O Very rare New Orleans Mint issue. Only 34,200 were minted. Beautiful EF-AU.

1017 1909-S VF-EF.

1018 1910 Extremely Fine.

1019 **1910-D Brilliant Uncirculated.** A few minor handling marks.

1020 1910-S Choice Brilliant Uncirculated.

1021 1911 Extremely Fine.

1022 **1911-D Beautiful EF-AU. Rare issue. Only 72,500 pieces were minted.**

1023 1911-S Scarce. AU.

1024 1912 Brilliant Uncirculated, light rubbing.

1025 1912-S **Brilliant Uncirculated.**

1026 1913 AU.

1027 1913-S Extremely Fine. Some minor marks.

1028 1914 Brilliant Uncirculated.

1029 1914-D EF-AU.

☆ Celebrated 1907 With-Periods $10 ☆

1036 **1907 Saint-Gaudens Indian $10. Wire rim. Periods before and after E PLURIBUS UNUM.** Exceedingly rare; *only 500 were struck.* The present specimen is a **Choice Brilliant Uncirculated** example and is one of the finest known. Only rarely does a specimen come on the market in any grade. The appearance of a Choice Brilliant Uncirculated coin is a landmark event. This coin should attract the attention of collectors, dealers, and investors all over the world.

1037 **1907 No periods.** Saint-Gaudens type. **Brilliant Uncirculated.** A desirable coin for a type set. Scarce.

1038 1907 No periods, as preceding. Duplicate. AU, lightly polished.

1039 **1908 No motto. Brilliant Uncirculated** with light rubbing. Scarce and popular issue.

1040 1908 No motto. Duplicate. EF-AU.

1041 1908-D No motto. AU.

1042 1908 With motto. Brilliant Uncirculated.

1043 1908-D With motto. Brilliant Uncirculated.

Important 1908-S $10 Gold

1044 **1908-S Brilliant Uncirculated.** Some very minor and almost negligible friction on the higher points. An attractive specimen of this scarce issue.

1045 1909 Brilliant Uncirculated. Light rubbing.

1046 1909-D AU.

1047 1909-S AU.

1048 **1910 Choice Brilliant Uncirculated.** Not common in this pristine preservation.

1049 1910-D Choice Brilliant Uncirculated. Likewise uncommon so fine.

1050 1910-D Brilliant Uncirculated with light rubbing.

1051 1910-S Brilliant Uncirculated.

1052 1910-S Brilliant Uncirculated with light rubbing.

1053 1911 Choice Brilliant Uncirculated.

1054 1911-D Rare in all grades. Brilliant Uncirculated with light rubbing. Full original mint lustre in obverse and reverse fields.

1055 1911-S Rare. Attractive AU, with a goodly quotient of original mint lustre, especially in the fields.

1056 1912 Brilliant Uncirculated.

1057 1912-S AU.

1058 1913 Brilliant Uncirculated with light rubbing.

1059 1913-S AU. Scarce issue. Just 66,000 minted.

1060 1914 Choice Brilliant Uncirculated.

1061 1914-D VF-EF. Scratch on reverse.

1062 1914-S Choice Brilliant Uncirculated. Scarce so fine!

1063 1915 Brilliant Uncirculated with light rubbing.

1064 1915-S Gem Brilliant Uncirculated. A superb specimen of this rare issue. Only 59,000 pieces were minted. Certainly no known 1915-S can exceed this one in quality or desirability!

1065 1916-S Choice Brilliant Uncirculated. Very rare in this outstanding condition.

Famed 1920-S Eagle

1066 1920-S One of the rarest of all American gold coins, the 1920-S appears for sale only when great collections are dispersed. The present coin is a beautiful AU specimen or perhaps a bit better. The friction is mainly on the higher parts. The obverse field possesses nearly full original mint lustre, and the reverse field is virtually indistinguishable from that on a full mint state specimen. A very important opportunity for the specialist in American gold coins. One of the highlights of this collection.

1067 1926 AU.

*** Fantastic 1930-S $10 Gold ***

1068 **1930-S Choice Brilliant Uncirculated.** A really superb specimen of this, one of the rarest and most famous of all American ten-dollar gold coins. Only infrequently does a 1930-S in any grade come on the market. Even rarer still is the appearance of a Choice Uncirculated piece such as this. An outstanding coin worth an outstanding bid!

1069 **1932 Choice Brilliant Uncirculated.**

U.S. Double Eagles

1069A **Set of five double eagles illustrating the different mints at which coins of this denomination were struck.** In plastic display holder. Contains: (1) 1895 Brilliant Uncirculated. Philadelphia Mint issue; (2) **1876-CC Brilliant Uncirculated,** with usual bagmarks. Carson City issue; (3) 1907-D BU, light rubbing. Denver Mint issue; (4) 1851-O Extremely Fine. New Orleans Mint issue; (5) 1894-S Brilliant Uncirculated. Some bagmarks. San Francisco Mint issue. A very beautiful and significant set. (Total: 5 pieces)

Exceedingly Rare

Double Set of 1915-S Panama-Pacific Exposition Coins

1074 **Double set of 1915-S Panama Pacific International Exposition coins in original metal frame. Contains TWO specimens each of the half dollar, gold dollar, quarter eagle, octagonal $50, and round $50. Each coin is in Gem Brilliant Uncirculated grade.**

This set, in pristine condition as issued, is one of just four or five such double sets known to exist today. Its importance, both historically and numismatically, cannot be exaggerated. When sold, the set was officially billed as the *MOST NOTABLE SET OF COINS EVER ISSUED.* Numismatists today will agree that no other intact set ever offered by the United States government equals this one in desirability.

This set was purchased by a bank in late 1915 or early 1916 and comes complete with the original three-page offering circular (which is photographically reproduced on the following pages). It is noted that this set was offered for $400, which was double the price charged for the "usual" single-coin set at the time. Few double sets were sold. In fact, the double sets are so rare that most numismatists, even advanced dealers, have never even *seen* a set. Fewer double Panama Pacific sets have appeared on the market than have virtually any other rarity in the book: 1804 silver dollars, 1913 Liberty head nickels, and other "Numismatic Hall of Fame" legendary coins.

The offering of this double Panama Pacific set is a landmark in American numismatic history. So important and significant is this presentation that we include herewith additional historical information concerning the set and how it was issued. On three following pages are reproduced the original offering circular describing the Panama Pacific coins, and a story, *The Coin Outlasts the Throne*, which relives the flavor of the 1915 event and its most prominent numismatic personage, Farran Zerbe.

What this set will bring is up to you. "Ordinary" Panama Pacific sets in the original frame have fetched in the $20,000 to $25,000 range in recent months. There are no relevant sale records whatever for a double set. If one were to multiply the price of a single set times two one would come to $40,000 to $50,000 as a valuation, but this does not take into consideration that a double set is dozens of times rarer than a single set. When this lot comes up for bidding it will make numismatic history. And, the new owner will have one of the finest pieces of numismatic Americana in existence.

Lot 1074

Lot 1074 – The fabulous 1915-S double Panama Pacific set now offered

Note: On the following three pages we reproduce the original advertising circular for 1915-S Panama Pacific coins. The set illustrated is the "ordinary" framed set containing just one of each coin; the set we offer as Lot 1074 is the deluxe double set with TWO of each coin.

Panama-Pacific Commemorative Coins

To Bankers:

The notable series of coins that were authorized by Congress to commemorate the opening of the Panama Canal were produced at the San Francisco mint during the latter part of the year and have had a very successful distribution during the few months they have been on sale.

The novelty of designs, limited issue and denominations — particularly the $50 gold pieces, the first to be issued by our government—have made the series one of curiosity and popular interest that has been appreciated by banks for the local commendation and publicity a display of a set commands.

The limited number of sets that remain are now offered to banks in a special and rich display case (with hang-up and easel back) as illustrated and priced herein. Your consideration is requested for a set of these coins for your bank, not only from the immediate advantage to come from the publicity to be commanded but as a permanent possesion of the bank that should enhance in value and interest since the issue is limited to not over fifteen hundred sets. Special descriptive matter for local press will be sent.

The prices as established will be maintained and any remainder will be destroyed at the mint. The sale will be continued for the distribution of the remainder — but not later than the close of the post-Exposition period, May 1st, 1916.

Coins will be forwarded by prepaid insured carrier and remittance need not be made until coins are received. Make remittance payable to Panama-Pacific International Exposition Coin Department. Your commissions will have our prompt and careful attention.

THE STORY OF FARRAN ZERBE AND THE PANAMA PACIFIC COINS

This article, originally titled "The Coin Outlasts the Throne," was written by Frank Morton Todd and published in 1921 in Volume IV of "The Story of the Exposition." Farran Zerbe's numismatic accomplishments were many and included the presidency of the American Numismatic Association, the adoption of the 1921 Peace design silver dollar, and the formation of an extensive collection of coins which later became the Chase Manhattan Bank Money Museum exhibit. Today the highest award given by the American Numismatic Association, the Farran Zerbe Award, bears his name. This article presents a contemporary view of one of the most colorful individuals in American numismatics.

Farran Zerbe was once a newsboy in Tyrone, Pennsylvania. He had a bank account. He was very proud of it, and proud also of the accuracy with which he made out his deposit slips and conducted his other small transactions. One day he took in change a queer piece of money. It was a silver coin about the size of a dime, and it bore odd, misspelled words, which to the gimlet-eyed newsboy meant nothing. There was upon it, however, the legend "50 CENT." So it was a half dollar, although a bit stunted in its growth, and he counted it for a half dollar and tried to deposit it for a half dollar.

But the cashier said, "What are you trying on us, Farran? You're 50 cents short. And you've got a piece of French money here. That's no good in our country."

Farran Zerbe was a numismatist, but he didn't know it yet—and wouldn't have known the difference between a numismatist and a counterfeiter. That was the first time it had come to his attention that there were more kinds of money than Uncle Sam made, and he was a bit incredulous. If there had been any other kinds, of importance, people would have known about them and they would have circulated on the streets of Tyrone, Pennsylvania; but he had never heard of any. Yet there was his troublesome dime, marked "50 CENT." when it wasn't. He had an itching curiosity to know how it had come about.

He began to ask questions. The cashier was glad to answer them. Then Zerbe began to read everything he could get hold of about coins and medals and the strange things people had used in primitive stages of civilization as media of exchange. He got acquainted with those people, ancient and modern. Being a numismatist involved a great deal he had never contemplated. It was worse, really, than being a philatelist! It led him into strange fields. He could never read Old Sleuth like the other boys; he was sleuthing through translated Hesiod, trying to find out what the ancient Greeks used for money, and why they did.

Being a numismatist he became a geographer, an anthropologist, an archaeologist, an historian, an economist, a student of governments, and political systems, and religions, and mythology, and symbolism, and heraldry, and art. He collected coins, currency, medals. He corresponded with scholars and societies of scholars. He became president of the American Numismatic Association, a member of the United States Assay Commission, and publisher of *The Numismatist.*

For Farran Zerbe, that 50-centime piece was the gateway into a broad and liberal intellectual life, a life of absorbing, unending interest; and money in general became, not riches, nor especially a thing to buy luxuries or liquidate debts, nor yet a thing to propagate, but a documentary record of the progress of man and the stages of his civilization at different epochs. Coins were imperishable metal documents and types of art indicative of the refinement and mental energy of the nations producing them. The money of civilized peoples became a chain reaching back, unbroken, 3,000 years, correcting history and contributing to it; and reaching back with some breaks and interruptions not yet linked up, for 2,000 years more.

Zerbe never cared to acquire a coin or a medal for its rarity, but only for what it could tell. In spite of that limitation his collection grew very large. Because of that limitation it became one of the notable collections of the world. He could tell you things about coins and medals you never thought of before; trifling things that might become clues to lost episodes in the lives of nations, economically fundamental things about the essential nature of a medium of exchange, the persistent element of popular valuation found in all media of exchange from the plough beasts of Ulysses to California "slugs." He knew the mintmarks and the marks of the great coin designers. He knew the delight the scholar derives from getting hold of a contemporary portrait of Caesar or Alexander, passed by the sitter and stamped by the government; and how when such a portrait is a good piece of art it authenticates the genius of a people that could breed artists capable of such work.

He added some notable borrowings to his collection and brought them all to the Panama Pacific International Exposition in San Francisco in 1915. The exhibit was installed in the Palace of Liberal Arts, in which department it belonged under the classification, making as a whole the greatest index to money ever collectively displayed, and the most noteworthy numismatic exhibit ever seen at an American exposition.

There were about 20,000 original specimens of what man at

the main stages of his evolution and in all known countries has used as money, and the whole collection represented a one time value of at least $50,000,000.00 . . .

There were clay tablets of accounts from Nippur, constituting a record of values measured in labor, love, stock, and grain. There were implement-shaped metal pieces from China, meant to be the fixed price of the article represented, for even in ancient times people befuddled themselves with the supposition that government could fix prices permanently—a knife-shaped coin, for example, standing for the the price of a razor, but without power to enlarge or diminish itself in response to the ever changing relation of razor supply and demand. A similar idea and use of such original token money was found among the Aztecs, indicating either some early connection between the peoples of the two continents or else a mere, common coincidence of fallacious ideas.

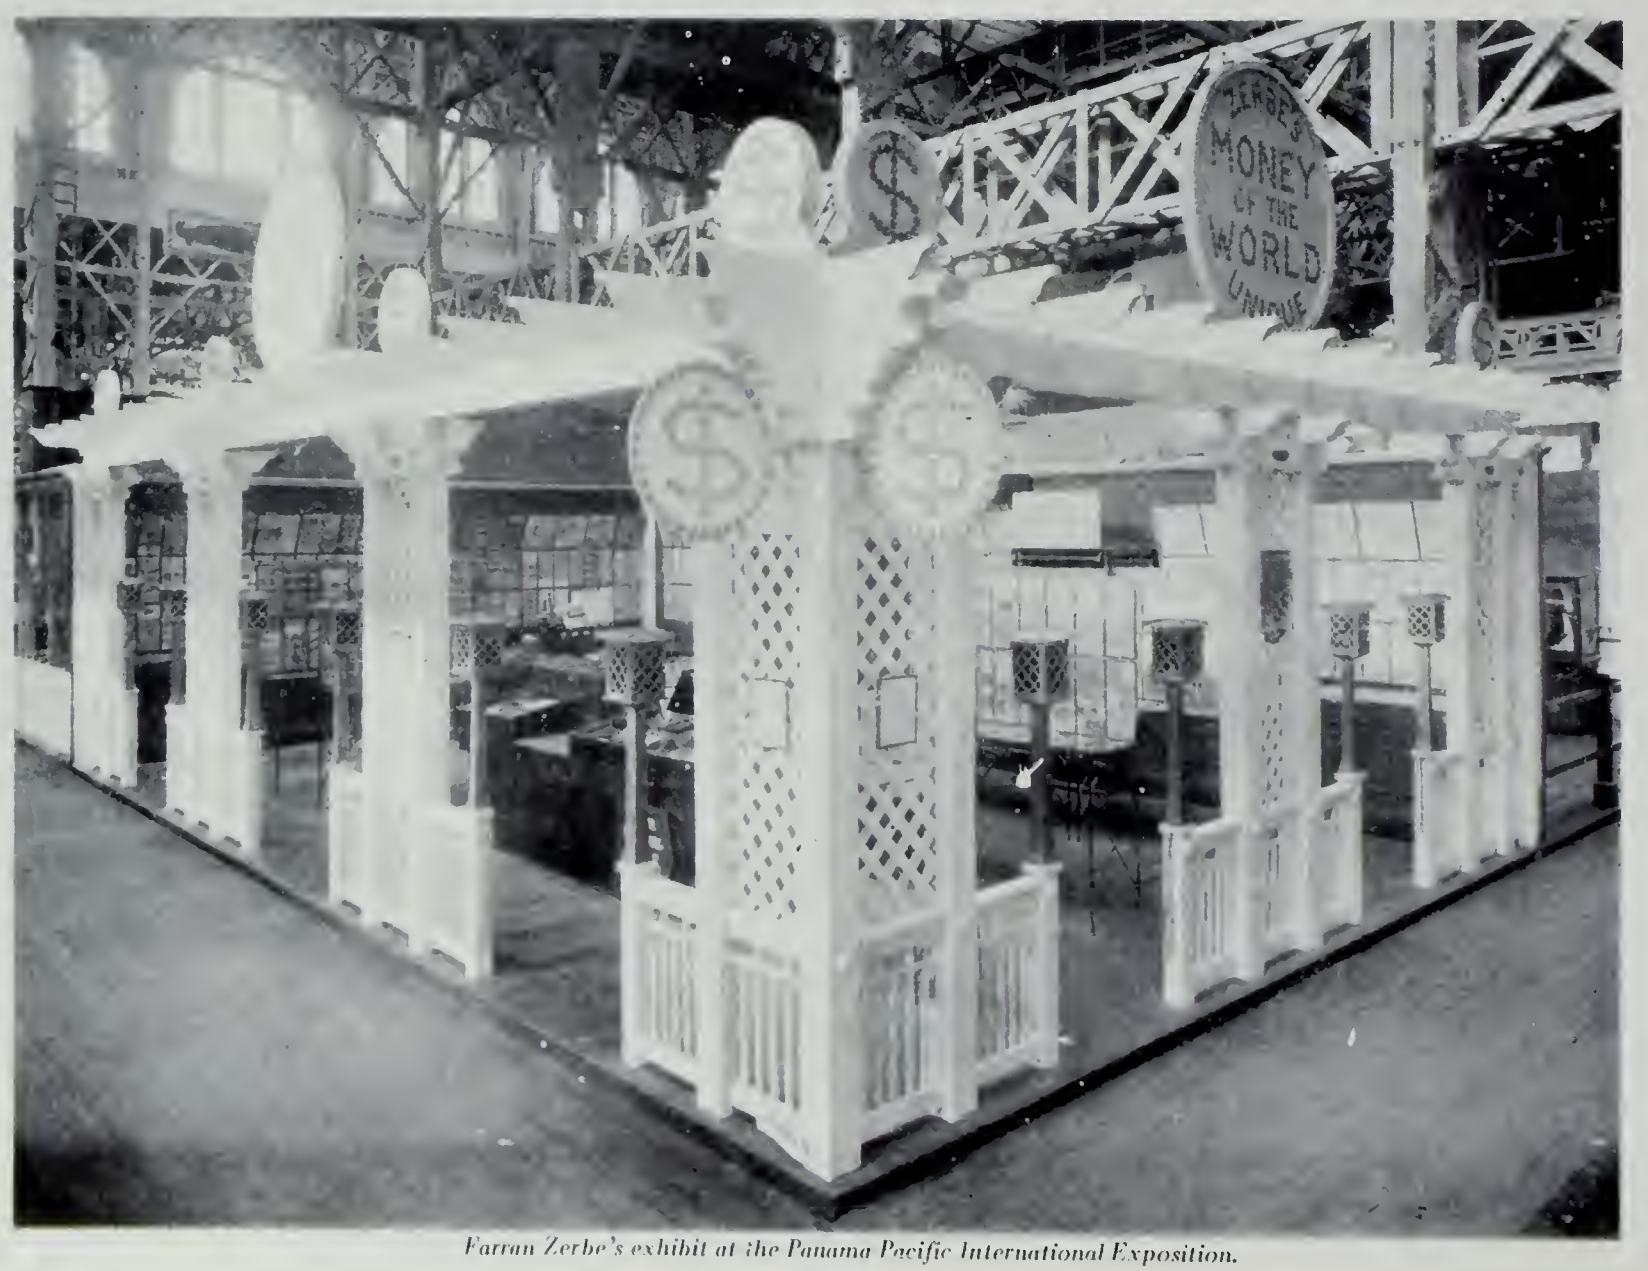

There were "plugs" of brick tea, stamped by the Russian Government, notched so they could be broken into small change, and circulated among the peoples of Tibet; long black strips of licorice-soaked tobacco, pierced so they could be strung for necklaces, made in Petersburg, Virginia, and circulated as money in certain South Pacific islands, where they would buy more than anything else you could take there; a slab of copper two feet long, a foot wide, and an inch or so thick, which was once eight dollars in Sweden; and gold coins of some Indian state that were no larger than a pinhead. There was leather money, paper money, shells, wampum of all descriptions, rubber money, condensed milk money, bone, fiber, clay, coal, glass, cloth, and pasteboard, and there were linen notes, and iron coins in the shape of fish hooks and musket balls. There were Russian platinum coins minted when platinum was so little valued that it was thought only good to make jitneys with. There was every kind of wildcat note, including the money of John Law and his Mississippi Bubble. There were interesting historical and financial documents—checks of many presidents, from Washington to Lincoln. There was a check for half a cent, and a photograph of the Government voucher for $40,000,000.00 in payment for the French interests in the Panama Canal. There were notes redeemable in rum. And there were private coinages such as the 50-dollar slugs of California, beaver coins of Oregon, Mormon issues of Utah, and the Beehtler coins of the South.

There were coins here that showed something about the art, architecture, mythology, religion, sports, and pleasures of every period of Greece in her glory, and Rome in her fall. The deterioration that followed the universal tragedy of a dead empire was reflected in the barbarous erudities of the coins of the Dark Ages. There was siege money in all its variety; the devices of besieged cities to carry on business in spite of war. It told sometimes of lost causes, of nations going down; it suggested civilizations destroyed and forgotten.

The collection aroused great interest in the subject of numismatics, and well it might. It was one of the most definite educational factors of the Exposition.

The Exposition Coins and Medals

On the basis of federal legislation the Exposition instituted an official Coin and Medal Department, and put it under the

Farran Zerbe's exhibit at the Panama Pacific International Exposition.

direction of Farran Zerbe. The Act of Congress provided that a series of commemorative medals, a souvenir medal, the award medal, and the diplomas, were to be produced by the Government and delivered to the Exposition at face faine for the coins and at cost for the other items . . . The Secretary of the Treasury was authorized to obtain suitable designs; but the Exposition had no voice in the selection of them, and did not know what the coins would look like when they were finally delivered.

Owing to the lateness of the date on which the Act of Congress was passed—January 16, 1915—it was impossible to have any of the coins produced until about three months after the opening of the Exposition. In order to have them then, dies for the gold dollar were made by a private concern at the Exposition's expense, and they were probably the first United States coin dies to be made by other than Government employees since the practical organization of the Mint . . .

In spite of the delay, the Coinage Department took in $179,506 in the Exposition period, and $51,966 in the post-Exposition period. The whole net return of the Exposition's coin and medal business after deducting the cost of materials and all administration came to $65,555.09.

Striking the $50 gold coins at the San Francisco Mint in 1915.

60,000 commemorative half dollars were coined, of which 34 were reserved for assay. Of the 59,966 pieces available, 27,100 were sold and 32,866 were destroyed later at the Mint. 25,034 gold dollars were coined, of which 34 were used for assay and the balance all sold. 10,017 $2.50 gold pieces were struck of which 17 were used for assay, leaving 10,000 available. Of these 10,000 there were 6,750 sold and the rest, 3,250 pieces, were melted.

There were 1,509 of the octagonal $50 pieces made of which 9 were used for assay, 646 were actually sold and 854 went to the melting pot. There were 1,510 round $50 gold pieces including 10 for assay. Just 483 were sold. 1,017 were melted . . .

All of the commemorative Exposition coins were struck at the San Francisco Mint and bear the "S" mintmark . . . For the coining of the $50 pieces a special hydraulic press weighing 14 tons, with a striking power of 450 tons, ordinarily used at the Philadelphia Mint for striking medals, was delivered to the San Francisco Mint.

The striking of the first octagonal 50-dollar gold piece, the largest coin ever authorized by the Government, and the first of any other shape than circular, was made a notable occasion at the Mint, as the passage of an act authorizing it was a rare tribute to California and the Exposition. The Superintendent, Mr. T.W.H. Shanahan, extended invitations to various dignitaries and to members of the American Numismatic Association, to be present at eleven o'clock on the morning of June 21, 1915, when the first of these coins was struck.

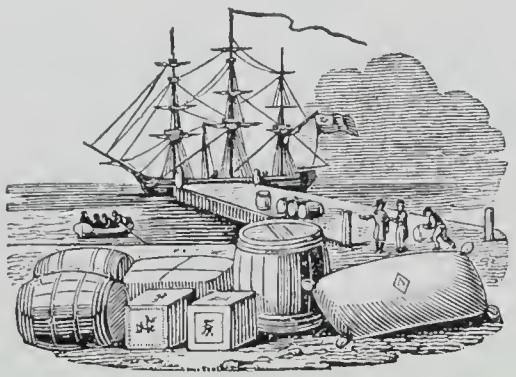

Supt. Shanahan produced the first piece, saying that he was about to strike the first 50-dollar coin ever issued under authority of law in the United States . . . He then pulled the lever and handed the resultant coin to Mr. Moore for inspection. Moore then operated the lever for the second piece, and other members of the party took their turns at making money, keeping up the delightful exercise until lunch time . . .

The various commemorative coins were in good demand. Advance orders amounted to a sales volume of $40,000. Prices were: half dollars, $1 each or 6 for $5. Gold dollars, $2 each, or 6 for $10. $2.50 gold pieces, $4 each, or 6 for $20. $50 gold pieces, either shape, $100 each. Complete sets mounted in metal frmaes or leather cases sold for $200. That both shapes of the $50 pieces were of the same design was a disappointment and in many cases limited the sale to one coin. On this account, towards the end of the Exposition, sets with choice of one $50 piece were sold at $100 each.

Many sales were made to banks throughout the country. Usually they were of sets mounted in metal (copper) frames . . . With the close of the Exposition this exhibit was moved to the Palace of Fine Arts where it looked very much at home and continued as a sales agency for the Exposition over the post-Exposition period to May 1, 1916. The Department was continued on a mail order basis down to November 1, 1916, when, at the request of the Exposition and by authority of the Secretary of the Treasury, the coins remaining unsold were returned to the Mint and destroyed.

ADDITIONAL IMPORTANT CONSIGNMENTS

We present additional important United States and related coins—including colonials, gold coins, patterns, medals, and other desiderata.

U.S. Colonial Coins

Rare 1652 Willow Tree Shilling

1075 **1652 Massachusetts Willow Tree shilling.** Noe 1-A. Weight: 56.0 grains. Condition as illustrated: Good to Very Good, displaying the usual striking characteristics, and with evidence of edge clipping. Approximately half of the tree is discernible, the date is very bold, the denomination is legible, and other devices appear as per the accompanying photographs.

Of the major types of New England coinages, the "NE" series, Willow Tree series, Oak Tree series, and Pine Tree series, the Willow Tree issues are by far the most elusive. The appearance of a Willow Tree shilling in *any* grade is a major numismatic event. The Kensington Collection sale is an auction of superlatives, so it is perhaps fitting that it includes *two* specimens! The present coin, Lot 1075, should sell for a high four-figure price, although in comparison to American coins of later years, a Willow Tree shilling in even the lowest grade should be a five-figure item!

Note: See our comments under Lot 216 for information concerning the history and striking of the Willow Tree pieces.

THANK YOU FOR YOUR PARTICIPATION!

1076 **1652 Massachusetts Pine Tree shilling.** Noe 29. Small planchet. Weight: 69.9 grains. Nice **Very Fine** or a bit better. On a well-rounded planchet. Of very pleasing overall aspect, the only negative being a tiny scratch hidden in the upper part of the conifer. An ideal coin for the collector who desires a really beautiful Pine Tree shilling, but who want's something which isn't in the price range of the "finest known" category.

Famous 1658 Lord Baltimore Fourpence

1077 **1658 Cecil, the second Lord Baltimore, fourpence or groat.** Basically **Very Fine**, but with some slight weakness as illustrated. Holed and plugged near the top border which, for some reason, is nearly always the case with this denomination (as nearly all known specimens are holed and plugged in this manner, perhaps their original distribution was as gifts on a bracelet—or perhaps there is another explanation other than happenstance).

The fourpence or groat is the rarest of the three silver denominations produced in England and distributed in America by the "Lord Proprietor of Maryland." (The other denominations are the sixpence and shilling.)

An extremely rare and extremely important coin. Worth a good price!

1078 Group of miscellaneous colonial coins: (1) 1760 Voce Populi halfpenny. Fine. Porous; (2) 1773 Virginia halfpenny. Period after GEORGIVS. VG; (3) 1783 Nova Constellatio. Pointed rays. Small U.S. Very Fine. (Total: 3 pieces)

Celebrated 1785 Immune Columbia/Vermont

1079 **1785 Vermont copper with IMMUNE COLUMBIA reverse.** Ryder 1. This, the most distinctive coin in the Vermont series of nearly 40 different die varieties, is the combination of a Vermont obverse with the reverse of the IMMUNE COLUMBIA copper. The coin is believed to have been a product of Machin's Mill near Newburgh, New York, at which location other related issues including other IMMUNE COLUMBIA varieties, New York coinages, etc. were produced. The coin is in **Good** grade as illustrated. As is the case with all known specimens of Ryder 1, the piece is struck on a planchet which

is too small for the design. In addition, the reverse die was not properly aligned with the obverse, with the result that the obverse is normal while the reverse appears to be off center. A few surface scratches are here and there, including the number 112 which is lightly pin scratched on the cheek.

The piece, while ostensibly in low grade, really isn't in low grade *for a coin of this variety*—as the Vermont specialist knows. These pieces were carelessly produced under primitive circumstances, as the related Ryder 13 (Vermont/BRITANNIA copper), also produced by the facile Capt. Machin, evidences.

An exceedingly important coin. Usually *years* will pass between offerings of a 1785 Vermont/IMMUNE COLUMBIA copper at auction.

1080 1785 Vermont. R-4. With VERMONTIS spelling on the obverse. **Very Fine to Extremely Fine.** Struck on a nice planchet which is remarkably free from defects. Some light weakness of striking at the top obverse and corresponding part of the reverse. All in all, an outstanding specimen of Ryder 4. Not one in ten VERMONTIS coppers is so well struck and not one in 20 or 30 is in equal grade.

Note: The Vermont coiners had difficulty deciding on the latinization of "VERMONT." Early coppers bore such variations as "VERMONTS," "VERMONTIS," and the cumbersome "VERMONTENSIUM."

1081 1786 Vermont. R-7. With VERMONTENSIUM spelling on the obverse. Attractive sun-peeping-over-forested-ridge design which so perfectly typifies the landscape of the Green Mountain State. **Very Fine.** Several old scratches are visible under close scrutiny. Struck on a superb planchet free of all—yes, all—defects. (Remarkable!)

1082 Trio of Vermont coppers: (1) 1787 Bust right. Ryder 12. Very Good; (2) 1787 Bust right. Ryder 14. F-VF. Planchet defect on reverse, as struck; (3) 1788 Bust right. Ryder 27. Very Good. (Total: 3 pieces)

1083 Date set of Connecticut coppers: (1) 1785 Bust facing right. Abt. Fine; (2) 1786 Mailed bust left. Very nice Fine. Exceptionally clear; (3) 1787 Draped bust left. Very Good; (4) 1788 Mailed bust left. Very Good. (Total: 4 pieces)

Rare 1786 Non Vi Virtute Vici Copper

1084 **1786 New York NON VI VIRTUTE VICI copper.** Obverse with portrait (believed by some to be George Washington) facing right. Legend NON VI VIRTUTE VICI surrounds. Reverse with stylized figure of Columbia seated on merchandise. Legend NEO-EBORACENSIS ("New York") surrounds, with 1786 date below.

The present coin is in **VF-EF** grade, weakly struck at the centers, as illustrated. The planchet is a pleasing light brown. The coin is virtually perfectly struck, apart from the aforementioned center weakness, and displays the lettering, border denticles, and other non-central devices remarkably sharply.

Approximately 15 to 20 specimens are known of this variety. Only when great collections come on the market does an example of the 1786 Non Vi Virtute Vici copper appear. Here is a remarkable opportunity for the colonial specialist or museum.

1085 Pair of Massachusetts coppers: (1) 1788 half cent. F-VF. Some verdigris; (2) 1788 Cent. Abt. Fine. (Total: 2 pieces)

1086 1787 Fugio cent. New Haven restrike in copper, utilizing an original die (but never used in 1787; apparently the die was made but not needed at the time) with narrow rings on the reverse. Copper. EF-AU.

1087 1783 Washington. Small military bust. Plain edge. Pleasing Extremely Fine.

1088 1783 Washington. UNITY STATES cent. Extremely Fine. Struck on a planchet with a series of parallel lines or striations (as is always the case with genuine specimens of this issue)

Note: The UNITY STATES cent was made early in the 19th century to honor President George Washington. The diecutter used the reverse of a circa 1803 large cent as his inspiration, but being aware of the counterfeiting laws, deliberately changed UNITED to UNITY. The pieces were made in fairly large quantities and saw extensive circulation in their time, for nearly all known specimens show quite a bit of wear. In fact, we have never seen a coin with original mint lustre on it and doubt if same exists.

1089 Group of Washington pieces: (1) 1783 UNITY STATES cent. VF; (2) 1783 UNITY STATES cent. Another. F-VF. Weak in areas; (3) (1795) undated LIBERTY AND SECURITY penny. G-VG. (Total: 3 pieces)

Prooflike (1795) Washington Penny

1090 (1795) **Washington penny. LIBERTY AND SECURITY. Undated. Choice red and brown Uncirculated with prooflike surfaces.** A very early die state with virtually all the characteristics of a Proof. Possibly issued as a *presentation piece*. A very remarkable coin, and one which joins two other remarkable pieces in this Kensington Collection sale "catalogue of catalogues." Refer to Lots 261 and 262 for additional information.

Probably never again in numismatic history will the discriminating numismatist again see such an opportunity as is at hand here now!

UNITED STATES COINS
—of—
VARIOUS DENOMINATIONS

1091 **U.S. half cents.** Group of various issues: (1) 1805 Small 5, stemless. Very Good; (2) 1826 Good; (3) 1828 12 stars. VG-Fine; (4) 1849 Large date. Very Fine; (5) 1853 AU; (6) 1856 Very Fine. Edge bump. (Total: 6 pieces)

1092 **1c. 1857 Large cent. Large date. Choice Brilliant Uncirculated with full blazing red surfaces.** Among large cents of the 1850's, those dated 1857 have always been difficult to locate in full mint state. Fifty or a hundred 1855 Uncirculated cents appear on the market for every comparable 1857, and even then the 1857 isn't likely to equal the 1855 in quality. The present offering is very remarkable. The coin catalogues $300 in the *Guide Book*, but unless we miss our guess, that $300 figure will bear no relation to the coin's selling price. It will be interesting to see what it sells for!

1093 **1c. 1857 Flying eagle cent. Choice Uncirculated** with orange-gold toning around the periphery.

1094 **1c. 1922 "Plain." Choice Uncirculated. Full mint red fading to rich brown.** A couple of trivial spots keep this out of the Gem class. At a recent convention our Kansas City dealer friend Joe Flynn had a full mint red (without toning) piece priced at $4,500 with the comment that he had heard that another comparable piece in the hands of another dealer received a bid or offer of $7,500. The coin we are now offering is not the equal of the Flynn specimen, but still it should sell for somewhere between the *Guide Book* value of $1,100 and the $4,500 figure.

1095 **1c. Group of Matte Proof Lincoln cents.** A date run of these scarce issues. Contains: (1) 1910 Choice toned Matte Proof; (2) 1911 Choice toned Matte Proof; (3) 1912 Toned Matte Proof with a few tiny spots; (4) 1913 Choice toned Matte Proof; (5) 1914 Gem Matte Proof.

Pristine unspotted Matte Proofs are exceedingly rare, and nearly all spotless pieces now on the market are that way by virtue of having been cleaned. The preceding coins are happy exceptions. (Total: 5 pieces)

1096 **25c. 1919-S Gem Brilliant Uncirculated.** 70% full head. An outstanding specimen of one of the most elusive varieties among 1916-1930 Liberty standing quarters.

1097 **25c. 1921 Choice Brilliant Uncirculated.** 80% full head. An extraordinarily sharp specimen of this date, one which is usually found very weak.

1098 **50c. 1815/2** Overton-101. The 1815/2 is the most desired single date among 1807-1836 lettered edge bust type half dollars. The present coin is a beautiful AU example with light toning around the periphery. Abundant traces of original mint frost can be seen in the protected areas of the coin's design and even in some areas of the fields. A truly magnificent specimen of this rare issue.

1099 **50c.** Group of Liberty seated half dollars. A nice run of dates for the specialist: 1842 Medium date. Extremely Fine; 1853 Arrows at date, rays on reverse. Extremely Fine; 1858 Extremely Fine; 1868 EF-AU; 1873 Arrows. Extremely Fine; 1875 EF-AU; 1876-S EF-AU; 1877-S AU; 1878 EF. (Total: 9 pieces)

Outstanding 1799 Silver Dollar

1100 **$1. 1799** Bolender-6. Rare (Rarity 5) variety. Very beautiful AU or a shade finer, with nearly full original mint lustre on reverse and about 50% to 60% original mint frost on the obverse. A really outstanding combination of quality and rarity. Worth a generous bid!

1101 **$1 Trade. 1875-CC Brilliant Uncirculated.** Very close to the *Choice* category. Struck from Comstock Lode silver. Scarce in this high grade.

U.S. Gold Coins

We present a choice grouping of United States gold coins highlighted by a remarkable specimen of the 1879 flowing hair Stella and including desirable coins from dollars to double eagles.

1102 **$1 Gold. 1849 Open wreath.** First style in the Type I series. Extremely Fine.

1103 **$1 Gold.** Trio of gold dollars: (1) 1851 VF; (2) 1851 VF. Another. (3) 1852 EF. (Total: 3 pieces)

1104 **$1 Gold.** Group of gold dollars: (1) 1851 VF; (2) 1851 VF. Another; (3) 1852 EF; (4) 1854 Type I. EF. (Total: 4 pieces)

1105 **$1 Gold. 1853** Brilliant Uncirculated with rubbing.

1106 **$1 Gold. 1854 Type II.** Rare. Nice Extremely Fine. Tiny nick on rim at lower obverse. A popular coin for type sets.

Uncirculated 1855 Gold Dollar

1107 **$1 Gold. 1855** The rare Type II design. Beautiful **Brilliant Uncirculated** with full original mint frost on obverse and reverse. Microscopic planchet defect at A of STATES. Lightly struck at 8 of 1855 date, as is nearly always the case. All in all, a top grade 1855 dollar of a quality with relatively few equals. Rare!

1108 **$1 Gold. 1855** Beautiful Extremely Fine with some claims to AU. A nice type set item.

Very Rare 1857-D Gold Dollar

1109 **$1 Gold. 1857-D** Rare Dahlonega Mint issue. Only 3,533 were coined. The present example is one of the finest known pieces and is a sharp EF-AU coin. Worth a strong bid!

1110 **$1 Gold. 1857-D** Another example of this elusive Dahlonega Mint issue. Very Fine. A small rim cut is above the F in OF and on the corresponding part of the reverse.

1111 **$1 Gold.** Trio of gold dollars: (1) 1859 Extremely Fine. Tiny but nasty scratch on reverse; (2) 1873 Open 3. Extremely Fine. Solder mark on rim, from the piece having been used as jewelry years ago; (3) 1874 Brilliant Uncirculated with barest rubbing. A very nice coin! (Total: 3 pieces)

Virtually Uncirculated 1860-D Gold Dollar

1112 **$1 Gold. 1860-D** Exceedingly rare Dahlonega Mint issue. Only 1,566 pieces were minted, and only a few dozen survive today in all grades. This is one of the finest known examples. From the standpoint of wear it would be fair to describe the coin as virtually **Uncirculated**, with the only thing separating it from full mint state being some slight friction on the higher areas. However, 1860-D is notorious for its indifferent striking. All known examples display weakness of impression in one or another area. The present coin is lightly struck at UN of UNITED on the obverse and the corresponding spot (which, fortunately, is an area without inscription in the design) on the reverse. The two central date figures are also a bit lightly impressed, although no differently from most others of this variety which exist today. A prize opportunity for the American gold specialist.

Note: Acquired from Texas dealer B. Max Mehl many years ago, probably in the 1920's.

1113 **$1 Gold. 1882 Gem Brilliant Uncirculated, prooflike.** A superb coin which was undoubtedly set aside for presentation or some special purpose at the time of issue. Rare so fine!

1114 **$1 Gold. 1883 Gem Brilliant Uncirculated.**

1115 **$1 Gold. 1889 Brilliant Uncirculated** but with a number of fine pin scratches on the surfaces.

1116 **$2½. 1838** Very Fine.

1117 **$2½. 1839-O** Only New Orleans Mint issue of the *Classic Head* style. 17,781 minted. EF-AU. Lightly but not detrimentally cleaned.

1118 **$2½. 1841-C** Rare Charlotte Mint issue. Very Fine.

Note: The desirability of 1841-C and 1841-D, each rare in its own right, is enhanced by the fact that 1841 Philadelphia quarter eagles are for all practical purposes unobtainable.

1119 **$2½.** A nice date selection of Liberty head quarter eagles ranging from the early years to the 20th century. This very select lot contains: 1843-O Small date, crosslet 4. VF; 1852 VF; 1856 EF; 1871-S VF; 1873 EF; 1902 AU; 1903 AU; 1907 EF; 1907 Another. BU, rubbing. (Total: 9 pieces)

1120 **$2½. 1851-C** Rare Charlotte quarter eagle issue. 14,923 coined. Extremely Fine, but with two groove-like planchet defects on the obverse. Better than the printed description indicates.

BID WITH CONFIDENCE

We invite you to bid by mail. Over the years thousands of buyers have found this the ideal way to add to their collections. Complete details are given on page 2 of this catalogue.

1121 **$2½. 1882 Choice Brilliant Uncirculated.** A simply *superb* specimen of this very rare date. Only 4,067 were minted, and no more than a dozen or two business strikes could survive today in this superlative condition. An exciting coin!

1122 **$2½. 1904 Gem Brilliant Uncirculated.** Rare so fine.

1123 **$2½. Complete collection of 1908-1929 Indian head quarter eagles.** A nice group mounted in a plastic display holder. Contains: 1908 EF; 1909 EF; 1910 EF; 1911 EF; 1911-D AU; 1912 AU; 1913 EF; 1914 EF; 1914-D AU; 1915 EF; 1925-D AU; 1926 AU; 1927 AU; 1928 AU; 1929 AU. (Total: 15 pieces)

1124 **$2½.** A nice group of Indian head quarter eagles, including duplicates, for the gold buyer: 1908 EF; 1909 EF; 5 pieces 1912 EF; 1913 AU; 2 pieces 1913 EF; 1914 EF. (Total: 11 pieces)

1125 **$2½.** Another desirable grouping, including duplicates, of quarter eagles of the Indian type: 1914 EF; 1915 AU; 1925-D AU; 3 pieces 1926 AU; 1927 Choice Brilliant Uncirculated; 2 pieces 1927 AU; 1928 AU. (Total: 10 pieces)

1126 **$3. 1854** First year of issue, and the only year with the word *DOLLARS* in small letters. Sharp and attractive AU.

Incredible, Magnificent 1854-D $3 Gold

1127 **$3. 1854-D** Here is one of the most *incredible* coins in this catalogue; a once-in-a-generation item. It is an 1854-D three-dollar gold piece in **Brilliant Uncirculated** grade with just the slightest friction. The coin is *sharply struck*, possesses nearly full original mint lustre, and is far and away the finest 1854-D we have ever seen, offered for sale, or have even heard of! It isn't perfection, to be sure, but it comes closer than any other of which we have knowledge. There are a few scattered handling marks here and there and a nick or tiny cut below R of AMERICA on the obverse.

While the importance of this 1854-D will be immediately recognized by the gold specialist who will acclaim it to be one of the finds of the century, the uninitiated may wonder what all the commotion's about. After all, Uncirculated 1854-D $3 pieces are priced in the *Guide Book* at $10,000. Is this 1854-D just "another" $10,000 coin deserving of an appropriate number of lines of print just because of its value? No, the 1854-D is not just "another" $10,000 coin. In fact, we don't know what its value is, for, to our knowledge, *no other like it has ever been sold on the open market.*

In our opinion, the Uncirculated listing in the *Guide Book* was placed there out of "tradition," not because sale records

exist. Here is what others say:

The new 1976 edition of *Scott's Catalogue and Encyclopedia of U.S. Coins*, written by Don Taxay, one of America's most prominent numismatic scholars, states forthrightly: "Unknown in Uncirculated; very rare in Extremely Fine grade." That's right, ***unknown in Uncirculated.*** (Don Taxay was not aware of the specimen we offer here, but he did intensely survey museums, sale catalogues and other sources.)

In his monograph, *Major Varieties of the United States Three Dollar Gold Pieces*, Walter H. Breen has written (we excerpt for brevity): "These are usually miserably struck, weak on head, date, and borders . . . Two Extremely Fine specimens are recorded, together with a couple of Very Fines; the rest are more worn and there is not even a rumor of a mint state specimen . . ."

So, ladies and gentlemen, there is the numismatic evidence, and here is the coin. Now it's up to you.

1128 **$3. 1854-O** The only New Orleans Mint $3 gold issue. VF-EF. Scarce and popular.

1129 **$3. 1854-O** A virtually precise duplicate of the preceding. VF-EF.

1130 **$3. 1855-S** Rare San Francisco Mint issue. 6,600 minted. Very Fine.

1131 **$3. 1859.** Extremely Fine. Three little "digs," surrounded by tiny scratches, above the 3 on the reverse.

1132 **$3. 1861** Rare date. Only 6,072 minted. AU+. A beautiful, sharply-struck coin with prooflike surface.

1133 **$3. 1861** A duplicate of this rare date. Lovely AU with plenty of original mint frost.

1134 **$3. 1864** Beautiful EF-AU. Very rare in all grades, for mint records indicate that only 2,680 of this date were struck.

1135 **$3. 1866** Rare date. Extremely Fine, but with slight waviness in fields from having been bent at one time.

1136 **$3. 1868** Rare. Only 4,875 minted. AU. Tiny lintmark below ME of AMERICA. Nearly complete original mint frost.

1137 **$3. 1868** Another specimen of this rarity. Nice EF-AU.

1138 **$3. 1874 Brilliant Uncirculated** with light rubbing. Prooflike surface. Attractive!

1139 **$3. 1874** AU. A nice type set coin.

1140 **$3. 1874** VF to EF, closer to Very Fine.

1141 **$3. 1874** Very Fine, but with granular surface due to "sweating" to remove solder. The coin was once used as jewelry. A filler.

Exceptional 1879 Flowing Hair $4 Stella

1142 **$4. 1879 Flowing hair Stella.** An exceptionally nice **Choice Proof** example of the type usually referred to by cataloguers as an *original.* Weight: 108.3 grains; higher surfaces free of striae and adjustment marks. This is one of the finest 1879 flowing hair Stellas to appear on the market in recent years. Only a few trivial marks keep it out of the *Gem* category. If you have been desiring a really elite specimen of one of America's most famous rarities, give this coin your close consideration. It is truly beautiful!

Note: A brief history of the $4 gold piece is given in U.S. Patterns, *by Dr. J. Hewitt Judd:*

The four-dollar piece was first suggested as an international coin by Hon. John A. Kasson, then United States minister to Austria, who had formerly been Chairman of the Committee of Coinage, Weights, and Measures. He thought it was desirable to have a gold coin approximating the value of coins based on the metric system used in the European countries, such as the Austrian 8 florins, the French 20 francs, the Italian 20 lire, the Spanish 20 pesetas, and the Dutch 8 florins.

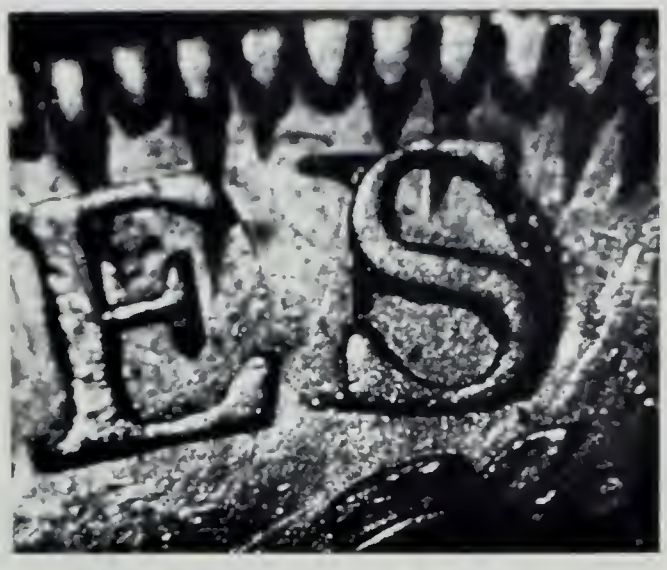

The committee on coinage favored the plan and suggested that a name suitable for the four-dollar coin would be "One Stella," in analogy to one eagle, both the star and the eagle being national emblems on our coins.

Fifteen sets were struck from the Barber designs [these are

the flowing hair coins] in 1879. These proved to bc very popular with congressmen, who were each entitled to a set [piece] at the Mint's cost price of approximately $6.50.

Therefore, early in 1880 the Congressional Committee on Coinage ordered additional sets. There being no hubs to duplicate the dies, the old dies with the date 1879 were used to strike 400 more sets. On October 12, 1880, Mr. S.K. Harzfeld reported an interview with the Superintendent of the Mint, A. Loudon Snowdon, in which he stated that 150 sets of the 415 struck were still in the vaults of the Mint. Mr. Snowden agreed to sell these to numismatists at $15 a set instead of melting them, if permission could be obtained from Washington.

☆☆ Rare 1795 Small Eagle $5 ☆☆

1143 **$5. 1795 Small eagle reverse.** The first American five-dollar gold piece. With beautiful reverse design featuring an eagle perched on a palm branch and holding aloft a wreath in its beak. Scarce and interesting variety with STATES on reverse over STATED. The final letter was erroneously cut as a D and then corrected! **Extremely Fine** or better. Sharply struck. Very desirable.

1144 **$5. 1802/1** Overdate. Beautiful **EF-AU**, with original mint lustre remaining on some areas of the coin's surface. An attractive specimen of this early half eagle type.

Uncirculated 1803/2 Half Eagle

1145 **$5. 1803/2** Overdate. A beautiful **Brilliant Uncirculated** specimen. Rarely seen or offered for sale in this outstanding condition. A prize acquisition, either for a date set or a type collection.

1146 **$5. 1803/2** Overdate. Rare die combination Breen 1-C (Rarity 5). **Extremely Fine.**

1147 **$5. 1813** First year of the *Capped Head* to left type as minted from this year to 1834. VF-EF. A couple of minor edge bumps.

1148 **$5. 1839-D** Mintmark on obverse above date. First year of the Liberty head design. Scarce Dahlonega Mint issue. Nice **Extremely Fine.**

1149 **$5. 1844-O** Extremely Fine, but with some serious scratches at the 11th through 13th stars on the obverse and with some minor porosity on the reverse.

1150 **$5. 1846** VF-EF.

1151 **$5. 1849-C** Rare Charlotte issue. **EF-AU.** Exceptionally well struck and with exquisite design detail.

1152 **$5. 1850-C** Beautiful **AU+.** One of the finest known specimens of this, a variety which is usually seen (when it is seen at all, for it is scarce) in lower grades.

1153 $5. 1853-D Scarce. VF-EF. Struck with very broad borders (as seen occasionally on Dahlonega coins of the 1840's, but rarely the 1850's).

1154 $5. 1857-D VF-EF. Quite rare.

Exceptional 1799 $10 Gold

1155 **$10. 1799 Brilliant Uncirculated** with just the slightest friction on the obverse. Nearly complete original mint lustre. An exceptional and very rare coin in this high grade. Worth a strong bid from the type collector.

☆ Another Desirable 1799 $10 Gold ☆

1156 $10. 1799 Another desirable specimen of this early ten-dollar gold issue. Attractive **Extremely Fine.** An especially sharp striking.

1157 **$10. 1893 Choice Brilliant Uncirculated.**

1158 **$10. 1932 Choice Brilliant Uncirculated.**

1159 $20. 1850-O First New Orleans Mint double eagle; first year of issue of the $20 denomination, apart from a few 1849 patterns. Very Fine. Small scratch near 7th star; small edge nick at bottom obverse rim.

Rare 1861-S Paquet $20

1160 $20. 1861-S Paquet reverse. An attractive **VF-EF** example of this distinctively-styled variety. Extremely rare.

Note: In 1859 and 1860 Anthony Paquet prepared several patterns for the double eagle denomination. Early in 1861 new double eagle reverse dies with tall, narrow letters were sent to Philadelphia, New Orleans, and San Francisco. It was anticipated that $20 pieces from this time forth would be of the new Paquet style.

On January 5, 1861, two pieces were struck at the Philadelphia Mint. It was noted that the reverse die was slightly too large for the obverse and that the reverse border, being too narrow, would not strike up properly. In addition, there would be abnormal wear on the dies when the coins were struck.

The Director immediately countermanded any further use of the dies. The message was wired to New Orleans and arrived there before any coins were struck. The order to the San Francisco Mint was sent overland, there being no telegraph west of St. Joseph, Missouri, at the time. Before the Director's orders arrived (in February 1861) 19,250 1861-S Paquet double eagles had been struck. Apparently most of them were subsequently melted before release and were recoined into regular (pre-Paquet design) style pieces.

The existence of 1861-S Paquet double eagles was not known to numismatists until many years later. Today it is, of course, one of the most famous and most desired of all double eagle varieties, not to mention being among the most rare. It has the additional distinction of being a separate design type with an interesting story.

Outstanding 1879-O $20

1161 $20. 1879-O. Beautiful AU with nearly full original mint lustre. One of the finest known examples of this rare issue. Only 2,325 pieces were struck, and only a few survive today. Worth a really top bid!

Note: The only finer 1879-O your cataloguer has seen is the Choice Uncirculated piece owned by dealer Jerry Cohen in the 1950's. At the time we had a Choice Uncirculated—that's right, Choice Uncirculated—1870-CC of which we were very proud. Although Jerry's coin would probably be a $20,000 item today and ours a $100,000 item, back then in the 1950's there was little interest in collecting double eagles by date and mint. The price tag on Jerry's coin, if memory serves, was something like $1,000 or $1,200, and our 1870-CC was sold in the $2,000 to $3,000 range.

Superb MCMVII (1907) High Relief $20

1163 **$20. MCMVII (1907) High relief.** The famous design by noted American sculptor Augustus Saint-Gaudens. This coin, considered by many to be the most beautiful ever produced for circulation in the United States, will be a highlight for the finest collection.

The present coin, while technically a "wire rim" variety, is also with a partially flat rim, as sometimes seen. (Actually these rim differences are inconsequential and neither contribute to nor delete from the value—the wire rim variety was caused by improper die spacing, so that extra metal was forced upwards along the edge of the collar.) **Choice Brilliant Uncirculated.** A stunningly beautiful coin. Superb!

Another Beautiful MCMVII (1907) $20

1164 **$20. MCMVII (1907) High relief.** Another specimen of this famous rarity. Attractive **Brilliant Uncirculated** with slight rubbing. A very desirable coin for the buyer who wants a beautiful coin but who does not want to pay significantly more for a Choice Uncirculated example.

Rare 1926-S Double Eagle

1165 **$20. 1926-S Brilliant Uncirculated.** One of the finest known examples of this elusive double eagle variety of the 1920's. A rare opportunity for the specialist in this denomination.

U.S. Territorial Gold Coins

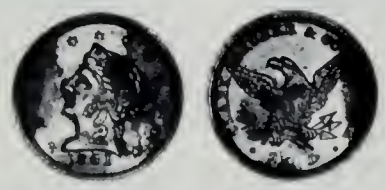

1166 **$1 Gold. Christopher Bechtler.** 28 gr. N reversed in ONE. Carolina gold. **Extremely Fine** or better from the standpoint of wear. Lightly struck at CA of CAROLINA and at the corresponding part of the reverse.

1167 **$1 Gold. Christopher Bechtler.** Variety as preceding; 28 gr. N in ONE reversed. Very Fine.

1168 **$1 Gold. August Bechtler.** 27 gr. 21 carats. Carolina gold. VF-EF.

1169 **$2½ Gold. 1861 Clark, Gruber & Co.** Pattern quarter eagle struck in copper. Weight: 38.6 grains. Design identical to the regular 1861 circulating quarter eagle. EF-AU. Areas of oxidation on obverse and reverse. Scarce.

1170 **$20 Gold. 1860 Clark, Gruber & Co.** Copper pattern, gilt, of an

unadopted design for the twenty dollar gold piece. Obverse with Pikes Peak portrayed as a pyramid. DENVER below. Reverse is that of the standard 1860 issue. Attractive Extremely Fine.

1171 California gold 1852 50c. Liberty head. Round. Lee 2-B. AU.

1172 Group of California small denomination gold: (1) 1854 25c. Octagonal. Liberty head. Lee 5-A. Brilliant Uncirculated; (2) 1859 50c. Octagonal. Liberty head. Lee 10-A. AU; (3) 1872 50c. Octagonal. Liberty head. Lee 27-A. Extremely Fine; (4) 1874 50c. Octagonal. Indian head. Lee 32-B. Brilliant Uncirculated. (Total: 4 pieces)

☆ U.S. Pattern Coins ☆

We present an offering of United States pattern coins—a select group which offers many scarce, rare, and desirable issues. Attributions are to Dr. J. Hewitt Judd's book, United States Patterns.

1173 **Pattern 1c. 1859 J-228.** Obverse from the regular Indian head die of this year. Reverse of the following year, 1860, with oak wreath and shield. Copper nickel. An important *transitional* issue. **Brilliant Uncirculated.** Lightly cleaned.

Note: A number of authorities (e.g., Scott's Encyclopedia of U.S. Coins *and Wayte Raymond's* Standard Catalogue of U.S. Coins*) have listed this piece with regular issues. As J-228 is usually seen in Uncirculated grade rather than Proof, the thought has been that pieces were made for circulation or at least that many reached circulation (following the analogy of the 1856 flying eagle cent). However, experience has shown that few examples of J-228 were ever circulated. 90% or more of the known pieces are in mint condition. It is our thought that this piece was produced in quantity and in Uncirculated (rather than Proof) grade to provide an idea of what the new design would look like. Coins were distributed widely among collectors and dealers (but not newspaper editors, politicians, etc. as was done with the 1856 flying eagle cent) as souvenirs and collectors' items—there being an intense new interest in coins at the time.*

1174 **Pattern 3c. 1863 J-319.** Bronze. Weight: 151.8 grains. Obverse with the Liberty head design used on 1843-1857 large cents. Reverse with 3c pattern design. **Choice Proof.** Separated from the *Gem* grade just by a few tiny toning areas. Probably the *finest known* specimen of this curious issue. Rarer than the Judd rating would indicate.

1175 **Pattern 5c. 1867 J-573.** Shield nickel design, without rays on the reverse. Copper. **Choice Proof.** Once dipped and now beginning to retone. Dr. Judd notes that fewer than a dozen specimens are known.

1176 **Pattern 5c. 1870 J-809.** Standard Silver series. Obverse with Barber's Liberty seated design. Reverse with agricultural wreath. Silver. **Brilliant Proof.** Lightly polished. Tiny planchet crack visible on reverse.

1177 **Pattern 10c. 1868 J-648.** Obverse is that of the 1843-1857 large cent style. Reverse is similar to that of the earlier cents but with TEN CENTS in wreath. Copper. Lightly toned **Proof.** Interesting . . . and rare!

1178 **20c Pattern. 1875 J-1412.** Design similar to the regular issue save for different detailing of the olive branch on the reverse. Copper. **Proof.** Cleaned, and now with numerous hairlines. Rare, as are all patterns of this denomination.

1179 **25c Pattern. 1869 J-735.** Standard Silver series. Copper. **Proof.** Cleaned several years ago.

1180 **25c Pattern. 1870 J-900.** Standard Silver series. Silver. **Choice Brilliant Proof.**

1181 **50c Pattern. 1859 J-236.** Paquet's Liberty seated design. Copper. Proof. Cleaned a decade or so ago and now beginning to retone.

— Plan to Attend the Sale! —

1182 **50c Pattern. 1861 J-277.** Obverse is the regular Liberty seated design. Reverse is the regular design with the addition of the experimental motto GOD OUR TRUST. Silver. Lightly toned **Proof.**

Beginning in 1861 there was a sentiment to place the name of the Diety on our coinage. GOD OUR TRUST was one of the first mottoes suggested. IN GOD WE TRUST, the motto eventually adopted (it first appeared on a circulating coin with the two-cent piece of 1864), was first used on pattern coins two years after 1861, in 1863. For some reason, IN GOD WE TRUST never was used on paper money—until in the 1950's Matt Rothert first suggested the idea. So, now the government emphasizes God on our coins and paper money and considers IN GOD WE TRUST a necessary part of all new designs (the new bicentennial coins being the latest example). At the same time the Supreme Court has decreed that God has no place with our children in the public school systems (cf. decisions relating to Bible reading, etc.).

1183 **50c Pattern. 1869 J-756.** Standard Silver issue. Copper. **Choice Proof** with beautiful light toning. Rare so fine!

1184 **50c Pattern. 1869 J-762.** Impression from the regular dies *in nickel metal.* Exceedingly rare. Dr. Judd notes that *only two or three specimens are known to exist.* The present coin is a lightly toned **Proof** example. A prize find for the half dollar pattern specialist. It may well be the truth that another specimen of J-762 will not appear for sale in your lifetime.

1185 **$1 Pattern. 1864 J-397.** Liberty seated silver dollar design with the addition of the IN GOD WE TRUST motto on the reverse. Copper. **Proof.** Cleaned years ago and now beginning to reacquire a nice tone. This is probably the King Farouk Collection specimen, although this cannot be verified. Exceedingly rare and very important.

1186 **$1 Pattern. 1870 J-998.** Barber's Liberty seated design on the obverse. Reverse with 1 DOLLAR within wreath, STANDARD above. Copper. **Proof.** Cleaned years ago. Like the preceding coin, this appears to be a specimen from the King Farouk Collection. Rare.

1187 **$1 Pattern. 1870. J-999.** Barber's Liberty seated design in combination with a pattern reverse, as preceding. Plain edge. Copper. **Proof** with attractive natural toning. A few minor spots. A beautiful specimen of this elusive variety.

1188 **$1 Pattern. 1878 J-1554.** William Barber's pattern dollar. Reverse with E PLURIBUS UNUM motto in Gothic letters; large eagle. Silver. **Proof** with hairlines. Scarce.

1189 **$1 Pattern. 1878 J-1564.** The famous Goloid Metric Dollar by William Barber. Weight: 258.8 grains. Silver. **Proof** with hairlines. An attractive example of this rare issue.

1190 **$1 Trade Pattern. 1873 J-1310.** Obverse with Indian princess seated on globe. Reverse with small eagle. Silver. **Brilliant Proof.** Rare and desirable.

1191 **$1 Trade Pattern. 1873 J-1315.** The Bailly design. Liberty seated amidst agricultural products. Reverse with small eagle on shield. Silver. Lightly toned Proof. Very rare.

1192 **$1 Trade Pattern. 1873 J-1322.** Obverse is similar to the regular design but with the sea extending to the borders. Reverse is with a small eagle design. Silver. Proof with some hairlines and minute handling marks. An attractive specimen of this scarce issue.

1193 **$5 Pattern. 1860 J-272.** Large-diameter half eagle pattern made to test J.T. Barclay's idea that a very large and thin coin would act as a deterrent to such capers as halving a gold coin and filling the interior with a lesser-value metal, and so on. Copper, gilt (possibly gilt at the Mint, for this was a common Mint practice at the time and most specimens of J-272 are found that way). **Proof.** Rare and historically important.

1194 **$5 Pattern. 1865 J-446** Regular dies with the addition of IN GOD WE TRUST on the reverse. Copper gilt. **Choice Brilliant Proof,** separated from the *Gem* category only by a couple of trivial spots. Exceedingly rare. Dr. Judd notes that fewer than a dozen are known.

WE TAKE CARE OF ALL DETAILS

Thinking of selling? A letter or telephone call will bring you complete information concerning our auction service. Selling coins through one of our sales is simple. We take care of all of the details—cataloguing the coins, photography, advertising, catalogue preparation, research, insurance, etc. All you have to do is cash our check! Over the years many great numismatists have consigned their collections to us. We think you'll be just as pleased as they have been.

COINS OF HAWAII

1195 Hawaiian 1c. 1847. Small head. Plain 4. 13 berries. Glossy brown Extremely Fine.

Note: Where the 1847 Hawaiian cents were struck and by whom remains a major numismatic mystery in this much-studied series. The best guess is that they may have been produced by a private firm in Massachusetts.

1196 Hawaiian 10c. 1883 Brilliant Uncirculated. Struck at the San Francisco Mint for the then-Kingdom of Hawaii.

1197 Hawaiian 25c. 1883 Choice Brilliant Uncirculated.

1198 Hawaiian $1. 1883. A nice Extremely Fine specimen of this large, impressive, and heavy coin.

1199 Hawaiian $1. 1883. Very Fine.

TOKENS AND MEDALS

1200 Large 51 mm. silver medal, weight 1077.3 grains, awarded by The Ohio State Board of Agriculture. Awarded to (the following in engraved script): *Newport Silk Factory / BEAUTIFUL SILK GOODS / M.L. Sullivant, Pres't. / 1850.* Medal design depicts two goddesses attending a coining press with a third goddess watching. Design by famed medallist G.H. Lovett. Lightly toned Proof. In original velvet-lined case, unhinged at back.

1201 1883 Masonic medal in gold or gold alloy, sealed between two

glass crystals and with a gold band around the edge, inscribed: *Presented to Bro. James Heywood / Served as Steward to Boys School July 1880 to Girls School May 83.* In case of issue by Kenning, masonic jeweler, London. With attached ribbon. Condition as issued, save for attractive iridescent toning.

1202 Group of large American medals: (1) 1859 United States Agricultural Society. MDCCCLII. Awarded to F. Franks, for vinegar, 1859. Obverse with allegorical design representing agriculture. Wreath and legend surround. Reverse with small plow. Bronze. 74.8 mm. Weight: 2,990.5 grains. Extremely Fine; (2) U.S. Grant memorial medal. Obverse with bust right. Reverse with Grant seated on horse. Pewter. 62.7 mm. Weight: 1,108.1 grains. Extremely Fine; (3) Large gilt bronze medal awarded by the North Central and South American Exposition, 1885-1886, New Orleans. For *The Highest Award on Plain and Aerated Mineral Waters to the Arcadian Mineral Spring Company, Waukesha, Wisconsin.* Obverse with three allegorical figures standing, a seated Indian in headdress, and an American bison. *The Three Americas* below. 73.5 mm. Weight about 4,000 grains. Extremely Fine; (4) National Pony Express Centennial Association medal. Obverse with busts of Russell, Majors, and Waddell (founders). Reverse with Pony Express rider standing near his steed, Indian waving in background. Silver. 57.2 mm. 2,032.3 grains. Sandblast Proof; (5) Kennedy-Johnson presidential medal, 1961. Obverse with conjoined busts of these two statesmen. Reverse with seals of the president and veep. Silver. 69.1 mm. 2,789.5 grains. Serially numbered "16" on edge. Important; a historically significant medal from our own time. Sandblast Proof as issued. (Total: 5 pieces)

1203 John Fitzgerald Kennedy inaugural medal in silver. Obverse with portrait of JFK. Reverse with the presidential seal. 70.0 mm. 2,618.5 grains. Serially numbered "4943" on edge.

Note: Unlike most politicians, John F. Kennedy appreciated the arts. One can only speculate what advancements might have been made on the national level in this direction had he fulfilled his term of office. It is distressing to your cataloguer to know that the Smithsonian Institution (to mention just one of many things) is undergoing staff and budget cuts, while at the same time we apparently "need" to spend over $1 billion apiece for nuclear submarines, not to mention countless billions for CIA activities, armament, etc. It's too bad that in some distant century America will be remembered for its military might rather than for a flowering of the arts. At least that's one person's personal opinion.

1204 **Rare Mormon token, 1846.** Obverse with a busy beehive surrounded by: DO YOUR DUTY / 1846. Reverse with clasped hands (the motif found on the later Mormon gold pieces from Deseret) and the inscription: UNION IS / STRENGTH. Brass. Sharp Extremely Fine.

Little is known about this token. In a 1911 issue of *The Numismatist,* page 241, S.L. McGarry wrote the following as part of an article entitled "Mormon Money."

MORMON CENT. During the year 1846—the beginning of the great exodus from Nauvoo to the Salt Lake Valley—there appeared a strange little brass token that has created and attracted the attention of church members and collectors from all over the world.

The date, and Brigham Young's (Young was then leader of the Mormons) favorite emblem, the beehive, meaning let everyone do his duty, and clasped hands signifying friendship, indicate very strongly that the coin is associated with the Mormons.

It is not known whether or not this token was used as an exchange medium, or a commemorative issue, nor do we know what value is carried with it, because of the lack of information and numbers designating the value thereof. The coin is said to be approximately the size of a dime.

So ends McGarry's description. Apparently he had never seen one of these in person, for he relates someone else's thoughts concerning the diameter. The presently-offered specimen is the second one we've had in twenty five years. Rare!

1205 5c Encased postage stamp. DRAKE'S PLANTATION BITTERS. Catalogue No. (Friedberg) EP-74. Extremely Fine.

Note: Drake's Plantation Bitters, a nostrum sold during the late 19th century, was packaged in amber bottles shaped like log cabins. These can occasionally be found in antique stores today. The firm's mystical trademark was "S.T. 1860 X," the meaning of which is unknown today, although it has been theorized that it is an abbreviation for "Started Trade 1860 with $10."

ADDITIONAL IMPORTANT CONSIGNMENTS —of— UNITED STATES COINS

As we near the end of the United States coin section of the Kensington Collection sale catalogue we present several additional numismatic properties consigned by various persons. Included are some major scarcities and rarities, as you will note . . .

Celebrated 1796 Myddelton Token in Copper

1206 **1796 Myddelton token in copper.** Seldom in a rare coin auction has a single Myddelton token appeared. The Kensington Collection sale, remarkable for its superlatives, features *two* pieces! The first, a silver impression, is offered earlier in the catalogue as Lot 257. The second is offered here.

Offered now is a P.P.P. Myddelton token in copper. According to estimates, there are only about a *half dozen specimens known* in this metal. *Scott's Encyclopedia of U.S. Coins* states that there are just *4 to 6 pieces in existence.* It would be difficult to argue with this. In nearly twenty five years of professional numismatics we have had the privilege of owning or offering for sale several of the silver pieces, each of which is a major rarity, but *never have we offered a copper example.* During the same quarter century we have had the chance to buy just one piece, which we passed by because it had been cleaned.

The present coin is a **Choice Proof** with beautiful toning. No finer example of the 1796 copper Myddelton token does or could exist. It may well be that another quarter century may pass before another piece is offered for public sale. The rarity, beauty, and importance of this specimen cannot be overemphasized!

Note: As we mentioned in our description of Lot 257, this artistic and beautiful coin is one of the most outstanding works of coinage art in the early American series. It is said to have been the work of Conrad Kuchler (who prepared many British pattern coins around the turn of the 20th century) and was struck at Boulton and Watt's Soho Mint in Birmingham.

The obverse bears the legend PAYABLE BY P.P.P. MYDDELTON, a reference to Philip Parry Price Myddelton, an enterpreneur who owned considerable real estate in Kentucky and induced numerous Englishmen to move there. The reverse depicts an allegorical scene of the Goddess of Plenty, with cornucopia, extending a welcoming hand to a woman and her two children—emblematic of the riches and warm reception awaiting English migrants to Kentucky. The legend BRITISH SETTLEMENT KENTUCKY surrounds, with the date 1796 below.

The Guide Book of U.S. Coins *pays the 1796 Myddelton token the singular honor of calling it: "unsurpassed in beauty and design by any piece issued for American circulation."*

CHECK THIS CATALOGUE CAREFULLY!

This catalogue contains many fascinating coins, pieces of currency, and other numismatic items. Right now each and every item is available to you. Check the catalogue carefully and bid on all the things that are of special interest to you. Bid liberally on the items of greatest interest. Bid less liberally on pieces you want, but only if "the price is right". After each sale we have clients who say "I wish I had bid on item so-and-so. I would have paid more than it went for!" Of course, after the sale is too late. But right now isn't too late. Check this catalogue carefully — and then airmail your bidsheet to us!

Choice Uncirculated 1795 Cent

1207 1c. **1795** S-78. Plain edge. ONE CENT centered in wreath. Magnificent glossy brown **Choice Uncirculated.** Struck slightly off center, as illustrated. A tiny planchet mark near C of AMERICA at the rim should be mentioned for accuracy, but apart from this, the coin is *perfection.* A prize early cent which should attract the attention of bidders everywhere. A classic!

1208 Miscellaneous lot of coins. A potpourri: 1802 1c. Abt. Good; 1851 silver 3c. EF-AU; 1851-O 3c. Fine; 1852 3c EF; 1865 nickel 3c. AU; 1832 Half dime. EF; 1847 Half dime. Fine; 1853 Half dime. No arrows. Scarce. Fine; 1853 Half dime. With arrows. VF, rim bump; 1853 Half dime. Arrows. Fine; 1857 Half dime. EF-AU; 1872 Half dime. EF; 1872 Half dime. Another. EF, dark; 1843 10c. VF; 1844 10c. Rare issue. VG; 1853 Arrows. 10c Abt. Good; 1856-O 10c. Abt. Good; 1875-S 10c Fine; 1912-D 10c. VF. (Total: 19 pieces)

1209 **1794 Half dime.** Valentine-1. **Extremely Fine to AU** from a wear viewpoint, but with some areas of light striking and with pronounced adjustment marks on the head. Well centered. Toned an attractive lilac and gray. The first 1794 half dime variety. Ideal for a type set to illustrate the beautiful 1794-1795 flowing hair design.

BID WITH CONFIDENCE BY MAIL

If you're not attending the sale in person, then we invite you to bid by mail. Complete details are given on page 2. We act as your agent and buy each lot for you as reasonably as possible — just as if you were here bidding in person.

Uncirculated 1795 Half Dime

1210 **1795 Half dime.** Valentine 5A. **Uncirculated,** bordering on the *Choice* classification. Lovely green, blue, and lavender toning. Some mint-caused adjustment marks, standard on half dimes of this and the preceding year, on the reverse. Well struck and possessing superb detail around the borders. A prize early half dime!

Outstanding 1796 Dime

1211 **1796 Dime.** A beautiful AU coin with excellent sharpness of detail, including nearly full feathers on the eagle. Tiny planchet defect on reverse edge above U of UNITED. A very desirable specimen of the first year of issue of this denomination. Rare so fine!

Choice Uncirculated 1825 Dime

1212 **1825 Dime. Choice Uncirculated with deep blue and lavender** toning. Exceedingly rare and difficult to locate in this outstanding condition. Another prize item for the connoisseur of early American rarities.

AMERICAN AUCTION ASSOCIATION
Division of Bowers and Ruddy Galleries, Inc.

BID BY MAIL!

If you cannot attend the sale in person, we invite you to bid by mail. Check through this catalogue carefully and determine which lots are of the greatest interest to you. If you strongly want a particular lot, then a strong bid is indicated. However, we also recommend that you bid on many lots which you might like "if the price is right." By bidding on 50 additional lots this way, chances are good that you might buy 5 or 10 exceptional values. Every time a sale is ended, we receive calls and letters saying, in effect "I wish I had bid $— on that lot, but now it is too late." Well, right NOW it isn't too late! Send us your bidsheet today!

Very Rare 1827 Restrike 25c

1213 **1827 Quarter dollar.** Restrike made circa 1860 from lightly rusted dies. Silver. **Proof** with extraordinarily brilliant fields; a specimen which must have been one of the first restrikes to leave the dies, for it is superior in striking and appearance than are nearly all of its contemporaries. *Scott's Encyclopedia* notes that fewer than a dozen specimens are known to exist.

An outstanding specimen of one of the most highly prized of all early American numismatic rarities.

Splendid Uncirculated 1797 Silver Dollar —10x6 stars variety—

1214 **1797 Silver dollar.** B-3a. This is the specimen which appeared as Lot 16 of our magnificent Austin Collection sale (American Auction Association/Bowers and Ruddy Galleries sale of May 31 and June 1, 1974). In that sale, one of the most extraordinary offerings of silver dollars the numismatic world has ever seen, this coin was described as follows:

1797 B-3a. Obverse with draped bust and with the stars arranged 10 to the left and 6 to the right. Reverse with large letters. **Choice Brilliant Uncirculated.** A simply fantastic, nearly indescribable coin! Never have we ever seen a specimen which even approaches this one in quality, and our

experience includes having handled some of the very finest silver dollar collections ever formed.

The coin, as noted, is in Choice Brilliant Uncirculated grade. A few normal adjustment marks are visible upon close scrutiny, but otherwise the coin is a gem. The fields are fully frosty. The piece possesses excellent sharpness of design detail.

This classic 1797 is one of the highlights of the Austin Collection. When sold, chances are nearly certain that an equal specimen will never appear on the market again. There is an opportunity for the connoisseur!

So ends our earlier description.

In the year and a half since the Austin coin was sold, no equal or even nearly equal pieces have appeared either at auction or in dealers' price lists, to our knowledge. An *incredible* coin.

Classic 1838 Gobrecht Silver Dollar

1215 1838 **Gobrecht silver dollar.** Obverse with Liberty seated surrounded by stars. Reverse with eagle in plain field. Reeded edge. **Choice Brilliant Proof.** One of the finest known specimens of this classic American dollar.

Gobrecht dollars of the date 1838 appear on the market much less often than do those of 1836 or 1839. Often a span of *years* will pass between auction offerings of an 1838 Gobrecht dollar of this *quality*. Here is a remarkable opportunity for the knowing numismatist or museum.

Rare 1839 Gobrecht Silver Dollar

1216 1839 **Gobrecht silver dollar.** Obverse with Liberty seated surrounded by stars. Reverse with eagle in plain field. Inverted reverse. Reeded edge. Lightly toned **Proof** with some minor hairlines. A pleasing-appearing specimen of this classic American silver dollar. Only when great collections are sold do Gobrecht dollars of this date appear on the numismatic market.

Very Rare 1860-D Gold Dollar

1217 1860-D **Gold dollar.** Very rare issue; only 1,566 coined. The present is attractive **Very Fine.** Lightly struck in certain areas—as illustrated and as is always the case with 1860-D. Some microscopic abrasions near the bottom reverse border, indicating that a loop or solder spot may have been removed. If this is the case, it was expertly done—so well, in fact, that probably not 1 in 100 observers would even notice it. Rare.

1218 1942 U.S. Proof set. With two nickel types. Choice Brilliant Proofs 1c to 50c. (Total: 6 pieces)

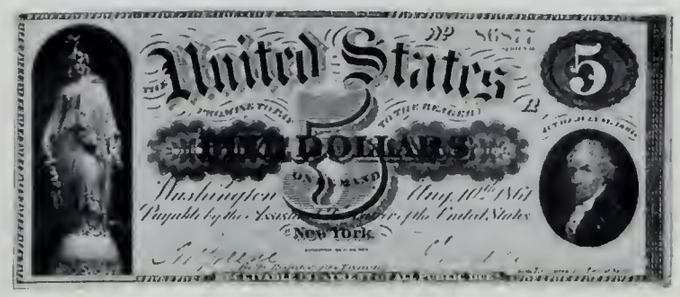

1219 Group of modern Proof coins, all Choice and lightly toned, except as noted: 2 pcs. 1942 1c. Spotted; 5c 1938; 5c 1939; 5c 1940; 5c 1941; 5 pieces 5c 1942 Type I; 5c 1942-P Type II. Slightly cloudy; 2 pcs. 10c 1942; 2 pcs. 25c 1942; 2 pcs. 50c 1942. (Total: 18 pieces)

1220 Collection of Choice Proof sets 1950-1964, one of each date (the 1960 is the large date cent variety), plus Choice Uncirculated specimen sets of 1965-1967. A very outstanding group! A nice continuous date run 1950-1967. (Total: 18 sets)

1221 Group of Choice Brilliant Proof sets, some with frosted high surfaces, 1951 through 1963, except 1959 and 1961. Includes both large date and small date varieties of 1960. All in plastic holders. (Total: 12 sets)

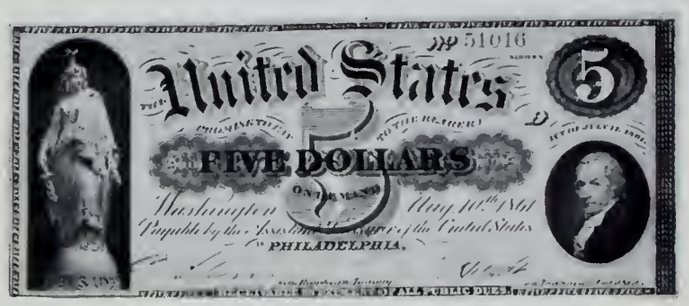

1222 **1c Pattern. 1853 Judd-151.** Pattern cent utilizing the quarter eagle obverse die in combination with a pattern reverse. Struck in nickel composition. Proof with some handling marks. Scarce.

U.S. Currency

1223 **$5 Demand Note of 1861.** Payable at New York. Friedberg-1; Donlon-805B T2. This is the first of the controversial "greenbacks" which arose during the Civil War to help pay for that event. Unlike later U.S. currency issues the Demand Notes of 1861 do not carry the Treasury Seal or signatures of the Treasurer and the Register. This is F-1, payable at New York and having "For the" (in "For the Register of the Treasury) printed. A pleasing note which grades **Very Fine to Extremely Fine.** A perfect note to display at the beginning of your collection as the first regular-issue U.S. currency. ($1200-$1500)

1224 **$5 Demand Note of 1861.** Payable at New York, as above. F-1; D-805B T2. "For the" printed. As last, but a minute difference in that the "for" in "for the Register of the Treasury" has a lower-case "f." In the last lot, there is an upper-case "F." A nice Fine condition bill. ($1000-$1200)

1225 **$5 Demand Note of 1861.** Payable at Philadelphia. F-2; D-805C T2. "For the" printed. **Very Fine.** ($1100-$1300)

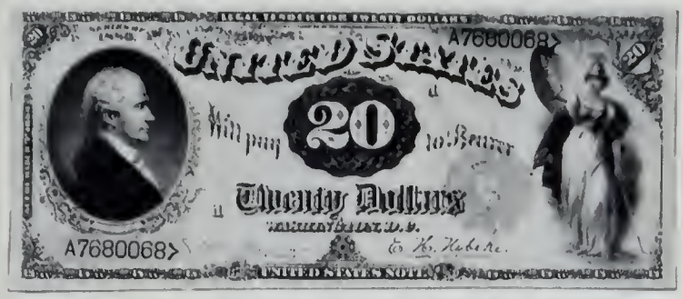

1226 **$1 Legal Tender. Series 1862.** First use of the $1 bill by the U.S. government. F-16; D-101-1 T3. Low serial number - 532. A choice New note. ($350-$425)

SPECIALISTS

Over the years we've had many specialized sales: the Stanislaw Herstal Collection of coins of Poland, the Stanley Scott Collection of medals of George Washington, the Dr. Curtis R. Paxman Collection of British Commonwealth rarities, and the Matt Rothert Collection of U.S. fractional currency being just a few examples. The large staff of the American Auction Association and Bowers and Ruddy Galleries assures you of expert descriptions of your coins, accompanied by interesting numismatic comments and historical references. Compare our services and you'll see that there's really only one choice: the American Auction Association.

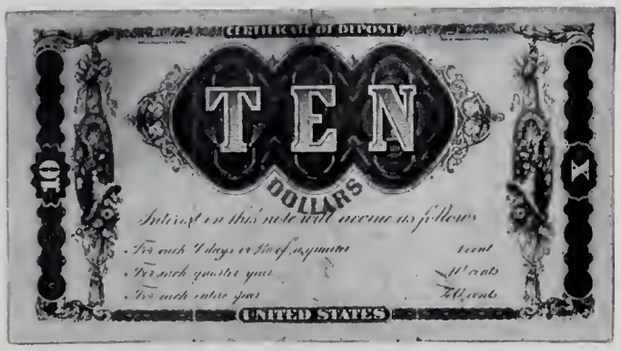

1227 $2 Legal Tender. Series 1880. Bruce, Gilfillan signatures. Large brown Treasury Seal. F-51; D-102-9. All large size $2 bills have enjoyed increasing popularity. This example is in choice New condition. ($160-$200)

1228 $20 Legal Tender. Series 1880. Rosecrans, Nebeker. Small red seal. F-140; D-120-15R. A scarce higher-denomination note, in choice New grade and well centered. ($425-$525)

1229 $10 Refunding Certificate. Issue of April 1st, 1879. Signatures of Gilfillan and Scofield. F-214. Note bears interest at 4 per cent. Fine. ($1000-$1200)

$2,000 or $2,000,000!

Whether you have $2,000 worth of coins (the minimum consignment we accept, due to bookkeeping and handling), $20,000 worth, $200,000 worth, or $2,000,000 worth, the American Auction Association is the ideal way to sell. Over the years hundreds of sellers have been delighted with our service. Thinking of selling? Write or call us today!

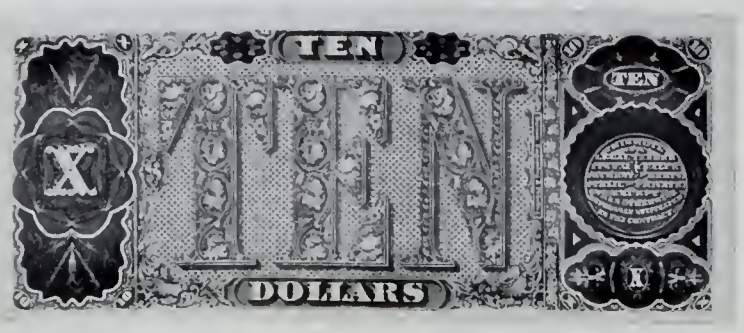

1230 Educational Series Silver Certificate Set of Three Notes. One of the most popular sets of U.S. notes. All series of 1896 and all three of these have signatures of Tillman and Morgan. Included are (1) $1 F-224; D-201-17A. (2) $2 F-248; D-202-17A. (3) $5 F-268; D-205-17A. An outstanding trio in Gem Crisp New condition. A highlight for any collection! ($2500-$3200)

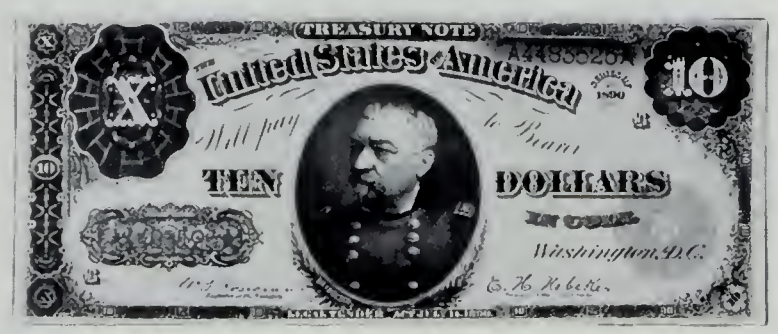

1231 $10 Silver Certificate, series 1880. Bruce, Wyman. Large brown seal. F-289; D-210-10. A scarce, early, large-size note. This type shows the interesting anti-counterfeiting device used for a short time by the Treasury. Two horizontal threads (at about 15mm from top and bottom margins) running the length of the note were placed in the paper to make it more difficult to reproduce bank note paper such as this. The top one is red, the bottom blue. An interesting feature that was probably found unnecessary and subsequently dropped. This early $10 silver certificate grades a crisp New. ($1600-$2000)

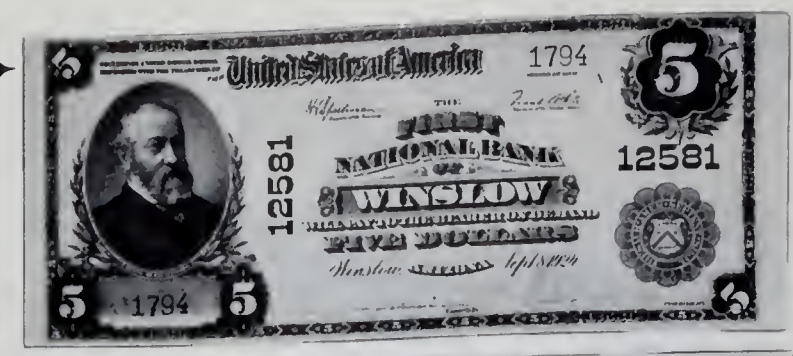

1232 $10 Treasury or Coin Note. Series 1890. Rosecrans, Huston. Large brown seal. F-366; D-710-14. This note of 1890 was a short-lived type as the following year the back was greatly modified with a less appealing, more plain back. A sharp AU note, which without the light central crease would be a fully Crisp note. ($650-$750)

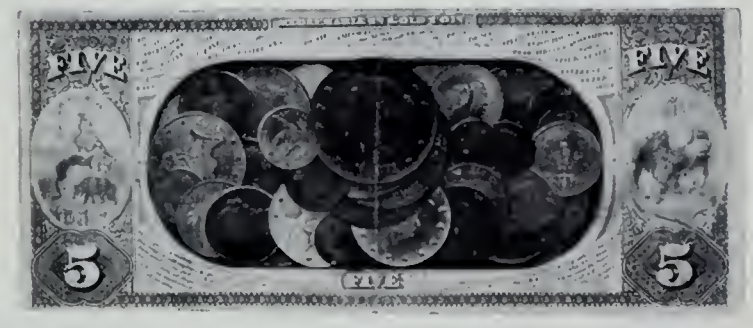

1233 $10 Treasury Note. Series 1890. Rosecrans, Nebeker. Small red seal. F-368; D-710-15A. As the last, a scarce issue. This note, in Gem Crisp New condition should attract quite a bit of attention! ($1100-$1500)

1234 Arizona. $5 National Bank Note. Third charter, third issue. F-609; D-C305-31 T3. The First National Bank of Winslow, Arizona. Charter number 12581. Serial number 1794. A rare note! Seldom indeed are *any* Arizona nationals offered. This piece is in Choice Crisp New grade and should bring a hefty price. ($3000-$4000)

1235 California. $5 National Gold Bank Note. Series 1870. Allison, Spinner. F-1136; D-305G-1. The First National Gold Bank of San Francisco, California. Charter number 1741. A popular and romantic design due to the connection with the famous California gold fields as well as the picture of a pile of early U.S. gold coins on the back. These are usually found in worn auction block a nice VG+ example. This is a nice clean note and should be one of the most active lots in this section. ($1600-$2200)

THE BEST PRICE FOR YOUR COINS

When Armand Champa, one of America's leading numismatists, decided to sell his collection he solicited offers from leading dealers. Dissatisfied with the bids received and with the great time and effort it took to show his collection to many different people, he then consigned his magnificent collection to us for auction sale. The Armand Champa Collection sale took place and attracted international attention. When the sale was over, Mr. Champa told us that his coins sold in our sale for MORE THAN DOUBLE the highest cash offer he had previously received! So appreciative was he, that he did something unprecedented in the annals of numismatics: completely unsolicited by us, Armand Champa placed large advertisements in "The Numismatist," "Coin World," and "Numismatic News" to thank us for the great job we did for him!

Thinking of selling? Do as Mr. Champa did: consign your coins to us. It's the ideal way to sell!

1247 **Pair of $100 National Bank Note Specimens.** Printed on thick cards with front and back specimens (each uniface). The front is of a second charter design in black on a white card. Serial numbers – in red – A00000. Charter number appearing around borders is 2412 (Stockton, California). The back has the familiar "brown back" devices with charter number 1000 in blue. An interesting side-light. This can be considered as a double-state back! The charter number, 1000, is for the National Bank of the Republic (New York), and the small vignette at left is of the Alabama state seal!!! An interesting combination undoubtedly done just to represent examples of the engraver's and printer's art work. Both pieces in this lot are on thick white cards and are in pristine **Gem** condition, as nice as the day they were made! ($1500-$2000)

1248 **Fractional Currency Shield.** Original shield with gray background. In early frame (approx. 30"x24"). Most of the notes are above average in brightness. Upon examination of the back of the shield it was noted that it has been folded horizontally (though this fold is conveniently hidden by the design on the front) and cropped somewhat. Also there are several repaired tears around the margins and a small portion of the lower left corner is missing. To make the shield more presentable, a nicely constructed matting has been placed over the blank areas of the shield and only the gray "shield" and notes thereon are visible from the front. Nonetheless a desirable and historically important piece of Americana. ($900-$1500)

1249 **Letter, signed by Theodore Roosevelt.** Signed copy of a three-page letter to a Mr. Wm. Boldly signed, in pencil, in full by Theodore Roosevelt. Dated November 11, 1907. This important letter describes Roosevelt's feelings toward having the motto "In God We Trust" on U.S. coins and why he did not want it on the currently new $10 and $20 gold pieces designed by St.-Gaudens.

To our knowledge the contents of this letter have never been published in a numismatic reference book. For historical purposes we reproduce the entire contents herewith:

Dear Sir:

When the question of the new coinage came up we lookt [sic] into the law and found there was no warrant therein for putting "IN GOD WE TRUST" on the coins. As the custom, altho without legal warrant had grown up, however, I might have felt at liberty to keep the inscription had I approved of its being on the coinage. But as I did not approve of it, I did not direct that it should again be put on. Of course the matter of the law is absolutely in the hands of Congress, and any direction of Congress in the matter will be immediately obeyed. At present, as I have said, there is no warrant in law for the inscription.

My own feeling in the matter is due to my very firm conviction that to put such a motto on coins, or to use it in any kindred manner, not only does no good but does positive harm, and is in effect irreverence which comes dangerously close to sacrilege. A beautiful and solemn sentence such as the one in question should be treated and uttered only with that fine reverence which necessarily implies a certain exaltation of spirit. Any use which tends to cheapen it, and, above all, any use which tends to secure its being treated in a spirit of levity, as is from every standpoint profoundly to be regretted. It is a motto which it is indeed well to have inscribed on our great national monuments, in our temples of justice, in our legislative halls, and in buildings such as those at West Point and Annapolis - in short, wherever it will tend to arouse and inspire a lofty emotion in those who look thereon. But it seems to me eminently unwise to cheapen such a motto by use on coins, just as it would be to cheapen it by use on postage stamps, or in advertisements. As regards its use on the coinage we have actual experience by which to go. In all my life I have never heard any human being speak reverently of this motto on the coins or show any sign of its having appealed to any high emotion in him. But I have literally hundreds of times heard it used as an occasion of, and incitement to, the sneering ridicule which it is above all things undesirable that so beautiful and exalted a phrase should excite. For example, thruout [sic] the long contest, extending over several decades, on the free coinage question, the existence of this motto on the coins was a constant source of jest and ridicule; and this was unavoidable. Everyone must remember the innumerable cartoons and articles based on phrases like "In God we trust for the other eight cents"; "In God we trust for the short weight"; "In God we trust for the thirty-seven cents we do not pay"; and so forth, and so forth. Surely I am well within bounds when I say that a use of the phrase which invites constant levity of this type is most undesirable. If Congress alters the law and directs me to replace on the coins the sentence in question the direction will be immediately put into effect; but I very earnestly trust that the religious sentiment of the country, the spirit of reverence in the country, will prevent any such notion being taken.

Sincerely yours,

Theodore Roosevelt (signed)

2065 **Hadrian** (A.D. 117-138) Silver Denarius. RIC-165. Obverse: Laureate head right. Reverse: Roma (Virtus) seated left. EF, with an artistically magnificent portrait. ($150-$250)

2066 **Hadrian** (A.D. 117-138) AE As. RIC-796. Obverse: Laureate head right. Reverse: Annona standing left. Struck at Rome, A.D. 134-138. Nice VF with even patina and an excellent portrait. ($80-$130)

2067 **Hadrian** (A.D. 117-138) AE As. RIC-805. Obverse: Bare head right. Reverse: Felicitas and Hadrian clasping hands. Struck A.D. 134-138. VF+ with a finely modeled portrait, reverse is a bit discolored. ($75-$125)

2068 Four silver denarii. (1) **Republic** (2nd century B.C.) Reverse: Dioscuri on horses. VF, but crystallized and reverse scratches; (2) **Titus** (A.D. 79-81) Reverse: Thunderbolt over throne. Nice Fine; (3) **Trajan** (A.D. 98-117) Reverse: Fortuna seated left. VF; (4) **Hadrian** (A.D. 117-138) Reverse: Roma seated left. Fine, pierced at edge. (Total: 4 coins) ($90-$170)

2069 **Antoninus Pius** (A.D. 138-161) Silver Denarius. RIC-156. Obverse: Laureate head right. Reverse: Liberalitas standing left. Struck A.D. 145-161. EF, light scratching on reverse. ($50-$85)

2070 **Antoninus Pius** (A.D. 138-161) Silver Denarius. RIC-429. Obverse: Bare head right. Reverse: Eagle standing, head left. CONSECRATIO. Struck after death by Marcus Aurelius. Almost EF/VF+, a most realistic rendering. ($85-$140)

2071 Five silver denarii. (1) **Republic** (2nd century B.C.) Obverse: Helmeted head of Roma. Reverse: Dioscuri right on horseback. VF+, a bit discolored on the bottom of reverse. (2) **Republic. P. Clodius, Moneyer** (c. 41 B.C.) Obverse: Laureate head of Apollo right. Reverse: Diana standing right. F+, with test marks. (3) **Trajan** (A.D. 98-117) Obverse: Bust. Reverse: Mars walking right. Nice VF. (4) **Hadrian** (A.D. 117-138) Obverse: Bust. Reverse: Ceres seated left. Fine+. (5) **Antoninus Pius** (A.D. 138-161) Obverse: Bust. Reverse: Fortuna standing to right. VF. (Total: 5 coins) ($100-$150)

2072 **Faustina Senior, wife of Antoninus Pius** (d. A.D. 141) Silver Denarius struck after her death. RIC-377. Obverse: Draped bust of Faustina right. Reverse: Throne, against which rests a sceptre. Nicely toned EF. ($125-$225)

2073 **Marcus Aurelius** (A.D. 161-180) Silver Denarius. RIC-35. Obverse: Bare head right. Reverse: Concordia seated left. Struck A.D. 161-162. About Extremely Fine with a lovely early portrait. ($85-$135)

2074 **Marcus Aurelius** (A.D. 161-180) Silver Denarius. RIC-125. Obverse: Laureate head right. Reverse: Annona standing left, emptying cornucopia into modius. Struck at Rome, A.D. 164-165. EF. ($75-$125)

2075 **Marcus Aurelius** (A.D. 161-180) Silver Denarius. RIC-159v. (Pax standing, not seated). Obverse: Laureate head right. Reverse: Pax standing left. Struck at Rome, A.D. 166. This is a fine opportunity to form a specialized collection of lovely denarii of this philosopher-emperor! EF. ($60-$110)

2076 **Marcus Aurelius** (A.D. 161-180) Silver Denarius. RIC-339. Obverse: Laureate head right. Reverse: Two German captives seated at base of trophy. Struck A.D. 175-176. Toned EF, with a bold portrait. ($125-$175)

2077 **Marcus Aurelius** (A.D. 161-180) Silver Denarius. RIC-423. Obverse: Laureate bust right. Reverse: Annona standing left. VF+, reverse a bit weakly struck. ($50-$80)

2078 **Commodus** (A.D. 177-192) Silver Denarius. RIC-192 [as scarce]. Obverse: Laureate head right. Reverse: Jupiter standing left, holding sceptre and thunderbolt. Struck at Rome, A.D. 186-189. EF/VF+, attractive portrait with some flan cracks (from striking). ($110-$165)

2079 **Septimus Severus** (A.D. 193-211) Silver Denarius. RIC-266. Obverse: Laureate head right. Reverse: The Dea Caelestis riding right on a lion, holding thunderbolt and sceptre; below are waters gushing forth from rock. Struck at Rome, A.D. 202-210. VF+, attractive and doubly desirable because of the interesting reverse. ($55-$85)

2080 **Caracalla** (A.D. 198-217) Silver Antoninianus. RIC-281a. Obverse: Radiate bust right. Reverse: Sol standing front, head left, raising right hand and holding globe. Struck at Rome, A.D. 216. Much scarcer than the denarii. Nice VF+. ($90-$140)

2081 **Caracalla** (A.D. 198-217) Silver Denarius. RIC-69. Obverse: Laureate bust right, as a young boy. Reverse: Roman standing left. Toned EF. ($80-$140)

2082 **Caracalla** (A.D. 198-217) Silver Denarius. RIC-214. Obverse: Laureate head right. Reverse: Indulgentia (Julia Domna?) wearing polos, seated left. Struck at Rome, A.D. 210-213. Scarce! About EF, typical weakly struck reverse; bold portrait. ($50-$75)

2083 **Severus Alexander** (A.D. 222-235) Silver Denarius. RIC-188. Obverse: Laureate head right. Reverse: Annona standing left, holding corn-ears and anchor, modius at her feet. Struck at Rome, A.D. 228-231. EF-Superb, a fantastic coin! ($75-$100)

2084 **Philip I** (A.D. 244-249) Silver Antoninianus. RIC-18c. Obverse: Radiate bust right. Reverse: Annona standing left holding ears of corn over modius and cornucopia. Struck at Rome, A.D. 244-247. Superb (AU), reverse weakly struck but portrait is most realistic. ($50-$75)

2085 **Herennius Etruscus as Caesar** (A.D. 250-251) Silver Antoninianus. RIC-149. Obverse: Radiate bust right. Reverse: Spes advancing left holding flower. Struck at Rome. A rare Caesar, numismatically speaking! Almost EF with some porosity, bold portrait. ($135-$250)

2086 **Trebonianus Gallus** (A.D. 251-253) Silver Antoninianus. RIC-76 [as rare]. Obverse: Radiate bust right. Reverse: Virtus standing right holding spear and leaning on shield. Struck at Milan. Superb (AU). ($50-$100)

2087 **Vabalathus and Aurelian** (A.D. 271-272) Billon Antoninianus. RIC-381. Obverse: Laureate bust of Vabalathus, prince of Palmyra. Reverse: Radiate bust of Aurelian, officina letter below. VF+ a bit weakly struck in areas, some silvering still remaining. ($40-$70)

2088 **Probus** (A.D. 276-282) AE Antoninianus. Unlisted in RIC. Obverse: Radiate bust right. Reverse: Pax standing left. Struck at Lugdunum Mint. EF-Superb, almost full silvering remaining. ($35-$65)

2089 Five silver coins minted from the 2nd century B.C. to the 3rd century A.D. (1) **Republic.** Denarius. Obverse: Helmeted head of Roma right. Reverse: Victory in biga right. VF, some discoloration. (2) **Gordian III.** Antoninianus. Reverse: Liberalitas standing left. About VF. (3) **Trajan Decius.** Antoninianus. Reverse: Victory advancing left. Close to VF. (4) and (5) **Gallienus.** Two different reverse Antoniniani pertaining to the conquered provinces. Both VF. (Total: 5 coins) ($65-$100)

2090 A collection of five silver denarii of the 2nd century B.C. – 3rd century A.D. (1) **Republic.** Helmeted head right of Roma. Reverse: Dioscuri right on horseback. (2) **Septimius Severus.** Reverse: Concordia seated left. (3) **Julia Domna.** Reverse: Felicitas standing left. (4) **Caracalla.** Reverse: Victory advancing right. (5) **Geta** (as adolescent). Reverse: Roma seated left. Condition averages VF. (Total: 5 coins) ($90-$140)

2091 **Maxentius** (A.D. 306-312) Silvered AE Follis. RIC-16. Obverse: Laureate head right. Reverse: Dioscuri facing each other, each holding horse by bridle. Romulus and Remus and she-wolf below. Struck at Ostia Mint. About EF with almost full silvering. ($40-$60)

2092 **Maxentius** (A.D. 306-312) AE Follis struck at Ostia (port of Rome). RIC-35. Obverse: Laureate head right. Reverse: The Dioscuri standing, holding bridled horses. EF with much silvering remaining. ($50-$75)

2093 **Constantius II** (A.D. 337-361) AE Centenionalis. Obverse: Diademed bust right. Reverse: Soldier advancing left spearing fallen horseman. Struck at Cyzicus. Superb/Nice VF, with a gem-like green patination. ($40-$60)

2094 3rd-4th century A.D. Two choice bronzes. (1) **Postumus** (AE) Antoninianus struck at Cologne. Reverse: Pax standing left. About EF. (2) **Constantius II.** Centenionalis minted at Aquileia. Reverse: Constantius holding labarum, two captives at feet. EF. (Total: 2 coins) ($35-$60)

2095 This lot comprises ten identifiable bronzes from the Roman and Byzantine world (3rd-10th century). Condition ranges from Good to VF and includes a 35mm Greek Imperial pseudo-medallion. (Total: 10 coins) ($35-$50)

Mongol Empire

2096 **Genghis Khan** (1206-1227) Billon Dirhem. Obverse and reverse: Legend within circle. Struck during the invasion of the West in 1219. Legend translates: "Just coin of the Supreme Khagan". An historically important coin. Very Fine. ($35-$60)

COINS OF AUSTRIA

2098 Tirol. Undated (1439-1496) (Hall) Silver Six Kreuzer (Kleine Groschen). Obverse: Half-length bust of Sigismund right. Reverse: Arms and cross. Nice Very Fine. ($40-$70)

2099 Tirol. Undated (1564-1595) (Hall) Taler. Vogl-87. Obv: var. 5; rev: var. 6. Obverse: Half-length figures of Archduke Ferdinand right holding sword and sceptre. Reverse: Arms. About EF, some adjustment marks on obverse. ($100-$150)

2100 Tirol. 1574 (Hall) Guldentaler (a coin valued at 60 Kreuzer, they were smaller than the taler which was valued at 66 kreuzer). Vogl-90. Archduke Ferdinand. Obverse: Half-length figure right holding sword and sceptre, 60 below. Reverse: Arms with date above. About Very Fine with some flatness on the number 60, no doubt an attempt to fool someone and pass this coin at the full taler value. Very scarce! ($125-$200)

GREAT COLLECTIONS

It is a matter of record that the American Auction Association and Bowers and Ruddy Galleries have handled a good share of the major collections to come on the market in recent decades. And yet, you don't have to have a "great collection" to be a consignor to one of our sales. On the contrary, in each of our sales we usually have a number of consignors who sell properties—a few single coins or an extensive group—worth from a few thousand dollars on up. Thinking of selling? Write or call today for complete information.

2101 Bohemia. 1624 (Kuttenberg) Taler. D-3143; Vogl-143. Obverse: Emperor Ferdinand II standing right holding sword and orb. Reverse: Double eagle. About Very Fine, flatness on obverse from strike. ($125-$175)

Very Rare Early Newfoundland Note

2164 The Commercial Bank of Newfoundland. Jan 1, 1867 1 Pound or 4 Dollars Specie. Charlton page 186. This bank, founded in 1857, was liquidated during the panic of 1894. Even so, its notes are still redeemable accounting to some degree for their extreme rarity today in any condition. We can find no record of this note being offered for sale but would estimate its value at $400 and up. Good, edge a bit rough.

2165 China. Year 1 of the Hung Hsien Era (1916) Dollar. Y-332; K-663. Obverse: Uniformed bust of Yuan Shih Kai with high feathered hat. Reverse: Dragon flying left with sceptre and arrows in front claws. Inscribed above: Empire of China. Below: Beginning of Hung Hsien (Era). In 1915 a movement began in China to re-establish the monarchy. This piece was to honor Yuan Shih Kai's coronation, which never occurred due to political unrest in Yunnan province. Yuan Shih Kai died on June 6, 1916 and with him died the Constitutional Monarchy. Only a few of these interesting crowns survive to remind us, and this piece is one of the best. Gem BU. ($250-$500)

2166 **China. Empire** Crowns. (1,2) Chihli. 34th yr. of Kuang Hsu (1908) Dollar. Y-73. Both VF. (3) Hupeh. Undated (1908) Dollar. Y-131. Scarce EF, three tiny chops, light scratches. (4) Kiangnan. 1904 Dollar. Y-145a. Sharp EF. **Republic** Crowns. (5 and 6) Year 3 (1914) Dollars. Yuan Shih Kai. Y-329. Both pieces are VF with tiny chop marks. (7) As preceding but Year 10 (1921). Toned About EF. (8) Undated (1927) Memento Dollar. Y-318a; K-608o. Not the common variety. EF-AU. (9) Yr. 23 (1934) Dollar. Y-345. Obv: Sun Yat Sen. Reverse: Junk. Choice BU. (10) Undated (1943) Yunnan-Burma Stag Tael. Y-497. EF, light scratches. (Total: 10 pieces) ($60-$120)

2167 China. Lot of Crowns. (1) Undated (1908) Dollar. Y-14. Tai-Ching-Ti-Kuo silver coin. Toned EF. (2) Kwangtung. 1908 Dollar. Pei Yang Arsenal. Toned VF+. (3) Kiangnan. 1901 Dollar. Y-145a. Toned VF. (4) Year 3 (1914) Dollar. Y-329. Yuan Shih Kai. Toned VF+. (5) Undated (1927) Memento Dollar. Y-318a. Lustrous EF-AU. (6) Year 23 (1934) Dollar. Y-345. Obverse: Sun Yat Sen. Reverse: Junk. Toned AU. (Total: 6 pieces) ($40-$80)

Rare 1937 ABC Peso

2168 **Cuba.** 1937 1 Peso. Y-16; E-13. From 1934-37 the ABC pesos were issued, however the coins did not circulate. Their primary function was to guarantee the backing of the newly issued silver certificates. Most were melted in 1951 when silver prices soared. Only a few handfuls of this rare date escaped the melting pot! This is an exceptional specimen — free of the usual bagging — and should bring a premium bid. Gem BU. ($750-$950)

2169 Cuba. 1953, 4 piece Jose Marti commemorative set. Includes the brass 1 centavo, the silver 25 and 50 centavos (which were the first of these denominations to circulate in Cuba) and the popular crown size 1 peso. Y-20–23. Mounted handsomely in the souvenir card issued by the Banco Nacional de Cuba, this toned BU set should bring a premium bid! ($35-$55)

2170 **Cyprus.** 1970 500 Silver Mils. Y-46a. This is the beautiful F.A.O. crown issue. Only 5,000 struck. Faint handling, otherwise a Brilliant Proof. ($100-$125)

2171 **Czechoslovakia.** Silver commemorative lot. (1) 1934 20 Korun. Y-13. VF+; (2) 1954 25 Korun. Y-54. F-VF; (3) 1955 25 Korun. Y-56. VF; (4) 1965 25 Korun. Y-70. Choice BU; (5) 1968 25 Korun. Y-77. Choice BU; (6) 1955 50 Korun. Y-57. VF+; (7) 1968 50 Korun. Y-78. Scarce. Gem BU; (8) 1949 100 Korun. Y-46. Choice BU; (9) 1955 100 Korun. Y-58. VF; (10) Slovakia. 1944 50 Korun. Y-S28. Superb Choice BU, especially nice! (Total: 10 pieces) (Retail: $85+)

BID WITH CONFIDENCE

We invite you to bid by mail. Over the years thousands of buyers have found this the ideal way to add to their collections. Complete details are given on page 2 of this catalogue.

2281 Saxe-Weimar. 1613 Eight Brother Taler. Merseb-3796. Johann Ernst and his 7 brothers. As before but larger portraits. Lovely style. VF, some light oxidation. ($100-$150)

2282 Saxe-Weimar. 1855 Double Taler. C-94; D-846. Very scarce one year type issued under Karl Friedrich. Only 19,000 struck. Wear wise it grades nice VF, but this coin has been in a fire resulting in some bubbling in the field and some blackness in metal. The coin is buckled and has been slightly re-tooled in fields. Some edge knocks. Strictly a filler with all details bold. ($40+)

2283 Saxony. 1537 Taler. Obverse: Bust of Johann Friedrich right holding sword. Reverse: George facing left. Abt. VF, mount removed from rim. Considerable oxidation and partial re-tooling. ($40-$80)

2284 Saxony. 1601 (Dresden) Three Brothers Taler. Merseb-776. Obverse: Facing busts of brothers, Christian II, Johann George and August. Reverse: Plumed arms. VF+, some traces of double striking on obverse; once dipped. ($100-$150)

2285 Saxony. 1617 ½ Christmas Taler. Merseb-887. Johann George I. Obverse: Hands supporting suppliant arms with cornucopia around. Reverse: King Solomon kneeling before his mother. Rare! Abt. VF. ($350-$550)

2286 Saxony. 1626-H.J. Taler. Johann George I. Obverse: Half length bust right holding sword and helmet. Reverse: Six plumed helmets over ornate arms. As Merseb-1040 but taler. Sharp VF, once cleaned. ($100-$200)

2287 Saxony. 1694 2/3 Taler (Gulden). Merseb-1326. Johann George IV. Dresden Mint. Obverse: Bust right. Reverse: Two arms in ovals, hat above. Scarce so nice. Lovely EF/Abt. EF, some adjustment marks on rim. Quite an attractive portrait. ($90-$130)

2288 Saxony. 1737-F.W.o.F. Taler. D-2665; Cz-8871. Friedrich August II. Obverse: Bust right. Reverse: Crowned shields of Poland and Saxony. Considered by most to also belong in Polish collections. Very scarce. Nice VF. ($300-$500)

2289 Saxony. 1830-S (Dresden) Taler. D-867. Anton. Mint Master Johann G. Studer. Lustrous AU, with a few small edge imperfections (from strike). Once cleaned. ($100-$150)

2290 Saxony. (1) 1864-B (Dresden) Mining Taler. C-272a; D-896. Obverse: Bust of Johann left. Reverse: Crowned arms supported by 2 miners. AU. (2) 1865-B Taler. C-273a; D-895. Obverse: As before. Reverse: Arms supported by a pair of lions. Nicely toned EF. A pair of lovely talers! (Total: 2 pieces) ($50-$90)

2291 Saxony. 1912-E (Dresden) 3 Mark. YS-48. Friedrich August. An above average specimen of this desirable low mintage coin. Brilliant Proof. Obverse has light hairlines and a few tiny handling marks. The reverse is choice. ($125-$225)

COINS OF GREAT BRITAIN cont.

2353 1927, 6 piece Proof Set. This beautiful set contains all of the silver issues of 1927. Only the halfcrown of this design was struck for circulation in this year. The designs of the other 5 denominations were not issued for circulation until 1928. A rare and desirable set, exceptionally well preserved. All are Choice Proofs with an occasional handling mark. ($300-$400)

2354 1927, 6 piece Proof Set as preceding. Most of the coins have light handling. ($275-$350)

2355 1937, 15 piece Proof Set. A lovely set which includes all types of copper, brass, and silver coins issued for circulation, plus a Maundy set. All are Choice Proofs with light toning and a few scattered hairlines (you really have to look to find them). Quite above average and most impressive; the case is well preserved. ($170-$270)

2356 1953, 10 piece Coronation Proof Set. Contains all types issued for circulation. All are one year types. Choice Brilliant Proofs. The bronzes are beginning to tone. Cased as issued. ($60-$100)

2357 1953, 10 piece cased Proof Set as preceding. The bronzes have a few spots, all other coins are choice. ($50-$80)

2358 Pair of 1897 Victoria Jubilee Medals in silver. Obverse: Young head bust as used on her coinage of 1837 through 1886. Reverse: Veiled head as used from 1893 to 1901. (1) 56mm. Toned Matte Proof. Cased as issued. (2) 31mm. Toned EF. Cased as issued. (Total: 2 pieces) (Retail $85+)

THE BEST PRICE FOR YOUR COINS

When Armand Champa, one of America's leading numismatists, decided to sell his collection he solicited offers from leading dealers. Dissatisfied with the bids received and with the great time and effort it took to show his collection to many different people, he then consigned his magnificent collection to us for auction sale. The Armand Champa Collection sale took place and attracted international attention. When the sale was over, Mr. Champa told us that his coins sold in our sale for MORE THAN DOUBLE the highest cash offer he had previously received! So appreciative was he, that he did something unprecedented in the annals of numismatics: completely unsolicited by us, Armand Champa placed large advertisements in "The Numismatist," "Coin World," and "Numismatic News" to thank us for the great job we did for him!

Thinking of selling? Do as Mr. Champa did: consign your coins to us. It's the ideal way to sell!

2360 Greece. Pair of silver coins. (1) 1930 20 Drachmai. Y-37. Exceptionally Choice BU, rare thus. (2) 1963 30 Drachmai. Y-47. Five Kings. Toned Uncirculated. (Total: 2 pieces) ($40-$60)

THE EXPERIENCE OF MR. MATT ROTHERT
–Past president of the A.N.A.–

When Mr. Matt Rothert, distinguished past president of the American Numismatic Association (and recipient of nearly all the important numismatic awards that can be bestowed on an individual), decided to sell his collection he compared the style, presentation, commission rates, advantages, and prices realized of leading auction houses. He chose the American Auction Association division of Bowers and Ruddy Galleries. We catalogued his coins and sold them at an event that was a numismatic landmark. Following the sale, Mr. Rothert wrote to us and expressed his great satisfaction with the way we handled the sale. In fact, he was so pleased that he subsequently sent us several additional consignments for further sales!

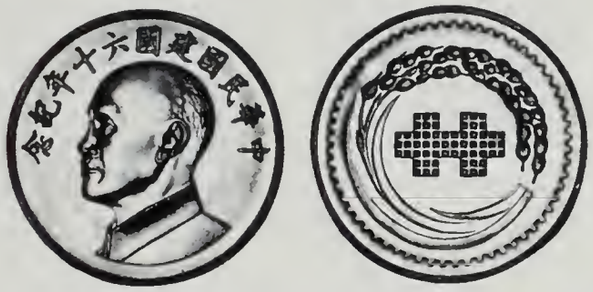

Thinking of selling? Do as Mr. Rothert did: consign your coins to us. It's the ideal way to sell!

2763 Undated (1603-1625) Double Crown or ½ Sovereign of **James I.** N-2086. Obverse: Crowned bust right. Reverse: Crowned shield. Third bust (struck 1605-6, rose is I.M.). VF, a bit creased and scratched in obverse field; lightly clipped but with an attractive portrait. ($400-$600)

2764 Undated (1625-1649) 20 Shillings or Unite of **Charles I.** F-122; N-2148. Obverse: Crowned bust left. Reverse: Crowned shield. Minted 1627-28 (I.M. - Castle). From the standpoint of wear this coin grades VF+ however some light flan porosity on the bottom quadrant on both sides is evident as well as a few scratches in the obverse field. It is possible that the piece was expertly removed from a mounting. The attractive, well-struck portrait which this coin displays, definitely places it as a desirable addition to the collectors' trays. ($500-$750)

2765 1653 Commonwealth Gold Unite. F-135; N-2715. Obverse: Shield of St. George within wreath. Reverse: Conjoined shields of St. George and Ireland. F-VF, possibly mounted; one scratch on the reverse. ($750-$1450)

2766 1797 1/3 Guinea. F-230. George III. Obverse: Laureate head right. Reverse: Crown. Abt. EF, lustrous. ($175-$275)

2767 1670 ½ Guinea. F-156. Charles II. Obverse: Laureate head right. Reverse: Cross of four shields. VF with weakness and scratches on the reverse. This coin has the usual flan flaws, however the portrait is attractive. ($325-$450)

2768 1695 ½ Guinea. F-180. William III. Obverse: Laureate head of William right. Reverse: Cross of four shields. Sharp VF, some scratching on face. ($375-$575)

2769 1798 "Spade" ½ Guinea. George III. 5th style laureate head with spade shield on reverse. VF, once lightly polished. ($80-$160)

2770 1810 ½ Guinea. F-229. George III. Seventh type with short hair, "Garter" reverse. About VF. ($100-$150)

2771 1817 ½ Sovereign. George III. F-237. Obverse: Laureate head right. Reverse: Crowned shield. VF+. ($150-$250)

2772 1818 ½ Sovereign. F-237. George III. As preceding. Abt. VF. ($80-$150)

2773 1836 ½ Sovereign. F-250. William IV. A well worn "filler" specimen of this rather elusive type. VG-Fine. ($75-$150)

2774 Gold ½ Sovereigns from the reign of Victoria. (1) 1845 F-254. Young head. Scarce date. F+. (2) 1852 F-254. Young head. F+. (3) 1892 F-258. Jubilee head. Abt. VF. (Total: 3 pieces) ($100-$150)

2775 1887 ½ Sovereign. F-258. Victoria, Jubilee head. Scarce, only 797 struck. Brilliant Proof. Has some faint friction as well as moderate hairlines and handling. ($150-$250)

2776 1722 Guinea. F-192. George I. Obverse: Laureate head right. Reverse: Cross of four shields. Lustrous EF/EF+, some slight double striking on obverse and scratches across hair. Much underlying lustre. ($900-$1350)

2777 1734 Guinea. F-204. George II. Obverse: Laureate young head left. Reverse: Crowned shield. Abt. VF. ($650-$850)

2778 1746 Guinea. F-206. George II. Obverse: Laureate mature head of George left. Reverse: Crowned shield. Abt. EF/EF, once cleaned. ($900-$1350)

2779 1786 Rose Guinea. F-220. George III. 4th laureate head. Sharp VF, light handling. ($150-$300)

2780 1786 Rose Guinea. F-220. George III. As preceding. From point of view of wear, this piece grades nearly VF, 3 mounts have been removed from the rim at 10, 12, and 2 o'clock. Also, coin is slightly porous overall, no doubt acid washed. A decent "filler" of this normally expensive coin. ($60-$120)

2781 1813 Military Guinea. F-222. George III. Obverse: Laureate head right. Reverse: Arms within the Order of the Garter. This was the last type issued before the demise of the Guinea system. A very scarce one year design. Lustrous EF, tiny nick below bust on rim. ($750-$1000)

2782 1847 1 Sovereign. F-252. Victoria young head. Shield reverse. A scarce date. Abt. VF/VF. ($60-$100)

2783 1823 2 Pounds. F-240. George IV. Obverse: Large bare head left. Reverse: St. George slaying dragon. EF-AU, trace of mount removed at 12 o'clock; moderate handling from use in broach. ($600-$950)

2784 1887 5 Pounds. F-255. Victoria, Jubilee head. Scarce, only 797 struck in Proof. This coin is Brilliant Proof, no wear or rub but once lightly cleaned hence there are numerous light to moderate hairlines. Still, quite an attractive piece! ($1000-$1500)

2785 1887 5 Pounds. F-255. Victoria, Jubilee bust. One year type. Seldom encountered so nice! Choice BU, nick on neck. A lovely specimen. ($1000-$1500)

2786 1821 Gold Coronation Medal (34mm) of George IV by Pistrucci. Obverse: Laureate head left of George IV. Reverse: King being crowned by winged Nike; three Greek deities in attendance. 31.13gms. Beautiful high relief portrait! EF-AU, faintest possible trace of expertly removed mount on edge. ($675-$925)

2787 **Hungary.** 1848 1 Ducat. F-83. Ferdinand V (Austrian Emperor Ferdinand I). Obverse: King standing. Reverse: Madonna and child. This is the scarce variety with the inscriptions in Hungarian. AU, with prooflike fields; slight rim damage and circular bend in flan. ($175-$300)

2788 **Iceland.** 1974 10,000 Kronur. Durst-2. Commemorating the 1100th Anniversary of the Settling of Iceland. Obverse: Ingolfar Arnarson, the first Norseman to settle on this isolated island, throwing the high-seat pillars from his boat. Reverse: Depicted within a quartered center circle are four folklore figures – the four Guardian Spirits of Iceland: the Sea Eagle, a Giant armed with a spear, a flame breathing Dragon, and a huge Bull. BU. ($250-$350)

2789 Iceland. 1974 Proof Set of 500 and 1000 Kronur in silver (Y-22, 23) and 10,000 Kronur in gold (Durst-2). Issued in observance of the 1100th Anniversary of the First Settlement of Iceland in A.D. 874. Designed in a traditional Nordic style, each design is based on the ancient legend of the founding of Reykjavik. Obverses – 500 Kr.: Viking woman leading cow; 1000 Kr.: Two Vikings claiming land, signal fire burning in background; 10,000 Kr.: Ingolfar Arnarson. Reverses: Four Guardian Spirits of Iceland within quartered circle. All are Gem Proofs. ($425-$550)

Note: According to legend, Ingolfar Arnarson, leader of the Norwegian settlers, threw the high-seat pillars overboard while still at sea. He founded his settlement at the site where they landed and named his city Reykjavik.

The same legend tells that the first settlers were allowed as much land as they could pace-off in a day, with the stipulation that they must return to where they started at the end of the day. A signal fire was set to mark the starting point.

Women were allowed the same privilege but were required to lead a cow as they walked.

BID BY MAIL!

If you cannot attend the sale in person, we invite you to bid by mail. Check through this catalogue carefully and determine which lots are of the greatest interest to you. If you strongly want a particular lot, then a strong bid is indicated. However, we also recommend that you bid on many lots which you might like "if the price is right." By bidding on 50 additional lots this way, chances are good that you might buy 5 or 10 exceptional values. Every time a sale is ended, we receive calls and letters saying, in effect "I wish I had bid $— on that lot, but now it is too late." Well, right NOW it isn't too late! Send us your bidsheet today!
